Reader's Guide to the 2015-2020 Adopted Capital Improvement Program

The City of Seattle's 2015-2020 Adopted Capital Improvement Program (CIP) includes an introduction, departmental sections, appendix, an index, and a glossary. The introduction provides information on the CIP, allocations, funding sources for capital projects, significant initiatives, support for neighborhoods and neighborhood plan projects, and policies guiding the City's capital investments.

Departmental sections comprise the majority of the CIP document, and contain detailed information on approximately 636 individual projects. The following departments have sections in this book: Parks and Recreation, Seattle Center, Seattle Public Library, Seattle Department of Transportation, Seattle City Light, Seattle Public Utilities (divided into four sections: Drainage and Wastewater, Solid Waste, Technology Projects, and Water), Department of Information Technology, and Finance and Administrative Services. The Appendix lists new or expanded capital facilities, as required by the Growth Management Act.

Reading CIP Project Pages

CIP project pages, located in the departmental sections of the CIP, provide the most detailed information about a project. The project pages contain the following information:

BCL (Budget Control Level): A grouping of similar projects into department-specific programs. Also reflects the level at which expenditures are controlled to meet state budget law provisions.

Project Type: Projects are identified as New Facilities, Improvements to Existing Facilities, or Rehabilitation or Restoration of Existing Facilities. Technology projects, or those that do not fit into the categories above, are identified as New Investments.

Location: Street address, intersection, or general location of a project. If a project has multiple location entries, only one project location entry will be included in the CIP.

Start Date/End Date: Quarter and year a project begins and is expected to finish. Projects that continue from year-to-year are shown as "Ongoing." Projects without a determined start or end date may show as "TBD" or "On Hold."

Project ID: Unique number identifying a project in the City's automated financial management system.

Neighborhood District: The City is divided into 13 neighborhood districts. This field indicates in which (if any) neighborhood district(s), a project is located. Some projects are located in more than one neighborhood district or outside the city, and are so noted.

Neighborhood Plan: If a project supports a neighborhood plan recommendation, the name of the neighborhood plan is indicated. Some projects are in more than one neighborhood plan, or not in a neighborhood plan. The City's 38 adopted neighborhood plans can be viewed online at <http://www.seattle.gov/neighborhoods/npi/plans.htm>.

Council District: The City is divided into 7 Council districts. This field indicates in which (if any) council district(s), a project is located. Some projects are located in more than one council district or outside the city, and are so noted.

Urban Village: This field indicates whether a project is located in an Urban Village, a designated geographic area expected to accommodate future population and job growth, as defined by the Comprehensive Plan's growth management strategy.

Project Description: Information about the purpose, scope, and history of the project.

Revenue Sources: Revenues are all sources of money supporting a particular project such as grants, private donations, Councilmanic debt, Real Estate Excise Taxes, etc. The Revenue Source Table lists the project's revenue sources, life-to-date (LTD) expenditures through 2013; the 2014 revised budget (including 2014 Adopted Budget, carry-forward balances, abandonments, and supplemental appropriations); Adopted 2015 appropriations; and endorsed appropriations for 2016 and estimated appropriation requests for 2017-2020. "TBD" indicates that revenue sources are to be determined.

Fund Appropriations/Allocations: This table lists the appropriating funds, which are those funds (with Summit codes) through which the department has legal appropriation authority, and dollar information by year. Note that this level of detail on the project pages is for information only. The City appropriates funds at the Budget Control Level.

O&M Costs (Savings): Estimate of significant increases or decreases in operations and maintenance costs as a result of a capital project. "N/C" denotes that operations and maintenance costs are not calculated.

Spending Plan: This field is shown when spending differs from appropriation or allocation for a given year. This is displayed for a limited number of projects in this document.

Background

The City of Seattle owns and operates a variety of physical assets, ranging from community parks, roadways, bridges, office buildings, libraries, open space, fire stations, maintenance yards, facilities at Seattle Center, and more. The City must properly maintain these assets in order to ensure they are safe, lasting, and provide a welcoming and usable space to serve their intended purposes. The City's utility infrastructure is also included in the Capital Improvement Program (CIP), including electric, solid waste, water and wastewater utility assets. The City's capital facilities support City operations, direct public services and programs, and in some cases, provide direct public benefits themselves.

Every year during the annual budget process, the City adopts a six-year Capital Improvement Program (CIP) which outlines anticipated investments over that timeframe. The 2015-2020 Adopted CIP totals \$5.2 billion over six years, with \$1,050 million of that amount designated for 2015 and \$1,021 in 2016.

Capital Planning Policies

The City has historically based capital planning efforts on a set of criteria that help set priorities among potential capital programs. [Resolution 31203](#), adopted in June 2010, set out the following policies to guide the City's capital spending:

- Preserve and maintain existing capital assets
- Support the goals of the City's plans
- Support economic development
- Consider external funding possibilities
- Consider revenue-generating possibilities
- Seek regional funding for regional projects
- Pursue cost-saving commitments
- Pursue conservation and sustainability investments

Additional specific considerations include:

- Compliance with regulatory requirements
- Coordination between departments and with other jurisdictions
- Public safety and health

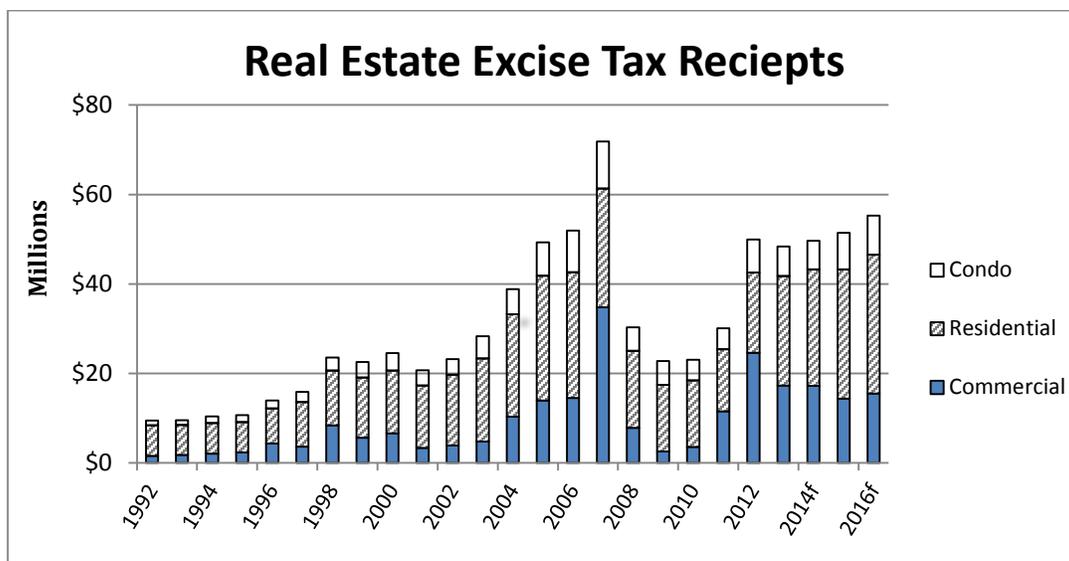

Capital Program Funding and Recent Challenges

Like all large municipalities, Seattle relies on a variety of sources to pay for capital projects. These include locally-generated revenues (taxes, fees, voter-approved levies, and user charges), intergovernmental revenues (including state and federal grants), and debt issuance. Unlike pay-as-you-go sources of funding, the issuance of debt requires revenues in future years to repay the principal and interest expenses. These traditional sources continue to provide the majority of funds for capital facility investments. The City's level of capital investment is based on the mix and extent of financial resources available to the City.

Both Seattle City Light and Seattle Public Utilities fund utility projects with revenues from utility rates. Each utility's adopted financial policies determine what share of their capital investments are funded through cash, and what share from debt. These policies are designed to balance the portion of current investments that are paid by today's ratepayers, versus future ratepayers who will also benefit from long-term capital investments.

Funding of the City’s general government capital program is highly dependent on revenue from Real Estate Excise Taxes (REET), transportation-specific taxes, and in some cases, relies on General Fund support, as well. REET is a volatile revenue source that tracks closely to local economic activity. As shown in the graph below, REET revenues rose sharply in 2004-2007 during the economic expansion, but plummeted in 2008-2011 as activity fell off. REET revenues started to rebound in 2012 due to robust commercial activity and although slightly lower in 2013 remained relatively high. While projections for future years anticipate REET revenues to resume growing, large and sudden fluctuations in this revenue source make it difficult to rely upon for ongoing capital needs.

For this reason, the City maintains a reserve of REET funds to help offset fluctuations in revenue. The City dipped into this reserve in 2010, but through careful management of capital spending over the last four years, the City will achieve the \$10 million target reserve level in 2014. This will be the first time since 2008 that the City has been able to fully fund the reserve. The reserve is critical to ensure the City has sufficient funding to maintain core asset preservation work in the event of a future economic downturn.

As described above, the City also relies on other funding sources for its capital program, including locally-generated revenues (taxes, fees, voter-approved levies, and user charges) and intergovernmental revenues (including state and federal grants). Reliance on councilmanic or voter approved debt is another common financing tool, although those obligations must be repaid from the same set of limited resources including REET and General Fund revenues.

Seattle’s Recent History – Major Voter-Approved Capital Projects

In addition to reliance upon general tax sources, Seattle undertook a number of major capital projects during the last two decades using voter-approved funds and Councilmanic (non-voted) debt. Voter-approved capital projects include improvements to Seattle Center and construction of new or expanded community centers and parks, new or remodeled downtown and branch libraries, new or remodeled fire facilities, parks improvements, funding for low income housing, and replacement of the Central Seawall. The most recent capital project levies are:

- The 1998 Libraries for All Levy: A 30-year, \$196 million dollar voted bond measure that built a new Central Library, four new branch libraries and renovated or replaced 22 branch libraries.

- The 1999 Community Centers and Seattle Center Levy: An eight-year, \$72 million levy which renovated and expanded community centers as well as renovations to Seattle Center.
- The 2003 Fire Facilities and Emergency Response Levy: A nine-year, \$167 million levy which upgrades or replaces the City's 33 fire stations and renovates the Chief Seattle fireboat, and built a new Emergency Operations Center and a new Joint Training Facility.
- The 2006 Bridging the Gap Levy: A nine-year, \$365 million levy for transportation maintenance and improvements.
- The 2008 Parks and Green Spaces Levy: A six-year, \$146 million levy to acquire, develop, or restore, existing or new, parks, recreation facilities, cultural facilities, green spaces, playfields, trails, community gardens, and shoreline areas.
- In August 2012, Seattle voters approved a seven-year, \$123 million levy to support, maintain and improve core Library services. Included as part of the levy well were resources for the preservation and maintenance of library facilities. The City Librarian and the Library Board of Trustees prepare annual progress reports that show how levy proceeds have been used each year. The levy provides an average of \$3.1 million annually for major maintenance and asset preservation projects; including maintenance necessary for building components such as roofs, floors, finishes, HVAC and mechanical systems.
- The 2012 Central Seawall Excess Levy: A 30-year, \$290 million bond levy completes funding necessary to construct Phase 1 the Elliott Bay Seawall Project (from Washington Street to Virginia Street) and funds reconstruction of one of the public piers (Pier 62/63 and Waterfront Park).
- In August 2014, voters passed a ballot measure creating the Seattle Park District. The passage of the park district is the culmination of the Parks Legacy Plan project, led by the Parks Legacy Plan Citizens' Advisory Committee. The goal of the park district is to provide long-term, stable funding to support recreation programming, parks projects and the critical needs for investment in major and ongoing maintenance.

Funding Dynamics for Significant Future Capital Projects

Given general resource funding challenges, the City will continue to rely on mix of general government resources and voter-approved funding packages to complete major capital projects and to secure needed funding for basic asset preservation. The City has identified several major priority areas for which significant capital investments will be needed. The following sections describe these priority areas at a high level.

Transportation

The City's existing transportation network faces an extensive backlog of major maintenance. Current funding is not sufficient to maintain the City's road, bridges, signs, etc. In addition, through a series of long-term planning efforts the City has completed "Master Plans" that identify large potential investments in a transit network, bicycle facilities and pedestrian-oriented infrastructure. In recent years, the Bridging the Gap transportation levy has provided a significant amount of funding to help address all these needs. The levy expires at the end of 2016, leaving uncertainty about how such investments will be funded in the years to come.

Public Safety Facilities

Several public safety facilities are in need of upgrade or replacement. Fire Station 5 on Alaskan Way, Fire Station 22 on East Roanoke Street, the Police Harbor Patrol facility on Lake Union and the Police North Precinct on College Way North all are in need of investment. The Seawall funding package that

was approved by voters in November 2012 provides a portion of the resources required for the repair of Piers 62 and 63, but additional funding will also be required to complete these projects.

The 2014-2019 Adopted CIP included General Fund-supported debt to continue work on a new Police North Precinct facility from which the Seattle Police Department (SPD) serves the north end of the city. In addition, the 2015 Adopted - 2016 Endorsed Budget includes \$500,000 to complete a capital facilities assessment for both SPD and the Seattle Fire Department. Once these needs are better understood, the City will be better-positioned to develop an associated funding plan.

Waterfront

The City has developed an ambitious plan for the redevelopment of Seattle's downtown waterfront. The removal of the Alaskan Way Viaduct will provide an opportunity to reconnect the City and the waterfront. The 2015 Adopted - 2016 Endorsed Budget provides a revised funding proposal for the project. In addition to general government resources in the form of REET and General Fund-supported debt, the funding plan calls for significant contributions from a Local Improvement District (LID) and philanthropy. The LID will require that property owners who benefit from the project to pay a share of its cost. As the timeline for Viaduct removal becomes clearer, the City will initiate the LID process and further refine the funding plan.

Protecting and Creating Opportunities for Workers

The City considers not only what capital projects to fund, but also how to deliver them and achieve broader goals for fairness, equity and opportunity in the community. The Department of Finance and Administrative Services (FAS) leads a number of policy initiatives to ensure social responsibility and equity in the spending of City capital dollars.

Fair and equitable treatment of workers: While FAS monitors and enforces fair and equitable treatment of workers in City construction contracts to protect workers, due to limited resources, it could only focus on a small number of projects. In 2013, FAS increased its monitoring and enforcement of wage and labor conditions on City-contracted construction projects, including Office of Housing-financed projects. The 2015 Adopted - 2016 Endorsed Budget provides funding to allow FAS to continue this program, expanding its scope to provide compliance monitoring for wage and labor violations for projects considered high-risk.

Reduce barriers to construction jobs: The City's own spending on major capital investments can help drive employment within the local economy. Construction jobs and related positions offer living-wage jobs that can support individuals and families. In the 2015 Adopted - 2016 Endorsed Budget, the Mayor funds a new program to increase the number of Seattle residents able to secure jobs on City-funded capital projects. As the City invests in local infrastructure, it can also be investing its own residents. This program, led by the Department of Finance and Administrative Services, will involve engagement with construction firms, labor unions and community stakeholders. The City will adapt its contracting approach to promote an emphasis on local hiring and look for ways to help develop a pipeline of qualified local workers.

Women and Minority Owned Business (WMBE): The City continues to successfully address contracting equity for minority- and women- owned businesses. In 2011, FAS implemented a Citywide requirement on all public work bids and contracts above \$300,000 that has very effectively encouraged and enforced commitments by contractors to use WMBE firms.

2015-2020 Adopted Capital Improvement Program Summary

The 2015-2020 Adopted CIP totals \$5.2 billion for six years and includes approximately 635 individual projects. \$3.4 billion of the six-year total, or 65%, are utility projects managed by Seattle City Light (SCL) and Seattle Public Utilities (SPU), and mostly are funded by utility rates. Seattle Department of Transportation's (SDOT) CIP totals for \$1.1 billion (20%) over the six-year period, while the remaining departments (Parks and Recreation, Finance and Administrative Services, Seattle Center, Seattle Public Library, and Department of Information Technology) account for approximately \$771 million, or 15%, of the six-year CIP.

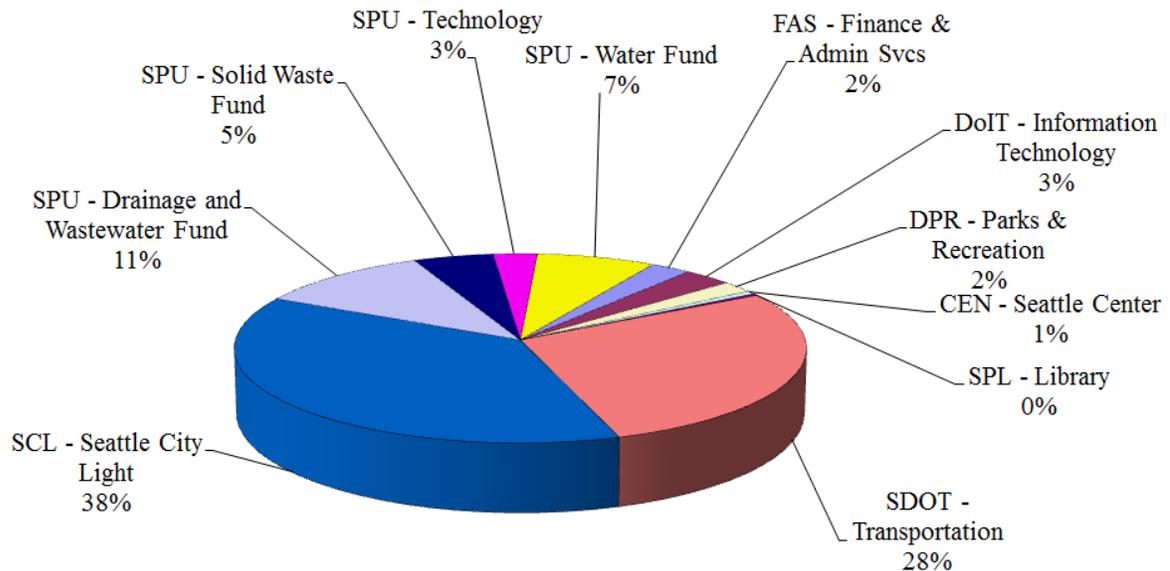

2015-2020 Adopted CIP by Department (Dollars in Thousands)

Department	2014 Adopted	2015 Adopted	2016 Endorsed	2017 -20 Estimated	2015-20 Total
Finance and Administrative Services	49,568	26,332	45,104	139,345	210,782
Information Technology	37,707	31,696	11,313	51,386	94,395

State Funding	23,981	23,193	24,184
Utility Funding	510,426	668,925	675,521
Real Estate Excise Tax	57,784	52,971	41,474
Bond Financed	82,445	42,896	66,608
Voter-approved Funds (Seattle and King Co.)	122,980	181,122	123,034
Grand Total	923,437	1,050,294	1,021,515

2015-2020 Adopted Capital Improvement Program

2015 Adopted CIP by Revenue Source - \$ 1,050 Million

Asset Preservation

A 2002 Asset Preservation Study found that, despite achieving targets recommended by the 1994 Citizens’ Capital Investment Committee, the City still lagged behind industry-recommended levels of investment in asset preservation. The four general government departments involved in the study (Finance and Administrative Services, Library, Parks and Recreation, and Seattle Center) are responsible for about of 6.9 million square feet of building space, 2.6 million square feet of parking space, and 240 million square feet of grounds (primarily green space) and work yards. These assets have a replacement value of approximately \$5 billion. Assuming an annual asset preservation funding target of 1.0% of the replacement value for buildings and 0.5% of the replacement value for other assets, the City should be investing about \$50 million (2013 dollars) per year in asset preservation. These percentage targets are consistent with those used by other jurisdictions that were polled as part of this study’s review of best practices.

In 2015, the City will spend \$24 million from the Cumulative Reserve Subfund (CRS) and \$37 million overall on asset preservation of general government infrastructure in parks, libraries, civic buildings, and on the Seattle Center campus. Space rent charges continue to fund projects in the Department of Finance and Administrative Services as recommended by the 2002 Asset Preservation Study. The department of Transportation will spend an additional \$174 million on asset preservation of infrastructure in 2015.

Cumulative Reserve Subfund

The Cumulative Reserve Subfund (CRS) is a significant source of ongoing local funding to support capital projects in general government departments. This subfund is a reserve fund authorized under state law and is used primarily for maintenance and development of City capital facilities. Real Estate Excise Taxes (REET) supports the majority of CRS spending.

The table below shows department allocations from CRS along with other special programs, including debt service payments, support for the Design Commission, Artwork Conservation and the City’s Tenant Relocation Assistance Program. Further explanations of these special programs can be found in the 2015 Adopted – 2016 Endorsed Budget.

CRS Appropriations By Department						
(\$1,000s)	2015 Adopted			2016 Endorsed		
Department	CRS Direct	Dept Capital	CRS Total	CRS Direct	Dept Capital	CRS Total
Subtotals by Department						
Seattle Center	\$0	\$5,193	\$5,193	\$0	\$5,475	\$5,475
Seattle Department of Transportation	\$0	\$32,090	\$32,090	\$0	\$21,832	\$21,832

Department of Parks & Recreation	\$0	\$13,761	\$13,761	\$0	\$12,300	\$12,300
Finance & Administrative Services Department	\$0	\$13,198	\$13,198	\$0	\$14,260	\$14,260
Cumulative Reserve Subfund Direct Spending	\$3,830	\$0	\$3,830	\$3,502	\$0	\$3,502
Total	\$3,830	\$64,742	\$68,572	\$3,502	\$54,883	\$58,385

Neighborhood Projects

Support for Neighborhoods and Neighborhood Plan Projects

The 2015-2020 Adopted CIP contains more than 113 projects, totaling approximately \$271 million, in support of neighborhood plans in 2015. The plans, created with input from 20,000 citizens and approved by the City Council, identify actions desired to ensure the City’s neighborhoods continue to thrive and improve as Seattle grows over the next 20 years, as well as meet commitments under the State’s Growth Management Act. Projects supporting neighborhood plan recommendations are found throughout the CIP and include parks, street and pedestrian improvements, libraries, community centers, drainage improvements, and pedestrian and safety lighting. When a project’s location is included in a neighborhood plan’s geographic parameters, the neighborhood plan is indicated. Funding for these projects comes from voter-approved levies, the Neighborhood Matching Subfund, the Cumulative Reserve Subfund, utility funds, Community Development Block Grant funds, and other public and private sources.

Neighborhood Project Fund

Beginning in 1999, the City set aside approximately \$1 million per year from the Cumulative Reserve Subfund (CRS) for major maintenance projects identified in neighborhood plans. These neighborhood projects are identified and prioritized by the community, and selected for funding by the Department of Neighborhoods, SDOT, Parks, and the City Budget Office. The most recent selection process was completed in August 2015, resulting in the project list below. The Department of Parks and Recreation budget includes \$158,000 of CRS REET II funding and SDOT's budget includes \$842,000 of CRS REET II funding. SDOT also contributes an additional \$200,000 of resources to supplement the available

Overview

resources for these projects. The Mayor, as part of his commitment and investment in Neighborhoods, added an additional \$1 million of CRS resources for 2015 and 2016. The additional projects that will be funded for 2015 have not yet been identified and therefore are not included in the table below. See SDOT project TC365770 (NSF/CRS Neighborhood Program) and Parks project K732376 (Neighborhood Capital Program) for more detail.

2015 Neighborhood Projects Funds – Small Projects

District Council	Project ID #	Project Description	Dept	CRS/NSF Amount
Ballard	2014-026	Crossing improvements at 17 th Ave NW at NW 85 th St.	SDOT	90,000
Subtotal Ballard				90,000
Central	2014-028	Crossing improvements at 13 th Ave and Cherry St.	SDOT	7,500
Central	2014-043	Improve lighting, seating, signage etc. on Parks property on the Garfield Campus	Parks	82,500
Subtotal Central				90,000
Delridge	2014-016	Install rapid flash beacons at 11 th Ave SW and SW Holden St	SDOT	36,000
Delridge	2014-020	New kiosk, bench and picnic table repair or replacement and other small improvements at Roxhill Park	Parks	26,000
Subtotal Delridge				62,000
Downtown	2014-003	Repairing sidewalk on 1st Ave between Bell St and Blanchard St	SDOT	116,400
Subtotal Downtown				116,400
East	2014-064	Design intersection revision for Madison St and McGilvra Blvd E	SDOT	90,000
Subtotal East				90,000
Greater Duwamish	2014-047	Crossing improvements at intersection of 14th Ave S, 15th Ave S and Golf Drive S	SDOT	90,000
Greater Duwamish	2014-010	Forest habitat restoration and trail construction.	Parks	21,000
Subtotal Greater Duwamish				111,000
Lake Union	2014-022	Crossing improvements at intersection of Leary Ave NW and NW 43rd St	SDOT	20,000

Overview

District Council	Project ID #	Project Description	Dept	CRS/NSF Amount
Lake Union	2014-041	Install two benches at Colonnade Park	Parks	4,000
Lake Union	2014-058	Develop design for sidewalk at E Allison St	SDOT	65,000
Subtotal Lake Union				89,000
Magnolia/QA	2014-069	Sidewalk, curb repair and widen tree pits at 2420 and 2426 32 nd Ave SW	SDOT	97,000
Subtotal Magnolia/QA				97,000
North	2014-065	Install traffic circle at NE 79 th St and 8 th Ave NE	SDOT	46,500
North	2014-002	Fund design for new sidewalk at NE 40 th Ave E to Sandpoint Way on NE 110 th St	SDOT	43,500
Subtotal North				90,000
Northeast	2014-038	Waterway #1 enhancements at 43 rd Ave NE and 35 th Ave NE	Parks	25,000
Northeast	2014-060	Pedestrian and cyclist crossing improvement at NE 68 th St and 35 th Ave NE	SDOT	70,000
Subtotal Northeast				95,000
Northwest	2014-054	Repair walkway on 3 rd Ave NW between 145 th and 140 th	SDOT	42,000
Northwest	2014-005	Install safety improvements at 115 th and Fremont Ave N	SDOT	33,500
Subtotal Northwest				75,500
Southeast	2014-051	Street improvements between Rainier Avenue between Walker and 23 rd Ave if project is added to the 2014 Pedestrian Improvement Contract	SDOT	90,000
Subtotal Southeast				90,000
Southwest	2014-056	Sidewalk repair between California Ave and Fauntleroy	SDOT	104,100
Subtotal Southwest				104,100

Overview

District Council	Project ID #	Project Description	Dept	CRS/NSF Amount
GRAND TOTAL				1,200,000

Large Neighborhood Street Fund Projects

The Bridging the Gap Levy provides approximately \$1.5 million per year on a triennial basis for larger neighborhood projects estimated to cost over \$100,000. The City added an additional \$1 million for these projects, for a total of \$5.5 million over 3 years. The third, and final, round of project selection began in fall 2012. The City anticipates completion of these projects by 2015:

Area	Project	Location	Type	Amount
Greater Duwamish	Georgetown Festival Street	12th Avenue S between S Vale & S Bailey Streets	Pedestrian Improvements	1,130,000
Northwest	Greenwood Ave N Sidewalk	Greenwood Ave N between N 92nd and N 97th Streets; N 104th to N 105th Streets	Sidewalk	\$1,070,000
Magnolia / Queen Ann	Lake To Bay Loop - Harrison	W Harrison St & 1st Ave W; W Harrison St & Queen Anne Ave N	Pedestrian Improvements	\$ 500,000
Greater Duwamish	W Duwamish Trail Extension	8th Ave. S. from S Portland Street to S Kenyon Street	Trail	\$ 575,000

			Total	\$ 5,500,000

Neighborhood Matching Subfund

The 2015 Adopted - 2016 Endorsed Budget maintains funding to [Neighborhood Matching Subfund](#) (NMF) grant programs. A number of CIP projects, particularly in the Department of Parks and Recreation, include funding from NMF.

The City created the NMF in 1988 to provide funding to Seattle neighborhood groups and organizations for a broad array of neighborhood-initiated improvement, organizing, or planning projects. Many of these projects also support citywide initiatives such as Race and Social Justice, Youth Violence Prevention, Environment and Sustainability, and Neighborhood Planning. Awards range from a few thousand dollars up to \$100,000, and NMF funds can cover all phases of a capital project except property acquisition. The NMF program requires a 1:1 match for capital projects, which means all awards leverage other private and public contributions. Matches consist of volunteer labor, donated materials, professional services, or money. The Department of Neighborhoods (DON) administers the granting process.

Please see the [NMF section](#) in the 2015 Adopted - 2016 Endorsed Budget for additional information

Art and Design Funding for City Capital Projects

1% for Art Program

The 1% for Art program, established by Seattle Municipal Code Chapter 20.32, requires the City deposit 1% of eligible CIP project budgets in the Municipal Arts Fund for the commission, purchase and installation of artworks throughout Seattle. The Office of Arts and Culture (Arts) manages the 1% for Art program and the Municipal Art Fund. Arts establishes the scope of work and budgets for new art projects and describes the status of ongoing public art projects in an annual [Municipal Art Plan \(MAP\)](#).

Municipal Art Fund revenues from the 1% for Art program can fluctuate significantly from year-to-year depending on changes in City capital investments. In 2015, the Municipal Art Fund is expected to receive approximately \$3.6 million from capital departments for the 1% for Art program, as described below.

	2014	2015	2016
1% for Art Revenues	Revised	Adopted	Endorsed
City Light	\$465,107	\$770,402	\$1,066,033
Seattle Public Utilities	\$875,562	\$1,229,476	\$978,532
Finance & Admin. Services	\$39,891	\$23,456	\$145,081
Seattle Center	\$5,300	\$5,790	\$7,000
Parks & Recreation	\$290,414	\$5,000	\$129,000
Transportation	\$901,901	\$1,529,631	\$1,003,022
Total	\$2,578,175	\$3,563,755	\$3,328,968

In addition to the 1% for Art revenues identified above, Arts receives \$187,000 in 2015 from the Cumulative Reserve Subfund for repair of all sited and portable artworks.

Design Commission

2015-2020 Adopted Capital Improvement Program

Established in 1968, the [Seattle Design Commission](#) advises the Mayor, the City Council and appropriate City departments on design and environmental aspects of the City's Capital Improvement Program. Commission members are appointed by the Mayor for a renewable two-year term. Membership is comprised of two licensed architects, one professional fine artist, one appointee from the Get Engaged program, one lay member, and at least one and no more than two from each of the following categories, for a maximum total of five (professional urban planner, professional environmental or urban designer, landscape architect, and licensed professional engineer). The Design Commission is fully funded with funds from the Cumulative Reserve Subfund.

Projects eligible for review include any on-or above-grade structure, including buildings and additions to buildings, bridges, park developments, street furniture, and all similar installations. The Commission reviews below-grade structures such as tunnels, arcades and underground passageways that are regularly visible to the public. Projects reviewed by the Commission must be financed in-whole or in-part with City funds, be on land belonging to the City, or be subject to approval by the City. Commission involvement in capital improvement projects begins as early in the planning process as possible, starting with participation in the consultant selection process and continuing through the many stages of project development. This includes project reviews at the scope briefing or pre-design stage, conceptual design, schematic design, design development, and sometimes construction documents stages.

Background of Capital Improvement Program Policy Drivers

As described above, City investments in capital projects are guided by a set of key policies reflecting the City's values and priorities. These policies shape how the City takes care of buildings and infrastructure, invests in capital projects in areas that have accepted growth as envisioned in the City's Comprehensive Plan, preserves the City's and greater Seattle's historic buildings, supports sustainable building practices, and ensures that all members of the community have access to the economic opportunities capital projects create. The following section details some of these key policies.

Sustainable Building Policy

In February 2000, the City Council adopted a Sustainable Building Policy for the City of Seattle ([Resolution 30121](#)) which articulated the City's commitment to environmental, economic and social stewardship and set the expectation that new municipal facilities meet established green building standards. Specifically, it called for all new construction and major remodel projects over 5,000 square feet to achieve a LEED Silver rating. When adopted, this policy was the first of its kind in the nation and represented a ground-breaking approach to demonstrating City leadership and transforming the marketplace.

Since 2000, the green building community has experienced exceptional growth in expertise and capacity. Recognizing this change, in 2011 the Executive proposed an updated Sustainable Building Policy which the Council unanimously passed in October of 2011 ([Resolution 31326](#)). The update represents a comprehensive approach that reflects advances in the green building industry, aligns the policy with the City's increased attention to climate change, addresses a greater range of project types, and ensures that Seattle continues to provide leadership that advances sustainable development in both the public and private realms.

As a result of the 2011 Sustainable Buildings and Sites Policy now in place:

- For new construction, additions and major renovation projects 5,000 square feet or greater
 - The minimum required green building rating is LEED Gold;
 - There are minimum requirements for energy and water efficiency, construction waste reductions, and bicycle amenities;

- For tenant improvement projects 5,000 square feet or greater, where the scope includes mechanical, electrical, and plumbing
 - The minimum required green building rating is LEED Gold;
 - There are minimum requirements for water efficiency and construction waste reductions;
- Completion of a Capital Green checklist is required for projects smaller than 5,000 sf or those otherwise not eligible for a LEED rating;
- City departments are encouraged to test new approaches and standards, such as the Living Building Challenge and the Sustainable Sites Initiative;
- Annual reporting of performance under the policy is required by March 31st of each year.

Additionally, the resolution directs City departments to evaluate and improve existing standards and processes that relate to tenant improvements, leasing, and site management.

City of Seattle Comprehensive Plan

The City of Seattle's Comprehensive Plan informed development of the 2015-2020 Adopted CIP. The Comprehensive Plan had its last major update in 2004. The Department of Planning & Development will finalize much of the work on the next update to the City's Comprehensive Plan in 2015. Departments have taken special note of capital projects in neighborhoods targeted for substantial growth in the future or that have received substantial growth in the last few years. This effort is intended to make sure areas receiving growth have the appropriate physical infrastructure to accommodate such growth, while balancing the major maintenance of existing facilities, such as power distribution systems, pipes, community centers, swimming pools, libraries, and streets that are located throughout the City, not just in targeted growth areas.

Federal and State Regulatory Requirements

The City's utilities have several facility projects in their Capital Improvement Programs to meet federal and state regulatory requirements. The City of Seattle must abide by the City's two National Pollutant Discharge Elimination System (NPDES) permits, one for storm water and one for combined sewer system. The City is required, for example, to invest hundreds of millions of dollars in the combined sewer/storm water system over the next several years to control the number of combined sewer overflows (CSOs) into receiving bodies of water, including Lake Washington and Puget Sound. City Council recently approved a CSO Consent Decree with the Environmental Protection Agency (EPA) and the Department of Ecology (DOE). This Consent Decree outlines how the City will become compliant with EPA and DOE regulatory requirements regarding sewage releases from the city conveyance system.

City Light operates its hydroelectric dams and powerhouses under licenses from the Federal Energy Regulatory Commission. Licenses include Settlement Agreements that require City Light to perform mitigation and public benefit activities. City Light is currently completing Skagit Mitigation; is well under way with Boundary Relicensing; and is planning to start Skagit Relicensing in 2019. To meet North American Electric Reliability Corporation (NERC) security standards, City Light is proposing substation and hydro facility improvements such as access cards, fencing, camera coverage, and vehicle and pedestrian gates.

City Light also complies with a wide range of permitting requirements and environmental regulations. Current examples include wetlands mitigation in the Technical Training Center project, mitigation of soil contamination at the Denny Substation site, and ongoing environmental mitigation in the Endangered Species Act project. Street-use permits and regulations are a major part of City Light projects that expand and repair the electric distribution system.

Endangered Species Compliance

The Cedar River Watershed Habitat Conservation Plan (HCP) is a 50-year, ecosystem-based plan that was prepared to address the declining populations of salmon, steelhead and other species of fish and wildlife in the Cedar River basin. The HCP was prepared under the Endangered Species Act and is designed both to provide certainty for the City of Seattle's drinking water supply and to protect and restore habitats of 83 species of fish and wildlife that may be affected by the City of Seattle's water supply and hydroelectric operations on the Cedar River. Seattle Public Utilities is continuing to implement its commitments under the HCP, which include downstream habitat protection and restoration, upland forest restoration, logging road decommissioning, and ongoing monitoring. City Light is also acquiring salmon habitat in the Green/Duwamish, Skagit, and Snohomish watersheds.

Americans with Disabilities Act

The United States Department of Justice (DOJ) conducted an audit of select City of Seattle facilities, practices and procedures, in order to assess City compliance with the Americans with Disabilities Act (ADA), and reported its findings to the City. While the City is largely in compliance, there are some elements within facilities that the DOJ has requested that the City update or alter in order to improve accessibility for individuals with disabilities. In 2015, the City will continue to appropriate funds to alter or address items where the City agrees accessibility can be improved. In addition, planning for a survey of City facilities is underway. A project manager added in 2011 will continue to coordinate and oversee implementation of ADA improvements in certain City facilities; determine and report compliance to DOJ; and review and modify as needed the facilities design and construction process with regard to the ADA. Additionally, a citywide prioritization process was developed to allocate ADA funding among the five implementing departments: Parks and Recreation, Seattle Center, Seattle Public Library, Department of Transportation and Finance and Administrative Services (FAS). Among other criteria, the process aimed to identify the highest-use facilities and those where ADA work could be done at the same time as other planned remodeling.

In order to provide additional proactive monitoring of compliance with ADA standards for new capital projects, in 2013 the City added additional staff dedicated to monitoring ADA compliance of new projects. An additional position was added in 2014 to the Parks Department, dedicated to ADA compliance coordination. These positions are funded by capital projects. In the 2015 Adopted -2016 Endorsed Budget, Seattle Department of Transportation adds one strategic advisor and funding for an ADA transition plan to ensure curb ramp compliance.

Historic Preservation

Seattle's commitment to historic preservation began with citizen efforts in the 1960s to block the demolition of two of Seattle's oldest neighborhoods - the Pike Place Market and Pioneer Square. Both neighborhoods were threatened with proposals that would have irreversibly changed the character of the districts. The Pike Place Market was faced with an Urban Renewal Plan that would have demolished it, while Pioneer Square was threatened with a major roadway project. In 1970, the Seattle City Council created the Pioneer Square Preservation District, Seattle's first historic district. Then, in 1971, voters approved an initiative to create the Pike Place Market historical district. In 1973, the Seattle City Council adopted a Landmarks Preservation Ordinance to safeguard properties of historic and architectural significance throughout the City, and more than 450 buildings, sites, and objects have now been designated as City landmarks.

The City of Seattle currently owns or maintains many of those landmarks, including libraries, park buildings, and fire stations. In 2001, the City began a comprehensive effort to survey and inventory both City-owned properties and privately-owned properties throughout the City. To date, the Department has completed surveys and inventories in 20 of the City's neighborhoods including Belltown, Cascade, Central, Columbia City, Denny Triangle, Downtown, Fremont, Georgetown, Mount Baker, North Beacon Hill, North Rainier, Pike-Pine, Pioneer Square, Queen Anne, South Lake Union, South Park, South Seattle, University, Wallingford, Waterfront, as well as city-owned properties, pre-1906 residential

Overview

buildings, and neighborhood commercial buildings throughout the City. The results of those efforts are available in a searchable database on the [Department of Neighborhoods website](#).

Parks and Recreation

Overview

The Department of Parks and Recreation's (DPR) mission statement is: "Seattle Parks and Recreation will work with all citizens to be good stewards of our environment, and to provide safe and welcoming opportunities to play, learn, contemplate, and build community."

Achievement of this statement is manifest in a 6,200-acre park system of 465 parks and extensive natural areas. Parks provides athletic fields, tennis courts, play areas, specialty gardens, and more than 25 miles of boulevards and 120 miles of trails. The system comprises about 11% of the City's land area. Parks also manages many facilities, including 26 community centers, eight indoor swimming pools, two outdoor (summer) swimming pools, four environmental education centers, two small craft centers, four golf courses, an outdoor stadium, a conservatory, a Japanese garden, and much more.

2015-2020 CIP Highlights

The 2015 Capital Improvement Program (CIP) reflects a wide range of projects. The Cumulative Reserve Subfund (CRS) provides a total of \$13.7 million, through a combination of \$11.8 million in REET I and REET II, and \$1.9 million in CRS-Unrestricted. Approximately \$2.4 million of the total CRS funding is budgeted for debt service, and \$1.1 million is for Aquarium projects as part of the City's \$8 million capital commitment. The newly created Seattle Park District provides \$2.5 million. The 2008 Parks Levy provides \$1.7 million of funding, in addition to that already appropriated from the Levy in Parks' CIP since 2009.

The Department's 2015 CIP maintains a strong commitment to asset preservation. As such, the projects proposed for discretionary REET are prioritized consistent with our asset management criteria. The \$7 million of REET funding in 2015 remaining after debt service and the Aquarium commitment support some of the department's ongoing major maintenance programs (e.g., Pavement Restoration, Landscape Replacement and Forest Restoration) along with two major maintenance projects: Crew Quarters Replacement (Magnuson Park) and Pratt Park Water Feature Renovation. Major maintenance projects, such as environmental remediation, landscape and forest restoration, irrigation system repair, pavement restoration, and replacing major roof and HVAC systems, address basic infrastructure needs across the Parks system. It also provides \$1 million for capital maintenance at Bell Harbor Marina. Finally, the CIP includes an additional \$1.5 million of REET for an algae reduction treatment of Green Lake (\$300,000 in 2015 and \$1.2 million in 2016).

While retaining the previous commitment to provide \$4 million for moorage improvements, the CIP reflects Parks proposal to transfer the 2015 allocation (\$2 million) to 2016 as the Project Advisory Team process with the community is still underway and the RFP process for a concessionaire has not yet begun. This \$2 million of funding in 2016 is in addition to the \$2 million that was included in the 2014 Adopted CIP Budget (for a total of \$4 million).

Parks will continue to use federal Community Development Block Grant (CDBG) funds for the Seattle Conservation Corps and for ADA accessibility improvements in 2015. The Seattle Conservation Corps (SCC) executes park improvement projects in low to moderate-income neighborhoods while at the same time providing training and employment for formerly homeless adults. In 2015, \$808,000 will be used to fund the SCC to improve approximately 20 parks.

The most notable change in the 2015-16 CIP are the addition of the Seattle Park District capital items. Seattle voters approved the creation of the Park District in August of 2014. However, because the election occurred after the State's deadline for creating new taxing districts, the Park District will not collect revenues until January 1, 2016. In 2015, the Park District will fund

Department of Parks and Recreation

select programs through an intergovernmental loan from the City. Loan proceeds will add \$2.5 million to the CIP in 2015. In 2016, when the District is collecting revenues, it will add \$35.3 million to the CIP. In 2015, the Park District investment areas are:

- Major Maintenance (\$843,000): This funding will begin to address Parks' major maintenance backlog which currently is estimated at \$267 million. Examples of major maintenance include roof replacement, electrical repairs, play area replacement and trail restoration. In 2016, this funding will increase to \$16.8 million.
- Green Seattle Partnership – City Forest Restoration (\$353,000): These restoration dollars will help the Green Seattle Partnership meet its goal of restoring 2,500 acres of forest by 2025. In 2016, this funding will increase to \$2.2 million.
- Community Center Rehabilitation and Development (\$358,000): This initiative will fund dedicated major maintenance and upgrades for community centers. In 2016, this funding will increase to \$4.3 million
- Aquarium Major Maintenance: In 2015, these funds (\$300,000) for the City-owned, non-profit operated Seattle Aquarium are included in the Parks Operating Budget rather than the CIP budget to provide the Aquarium additional flexibility as it deals with the effects of Seawall construction. In 2016, this funding will increase to \$1 million.
- Zoo Major Maintenance (\$500,000): This funds major maintenance at the City-owned, non-profit operated Woodland Park Zoo. Maintenance projects include seismic improvements, roof replacements and electrical repairs. In 2016, this funding will increase to \$1.8 million.
- P-Patch Rejuvenation (\$100,000): This program funds the renewal of existing P-Patch gardens, updates aging garden infrastructure and increases accessibility. In 2016, this funding increases to \$200,000.

The 2008 Parks and Green Spaces Levy projects comprised a significant portion of Parks CIP for the past six years. While only \$1.7 million is allocated in 2015, spending will continue for a few more years as final projects wrap up. Highlights include:

- Acquisition of neighborhood parks and green spaces continues. To date, 13 Neighborhood Park acquisitions, 18 Green Space acquisitions and 4 Opportunity Fund acquisitions have been completed totaling 22.7 Acres. In addition, the department has added 48.7 acres via transfers from other City departments.
- The Development Category is almost fully spent. Projects completed to date include 40 Neighborhood Parks and Playground projects, five Playfield Projects, six major parks projects, and a Cultural Facility Renovation.
- In 2015, funding for the Urban Forestry-Green Seattle Partnership project (GSP) continues with a combination of REET funding (\$1.7 million) and 2008 Parks Levy funding (\$427,000).
- Approximately \$34.8 million has been allocated in the Opportunity Fund BCL through May of 2014. Thirteen development projects and two acquisitions were designated in the first round of the Opportunity Fund. Two play field renovations were funded with savings from the Playfield sub category and \$9.8 million was appropriated for 17 major

Department of Parks and Recreation

maintenance projects with inflation reserve funding reallocated from the development category. Eleven development projects and three acquisitions were designated in the second round of the Opportunity Fund.

- The 2015 CIP reallocates funding for the Seattle Asian Art Museum consistent with recently passed legislation. In 2014, the Mayor proposed and the City Council passed legislation authorizing a funding swap, in which the \$9 million in Levy proceeds earmarked for the Seattle Asian Art Museum renovation would be reprogrammed through the 2008 Neighborhood Park Development category to provide for scheduled major maintenance projects that otherwise would have been undertaken in 2015-2017, and funded by the Cumulative Reserve Subfund (CRS). In return, the City will set aside \$9 million in CRS funds, reserving \$3 million each year from 2014-2016 for the future Seattle Art Museum renovation. This allows time the Seattle Art Museum time to raise additional funds for the project.

Thematic Priorities

Parks analyzes and prioritizes projects generated in the identification stage of the capital improvement program development using the priority ranking based on Parks management guidance and the City Council's "Basic Principles Underlying Strategic Capital Planning," policies established in Resolution 30365:

Policy 1. Preserve and maintain existing infrastructure. While building new infrastructure is often seen as more glamorous, maintaining existing infrastructure is critical to ensuring continued service and protection of previous capital investments...

Policy 2. Support the goals of the City's functional plans. Capital investments will be targeted to support the goals of the Comprehensive Plan, recognized neighborhood plans, adopted facility, department, or sub-area Master Plans, and other adopted City functional plans...

Policy 3. Support economic development. The City's ability to fund major maintenance and capital development in the long run depends on the strength of the City's economy and tax base...

Seattle Parks and Recreation is committed to development and management of an environmentally sustainable park system that is safe and welcoming for all users, including residents of the City and visitors to Seattle. This means effective use of energy and utilities in all of our facilities, being efficient in the use of water for irrigation and other uses; creating landscapes that can be efficiently maintained; and operating park facilities that are clean and safe.

These principles have led Parks to use available resources to undertake energy conservation improvements to various facilities, to continue to make investments that preserve the integrity of facilities; to make improvements that ensure public safety in the parks, and to address various code deficiencies. Examples of this last principle include upgrades to play areas to meet modern play area safety guidelines as well as Americans for Disability Act (ADA) guidelines to ensure safe access to park and recreation opportunities.

Funding Sources

Funds for the development of the system and for ongoing asset management come from a variety of sources, including three levies, the Cumulative Reserve Subfund, the Shoreline Park Improvement Fund, Councilmanic debt, and other special fund sources, grants, and private donations. The funding sources used to cover annual debt service vary depending on the projects being debt financed, Golf revenues are used to repay all Golf related debt; Aquarium revenues pay for a portion of the debt service on the bonds used to renovate Pier 59; revenue from Magnuson Park rentals is expected to pay most of the debt service for the renovations of Buildings 11 and 30; and the General Fund covers debt service for the rest of the Pier 59 bonds and on other Parks-related bond funds. In 2014, voters passed a ballot measure creating a metropolitan park district (the Seattle Park District) which will provide additional funding for Parks capital projects.

Levies

The most recent levy is the 2008 Parks and Green Spaces Levy, a six-year \$145.5 million levy intended “to acquire, develop, or restore, existing or new, parks, recreation facilities, cultural facilities, green spaces, playfields, trails, community gardens, and shoreline areas.” The levy package, largely modeled after the successful 2000 Pro Parks Levy, provides for acquisition of new parks and green space and for development and improvement of various parks throughout the City. This includes renovation of 23 play areas, park development atop lidded reservoirs, renovation of several existing parks and cultural facilities, and an environmental category to provide funding for the Green Seattle Partnership, community gardens, trails, and improved shoreline access at street ends. An Opportunity Fund Category funds other community-identified projects.

The 2000 Pro Parks Levy was an eight-year, \$198.2 million levy that funded more than 100 projects to acquire, improve, and develop parks, playfields and trails, improve maintenance, increase environmental stewardship programs, and enhance recreational programming for teens and seniors. The Levy closely follows the plan forged by the Pro Parks 2000 Citizens Planning Committee. The last two remaining 2000 Pro Parks Levy projects, 12th Avenue Development and University Heights Parks Development, were completed in the fall of 2014.

Metropolitan Park District

In August 2014 the voters of Seattle passed a ballot measure creating a metropolitan park district (the Seattle Park District). The Seattle Park District has same boundaries as the City of Seattle. The City Council members, acting *ex officio* and independently, comprise the governing board (the District Board). The Seattle Park District can collect property taxes up to \$0.75 per \$1,000 of assessed value. Revenues for the District do not begin until 2016, at which point it is projected to collect at a rate of \$0.42 per \$1,000 of assessed value. In 2016, it will generate \$35 million of revenue for Parks capital budget with the largest component (\$16.8 million) going towards major maintenance.

Cumulative Reserve Subfund

The basic funding for Parks’ capital improvement program is the Cumulative Reserve Sub-Fund, (CRS) that is earmarked for asset management purposes. This funding is provided by revenues from Real Estate Excise Tax (REET) revenues. It is used to address various capital programs, such as boiler replacement, electrical system upgrades, small irrigation upgrades, small ballfield improvements, small roofing replacement, paving restoration, landscape and forest restoration, and others. It also funds replacement of aging ballfield lighting systems and certain Aquarium infrastructure projects.

Project Selection Criteria

Parks' project selection process for the capital improvement program is founded in two basic approaches. First, for the various levy projects, projects are implemented essentially as described in the ballot measure. In most cases the project scope and budget have been determined during the planning for the levy, but in some cases allowances are made that enable choices to be made within a programmatic direction. An example of this includes the current levy's allowance for acquisition of neighborhood park sites in urban villages that are deficient in open space. Second, Parks uses the Asset Management Plan to identify and rank needed capital improvement projects that are funded by CRS (and in the future, by Park District funds).

The Parks Asset Management Plan (AMP) is a compendium of projects to address facility needs. Projects are identified through ongoing condition assessments, consultant studies, six-year facility plans, work order analyses (to identify key problem areas), and intradepartmental information sharing of facility maintenance issues and needs. Every two years, the AMP is reviewed and updated. While Parks' planning staff prepares and coordinates the AMP planning process and document development, the process involves a collaborative approach throughout the Department to develop project scopes and budget estimates.

Typically, all of the projects included in the asset management plan are scored and ranked with the six overarching criteria that most closely match the need for the project. The following six criteria are used to rank the projects:

Priority 1 – Code Requirements (100 points) The project brings a facility or element up to federal, state, and Seattle code requirements (such as ADA, water quality, fire suppression, and seismic), or meets other legal requirements. (Note: Projects that primarily are ADA-focused fall under this priority. ADA elements will also be completed as part of projects that fall under other priorities.)

Priority 2 – Life Safety (35 points) The project will eliminate a condition that poses an imminent threat of injury. Examples of safety hazards are lack of seismic elements, failing piling, outdated play equipment, emergency management, or a documented environmental health hazard.

Priority 3 – Facility Integrity (30/25/20 points) The project will keep the facility operational and extend its life cycle by repairing, replacing, and renovating systems and elements of the facility, including building envelope (roof, walls, windows), electrical, plumbing, storm and sewer line replacement, and synthetic turf replacement.

30 points: Extends life cycle, high usage/heavily programmed, underserved area, community center, emergency shelters.

25 points: Extends life cycle, high usage/programmed.

20 points: Extends life cycle.

Priority 4 – Improve Operating Efficiency (25 points) The project will result in the reduction of operating and maintenance costs, including energy and water savings.

Priority 5 – Other (5 Points) Projects that have a unique element (e.g., leverage other funds) and/or are known needs that do not fit the other priorities.

Department of Parks and Recreation

Priority 6 – Project Necessary in Next Biennium (5 points) Projects identified in plans and other documents that need to be done in the upcoming biennium (e.g., scheduled synthetic turf replacement or regulatory deadlines).

As indicated in the preceding section, the application of these criteria results in project lists that first address code and life safety issues. These could include ADA improvements, roof replacement, seismic upgrades, and piling replacement, among other types of code and life safety issues. If there are sufficient funds available, the next highest priorities are facility integrity-related projects. Protection of the exterior “skin” of a building by replacing roofs, walls, and windows will maintain the viability of the facility and ensure its usefulness for programs and staff. Other investments that extend the life of the building such as renovation or replacement of electrical, plumbing, and heating systems are also given priority. Work that reduces operating and maintenance costs or produces water and energy savings are also priorities. Finally, projects that leverage other funds or should be done in the biennium such as planned turf replacements are the next priorities.

Summary of Upcoming Budget Issues and Challenges

Traditionally, Parks has not had sufficient resources to support ongoing asset management of the Seattle Parks system. The Parks Asset Management Plan identifies \$267 million in needed improvements over the next six years, with much of that work actually considered a backlog due to deferred maintenance over the years. With the creation of the Seattle Park District, significant new resources will be available to prevent an increase in the maintenance backlog. Overtime, this funding should allow Parks to reduce, and perhaps eventually eliminate, the backlog.

Parks also has several very large assets that are in need of attention but are beyond the capacity of the typical annual outlay of CRS funding. Waterfront Park (Pier 58) is deteriorated and load limits have been placed on its use. The metal reinforcement of the concrete promenade and gallery structures are so deteriorated as to make them seismically unsound. Piers 62 and 63 deteriorated to the point that the popular Summer Nights on the Pier concert series was cancelled after the 2004 season due to load limits and the need for major repairs. The Office of the Waterfront is the City’s lead agency responsible for project design and construction including pier reconstruction as part of the redevelopment of the entire waterfront and the reconstruction of the Seawall (as set forth in the 2012 Central Seawall Excess Levy).

Magnuson Park is the 309 acre former Sand Point Naval Air Station property. The park’s setting on Lake Washington is idyllic, and many of the 55 buildings and other remnants of the Navy operations have retained their unique historic character. There are, however, over \$38 million in identified needs to address building code deficiencies and major maintenance needs in Building 2 (two large hangars), Building 18 (tenant improvements), and Building 47 (completing the community center renovation), among others. An additional \$4 million is needed for infrastructure improvements such as road and parking improvements, sanitary and storm sewer renovation, and site lighting. Parks is exploring opportunities to develop partnerships to share in the renovation costs which will both preserve the buildings and ensure that they are occupied in the long term.

City Council Changes to Proposed CIP

The City Council removed \$342,000 of a proposed \$700,000 from the Seattle Park District-funded Community Center Rehabilitation and Development CIP project (Fix it First BCL) and

Department of Parks and Recreation

added it to various performance monitoring areas. Please see the City Council Changes section of the Parks operating budget for additional information on how the City will use these funds.

Council also moved \$30,000 of REET from the Landscape Restoration project to the Smith Cove Redevelopment project. Parks will use the funds for project design work with the goal of better integrating park features with the adjacent King County combined sewer overflow facility currently under construction.

Finally, Council shifted \$300,000 of REET for Green Lake Alum Treatment forward to 2015 from 2016. This was achieved by deferring \$300,000 in the Aquarium Major Maintenance project from 2015 to 2016. This change will allow Parks to complete the alum treatment prior to the summer of 2016.

City Council Provisos to the CIP

The City Council adopted the following budget proviso:

“No more than \$494,000 of the Real Estate Excise Tax I funds appropriated in the 2015 budget for the Department of Parks and Recreation’s Parks Infrastructure BCL may be spent until the Department of Parks and Recreation files with the City Clerk a report on the City’s major bicycle/pedestrian trails (the Burke Gilman, Myrtle Edwards, Alki, Duwamish, Chief Sealth, and I-90 Lid trails) that summarizes condition assessments, provides cost estimates for needed pavement improvements and, based on the Department’s asset management plan criteria, identifies priority trail segments for pavement improvements. The report should include trail conditions, cost estimates and improvement priority information from the Seattle Department of Transportation (SDOT) for the portions of the trails maintained by SDOT.”

2015 - 2020 Adopted Capital Improvement Program

Department of Parks and Recreation

Mt Baker Park Play Area Renovation

BCL/Program Name:	Ballfields/Athletic Courts/Play Areas	BCL/Program Code:	K72445
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2014
Project ID:	K732482	End Date:	Q4/2015
Location:	2521 Lake Park DR S		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	3
Neighborhood District:	Southeast	Urban Village:	Not in an Urban Village

This project provides for replacement of all play equipment, addresses fall zone area deficiencies, adds new safety surfacing and containment, installs access and use improvements, including a new ADA path connecting the separate play pods to each other and to the sidewalk, bus stop, and to the parking by the tennis courts, and other associated work at the existing play area which was built in 1994. The scope of this project brings the play area into compliance with current play area safety standards and guideline efforts of the American Society of Testing and Materials (ASTM) and the Consumer Product Safety Commission (CPSC) as well as meets Federal ADA requirements. This project is funded out of the King County 2013 Levy.

12th Avenue Square Park Development - 2008 Parks Levy (formerly East James Court)

BCL/Program Name:	2008 Parks Levy- Opportunity Fund	BCL/Program Code:	K720041
Project Type:	Improved Facility	Start Date:	Q2/2011
Project ID:	K730145	End Date:	Q1/2015
Location:	12th AVE/E James CT		
Neighborhood Plan:	Central Area	Council District:	3
Neighborhood District:	East District	Urban Village:	12th AV

This project, part of the 2008 Parks Levy Opportunity Fund, converts an existing street and sidewalk into a park boulevard which invites and accommodates joint pedestrian and vehicular use. It will serve as a park-like extension of the adjacent, newly-acquired 12th Ave Park which is in the planning stage. The additional open space will provide green space and enhance neighborhood circulation in this dense neighborhood.

2015 - 2020 Adopted Capital Improvement Program

Department of Parks and Recreation

12th Avenue Square Park Development - Pro Parks (Formerly 12th Avenue Park)

BCL/Program Name:	2000 Parks Levy - Acquisition Opportunity Fund	BCL/Program Code:	K723007
Project Type:	New Facility	Start Date:	Q4/2008
Project ID:	K733239-02	End Date:	Q1/2015
Location:	564 12th AVE		
Neighborhood Plan:	Capitol Hill	Council District:	3
Neighborhood District:	Central	Urban Village:	Capitol Hill

This project provides for the development of a small urban park, in conjunction with adjacent private development (Seattle University), and conversion of E. James Court into a pedestrian environment. This project enhances a site that was transferred from Department of Neighborhoods to Department of Parks Recreation in 2007. This property was acquired under the Pro Parks Opportunity Fund program and development is funded from other sources.

2015 - 2020 Adopted Capital Improvement Program

Department of Parks and Recreation

24th Avenue NW Street End Improvements (Threading the Needle Park)

BCL/Program Name:	2008 Parks Levy- Opportunity Fund	BCL/Program Code:	K720041
Project Type:	Improved Facility	Start Date:	Q1/2014
Project ID:	K730189	End Date:	Q1/2017
Location:	24th AVE NW/Shilshole AVE NW		
Neighborhood Plan:	Crown Hill/Ballard	Council District:	6
Neighborhood District:	Ballard	Urban Village:	Not in an Urban Village

This project, part of the 2008 Parks Levy Opportunity Fund, improves the 24th Ave. NW street end with a pedestrian greenway, small restored waterfront beach, and an upgraded dock. Other project elements include rain gardens, cisterns, and bio-retention swales. These renovations will enhance waterfront access and the environment and be coordinated with SPU's existing 24th Ave NW outfall redevelopment.

Department of Parks and Recreation

Activating and Connecting to Greenways

BCL/Program Name:	Building For The Future - CIP	BCL/Program Code:	K720302
Project Type:	Improved Facility	Start Date:	Q1/2016
Project ID:	K730309	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project develops safe, inviting connections between parks and greenways which are residential streets that are dedicated connectors for pedestrians, cyclists, and other non-motorized travel, as identified in the Bicycle and Pedestrian Master Plan documents. Typical improvements include crosswalks, benches, greenway park entrance improvements, non-motorized paths and loops within parks, and related work. Parks will work with the Seattle Department of Transportation (SDOT) to activate and enhance connection points between parks. This project improves safety and access to and from the parks, encourages partnerships with neighborhood and community groups, business, and other stakeholders. This project is part of the Metropolitan Parks District measure put before voters in 2014.

ADA Compliance - Parks

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Rehabilitation or Restoration	Start Date:	Q2/2011
Project ID:	K732434	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This project provides for ADA improvements at a number of parks facilities. Work will be focused on selected community centers (e.g., Bitter Lake, Delridge, Garfield, Jefferson, Meadowbrook, Miller and others) and will consist of adjustments to signage, door closures, restroom fixtures, and other features. Signage will be added where needed as well. Similar work will be undertaken at Discovery Park Environmental Learning Center and other facilities to the degree that funding allows.

2015 - 2020 Adopted Capital Improvement Program

Department of Parks and Recreation

Aquarium - Pier 59 Piling Replacement and Aquarium Redevelopment Debt Service

BCL/Program Name:	Debt and Special Funding	BCL/Program Code:	K72440
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2005
Project ID:	K732283	End Date:	Q4/2025
Location:	1483 Alaskan Wy		
Neighborhood Plan:	Commercial Core	Council District:	7
Neighborhood District:	Downtown	Urban Village:	Commercial Core

This project supports debt service payments on 20-year Limited Tax General Obligation (LTGO) bonds that were issued in 2005 to pay for the replacement of the entire pier piling system of Pier 59, interior infrastructure improvements, and development of portions of the Aquarium by the Seattle Aquarium Society. The pier and Aquarium work was part of an overall plan to repair and redevelop the Aquarium and the Central Waterfront area, and to construct a new Aquarium entrance, exhibits, and visitor services on a portion of the pier. This work enhanced and extended the useful life of Pier 59 and the Aquarium.

2015 - 2020 Adopted Capital Improvement Program

Department of Parks and Recreation

Aquarium Expansion

BCL/Program Name:	Docks/Piers/Floats/Seawalls/Shorelines	BCL/Program Code:	K72447
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2015
Project ID:	K732492	End Date:	TBD
Location:	1483 Alaskan WAY		
Neighborhood Plan:	Commercial Core	Council District	7
Neighborhood District:	Downtown	Urban Village:	Commercial Core

The Seattle Aquarium is planning a major expansion to its existing footprint to add new programming and visitor capacity. It will become a major destination for the newly redeveloped waterfront. The project intends to make improvements to piers 59 and 60 with additional overwater coverage to allow for more exhibits. The aquarium is owned by Seattle Parks and Recreation but operated by the non-profit Seattle Aquarium Society. This project is part of the overall waterfront improvement program.

Aquarium Major Maintenance Commitment

BCL/Program Name:	Docks/Piers/Floats/Seawalls/Shorelines	BCL/Program Code:	K72447
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2012
Project ID:	K732436	End Date:	TBD
Location:	1483 Alaskan WAY		
Neighborhood Plan:	Commercial Core	Council District	7
Neighborhood District:	Downtown	Urban Village:	Commercial Core

This project provides for capital maintenance to the building envelope, roof, pier supports and decking, HVAC, sewer, water, and electrical systems, elevator, structural elements to the exhibits, fire alarm and suppressions systems, emergency lighting, safety improvements, and other related work at the Aquarium on Piers 59 and 60 which will extend the useful life of the facility. This project funds the remaining portion of the City obligation to provide \$8 million for agreed capital maintenance at the Seattle Aquarium. This agreement between the City of Seattle and the Seattle Aquarium Society was authorized by Ordinance 123205. Consistent with the agreement, this project is expected to be carried out by the Seattle Aquarium Society and funding will be transferred to the Seattle Aquarium Society for that purpose via an agreement with the Department of Parks and Recreation.

Location:	2300 Arboretum DR E		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	3
Neighborhood District:	East District	Urban Village:	Not in an Urban Village

This project renovates the portion of the trail from the existing MOHAI parking lot to the western edge of Foster Island. Project elements include upland and wetland restoration, invasive species removal, native plant re-vegetation, and related repairs. This restoration will improve the health of the ecosystem and provide a more enjoyable pedestrian and bicycling experience.

Department of Parks and Recreation

Ballfield Lighting Replacement Program

BCL/Program Name:	Ballfields/Athletic Courts/Play Areas	BCL/Program Code:	K72445
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2007
Project ID:	K732310	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	In more than one Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	In more than one District		

This project provides funding to conduct core testing of wood light poles at various ballfields, replace deteriorated wooden poles with metal poles, install new electrical systems, and perform other related work. The new lighting systems will reduce light spillover and energy efficient. This is a long-term program to replace all deteriorated wood light poles over the next several years at a total estimated cost of \$6 million. Future funding for this program depends on available resources.

Location:	2407 1st Ave		
Neighborhood Plan:	Belltown	Council District	7
Neighborhood District:	Downtown	Urban Village:	Belltown

This project provides for the long-term lease (or purchase) of approximately 6,000 square feet of street level space, and build-out of that space if required, in the Belltown area. Potential elements of the new space may include a multi-purpose room, a kitchen, as well as spaces for classes, community meetings, and celebrations. This project provides community center space that serves as a civic focal point for the Belltown area. It is the ninth, and final, community center to be funded by the 1999 Seattle Center and Community Centers Levy.

This project, funded with 2008 Parks Levy funds redirected from the Seattle Asian Art Museum renovation project, replaces boilers, mechanical systems, and any related work necessary in facilities throughout the Parks system. Costs for certain boiler and mechanical systems replacements may be eligible for partial reimbursement from Seattle Public Utilities or Puget Sound Energy. This project extends the useful life of the boilers and assures that Department facilities are not closed due to boiler and mechanical systems failure.

2015 - 2020 Adopted Capital Improvement Program

Department of Parks and Recreation

Broadway Hill Park Development

BCL/Program Name:	2008 Parks Levy- Opportunity Fund	BCL/Program Code:	K720041
Project Type:	Improved Facility	Start Date:	Q3/2013
Project ID:	K730180	End Date:	Q4/2015
Location:	500 Federal AVE E		
Neighborhood Plan:	Capitol Hill	Council District:	3
Neighborhood District:	East District	Urban Village:	Capitol Hill

This project, part of the 2008 Parks Levy Opportunity Fund, provides for the development of new park elements and a community garden space on this roughly 12,000 SF site. The specific elements proposed include community garden/P-Patch, seating, lawn area, and landscaping. The new amenities will provide additional park uses in this densely developed neighborhood.

Bryant Site Development

BCL/Program Name:	SR520 Mitigation	BCL/Program Code:	K72451
Project Type:	Improved Facility	Start Date:	Q3/2013
Project ID:	K732480	End Date:	Q4/2018
Location:	1101 NE Boat ST		
Neighborhood Plan:	University	Council District:	4
Neighborhood District:	Northeast	Urban Village:	University District

This project, funded with monies from the University of Washington and the Washington State Department of Transportation, remediates and develops a replacement park site at 1101 NE Boat Street for lands lost at the Washington Park Arboretum and East Montlake Park for the development of the new State Route 520 Bridge and HOV project, I-5 to Medina. Improvements include demolition, site remediation, design, and development of a new waterfront park. The replacement park continues to serve city-wide park needs.

Comfort Station Renovations

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2015
Project ID:	K732453	End Date:	TBD
Location:			
Neighborhood Plan:	In more than one Plan	Council District:	All
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project renovates selected comfort stations for improved ADA access, ventilation and finishes (walls and floors), and security. The renovations also may include reconfigured stalls, new toilets, urinals, and sinks, ADA accessories, paint and finishes, and related work, depending on the needs of a particular site. In some cases, a comfort station may be replaced with a prefabricated unit. More park users will have access to these facilities, and the improvements will make them more inviting and comfortable. Specific sites will be determined in early 2015.

Community Center Rehabilitation & Development

BCL/Program Name:	Fix It First - CIP	BCL/Program Code:	K720300
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2015
Project ID:	K730301	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project provides funding for improvements at 26 community centers, the oldest of which is 103 years old. Typical improvements include renovation, upgrades, or replacement of major building systems, roof and building envelopes, seismic upgrades, painting, energy efficient lighting and other environmentally sustainable building components, Americans with Disabilities (ADA) access improvements, and related work. In some instances, facilities will be replaced or remodeled to improve programming space. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, improve the overall community center experience for the public, and meet today's and future recreation needs. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Develop 14 New Parks at Land-Banked Sites

BCL/Program Name:	Building For The Future - CIP	BCL/Program Code:	K720302
Project Type:	Improved Facility	Start Date:	Q1/2016
Project ID:	K730308	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project develops 14 new parks on land-banked sites that were acquired under prior levies. Depending on the size, location, and type of park, new elements could include trees and landscaping, paths, plazas, a play area, site furniture, lighting, and related improvements. Each newly developed park will improve the neighborhood and contribute to improved health for park users, and will have environmental benefits. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Neighborhood Plan:	Capitol Hill	Council District:	3
Neighborhood District:	East District	Urban Village:	Capitol Hill

This project, part of the 2008 Parks Levy Opportunity Fund, removes impervious paving; adds a bioswale and planting area; and improves neighborhood pedestrian connections. These improvements will make the site more environmentally sensitive and enhance its accessibility to the public.

Electrical System Replacement Program

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2007
Project ID:	K732307	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project renovates electrical systems throughout the park system to reduce fire hazards and performs other related work. Future funding depends on specific projects and available resources, including grants. This project extends the useful life of electrical systems in various Parks facilities and increases the safety of these systems.

Emergency Shelter Generator Renovations

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2012
Project ID:	K732440	End Date:	Q1/2015
Location:			
Neighborhood Plan:	In more than one Plan	Council District:	All
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project provides emergency systems as necessary to priority 1 emergency shelters in Parks community centers. The priority 1 shelters are Bitter Lake CC, Delridge CC, Garfield CC, Meadowbrook CC, Rainier CC, and Southwest CC. Initial funding will replace emergency generators as necessary and renovate electrical systems for one to three shelters. This work ensures that the emergency shelters can function in the event of a natural disaster.

Gas Works Park - Remediation

BCL/Program Name:	Debt and Special Funding	BCL/Program Code:	K72440
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2000
Project ID:	K73582	End Date:	TBD
Location:	2101 N Northlake Wy	Council District:	4
Neighborhood Plan:	Wallingford	Urban Village:	Not in an Urban Village
Neighborhood District:	Lake Union		

This project provides ongoing monitoring efforts to ensure the measures constructed for remediation of soils at Gas Works Park were effective. Monitoring activities include maintenance and operation of the air sparging, SVE systems, soil cap, and other institutional controls; groundwater testing; quarterly reports; and other related work. The project also provides for ongoing monitoring for as long as 20 years from installation, effectively until 2021. All measures of the Compliance Monitoring Project must be executed in accordance with the Consent Decree established in 1998, requiring the Seattle Department of Parks and Recreation, Puget Sound Energy, and the Department of Ecology to implement a Cleanup Action Plan.

Golf - Capital Improvements

BCL/Program Name:	Debt and Special Funding	BCL/Program Code:	K72440
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2010
Project ID:	K732407	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	1, 2, 5, 7
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project is an ongoing program designed to improve the four City-owned golf courses (Interbay, Jackson, Jefferson, and West Seattle.) Funding for these improvements is provided by green fees, golf cart rentals, ball purchases, and other golf revenues. This project was formerly project number K732285. A new project number has been created for this project to comply with new accounting procedures, therefore life to date and 2009 revised dollar amounts do not appear in the table below.

Golf Master Plan Implementation

BCL/Program Name:	Debt and Special Funding	BCL/Program Code:	K72440
Project Type:	Improved Facility	Start Date:	Q2/2010
Project ID:	K732391	End Date:	Q2/2015
Location:	Citywide		
Neighborhood Plan:	In more than one Plan	Council District:	1, 2, 5, 7
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project provides improvements to the four City-owned golf courses (Interbay, Jackson, Jefferson, and West Seattle), including but not limited to, building replacements, driving ranges, cart path improvements, and course and landscaping renovation. Golf Capital Improvements will be phased over 6+ years, placing the revenue generating improvements upfront. The project will expand Golf program capacity and revenues by implementing portions of the Golf Master Plan.

Green Lake CC - Evans Pool Roof Replacement & Solar Hot Water

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2013
Project ID:	K732448	End Date:	TBD
Location:	7201 E Green Lake Dr N		
Neighborhood Plan:	Greenlake	Council District:	6
Neighborhood District:	Northwest	Urban Village:	Green Lake

This project demolishes the existing 15,130 square foot Evans Pool roof and the 13,625 Community Center roof and replace them with a rubberized membrane roofing/EPDM system and solar panels to supplement the pool hot water system, seismic improvements, and related work. The flat roof section of the roof will accommodate a 1,000,000 Btu/day system and will help to reduce pool heating costs.

Green Lake Community Center Electrical and Mechanical Renovation

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2015
Project ID:	K732459	End Date:	TBD
Location:	7201 E Green Lake DR N		
Neighborhood Plan:	Greenlake	Council District:	6
Neighborhood District:	Northwest	Urban Village:	Green Lake

This project demolishes the existing roofs at the community center and pool and replaces it with a rubberized membrane roofing/EPDM system and solar panels on the flat section for solar hot water heating for the pool, and related work. It is anticipated that the solar panels will supplement the pool water heating, which may reduce operating costs at the pool.

Green Lake Park Alum Treatment

BCL/Program Name:	Docks/Piers/Floats/Seawalls/Shorelines	BCL/Program Code:	K72447
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2015
Project ID:	K732460	End Date:	Q4/2016
Location:	7201 E Green Lake WAY N		
Neighborhood Plan:	Greenlake	Council District:	6
Neighborhood District:	Northwest	Urban Village:	Green Lake

This project treats Green Lake with Alum to continue to maintain water quality and control algae growth. The water quality of the lake has remained stable since the first Alum treatment was done in 2004. A new study is underway to determine the exact treatment that will be needed to address the current water quality issues. The treatment will help Parks meet the adopted goal to maintain an average summer Secchi depth of eight feet.

Location:	Citywide		
Neighborhood Plan:	In more than one Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

2014 2nd Q Supplemental Adds \$1050000 for anticipated acquisitions

This project provides for acquisition of properties to fill gaps in existing public ownership and preserve continuity in existing public ownership. The project scope targets acquisitions in the following designated green spaces: Arroyos Natural Area, East Duwamish Greenbelt, Northeast Queen Anne Greenbelt, Ravenna Woods, Thornton Creek Watershed, and West Duwamish Greenbelt. These acquisitions will enhance livability and increase opportunities for the public to enjoy nature. They also implement the Parks Strategic Action Plan by encouraging long-term stewardship of natural resources. Levy funds are expected to be supplemented by grants and funds from other sources for these acquisitions. This project is part of the 2008 Parks Levy.

In 2010,\$305K was added to the project to provide funding to cover costs associated with the acquisition of real property within the City's designated green spaces. These funds are derived from excess interest earnings in the Open Spaces and Trails Fund, which was created in 1989 and has been inactive since 2006.

Highland Park Playground Renovation

BCL/Program Name:	2008 Parks Levy- Opportunity Fund	BCL/Program Code:	K720041
Project Type:	Improved Facility	Start Date:	Q1/2014
Project ID:	K730181	End Date:	Q4/2015
Location:	1100 SW Cloverdale ST		
Neighborhood Plan:	Westwood & Highland Park	Council District:	1
Neighborhood District:	Delridge	Urban Village:	Not in an Urban Village

This project, part of the 2008 Parks Levy Opportunity Fund, improves access into the park and improves play structures and equipment that adds to the diversity of play experiences in the neighborhood. The pedestrian flow will be emphasized when the new play elements are located within the park in order to create a cohesive space that improves the connection to the neighborhood. The renovation improves usability and safety.

HVAC System Duct Cleaning Program - Large Buildings

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2010
Project ID:	K732421	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project provides periodic (every two to five years) cleaning of the air ducts in the heating, ventilation, and air conditioning (HVAC) systems in pool natatoriums, community centers, and other Department-owned buildings. This maintenance increases the lifespan of these systems and reduces potential future major maintenance projects. This project was formerly project number K73669. A new project number has been created for this project to comply with new accounting procedures, therefore life to date and 2009 revised dollar amounts do not appear in the table below.

2015 - 2020 Adopted Capital Improvement Program

Department of Parks and Recreation

Irrigation Replacement and Outdoor Infrastructure Program

BCL/Program Name:	Parks Infrastructure	BCL/Program Code:	K72441
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2010
Project ID:	K732406	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project funds engineering and other studies of the Department's park irrigation and outdoor infrastructure systems (e.g., water mains, irrigation and drainage lines, sanitary and storm sewers, electrical utilities, roads, paths, trails, retaining walls, bridges, saltwater piers, and related infrastructure); associated cost estimating; related staff and consultant support for developing and prioritizing projects within the Department's Asset Management Plan; and implements replacement projects at various sites. Specific projects are determined by the study and operational considerations. This project provides conservation benefits by reducing water loss due to leaking systems, allocating water flow more efficiently through improved technology, and implementing other related work. It also extends the useful life of the infrastructure.

Department of Parks and Recreation

Lake City Community Center Improvements

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Improved Facility	Start Date:	Q1/2014
Project ID:	K732472	End Date:	TBD
Location:	12531 28th Avenue NE	Council District:	5
Neighborhood Plan:	North District/Lake City	Urban Village:	Lake City
Neighborhood District:	North		

This project provides for an architectural and engineering study to identify code compliance and design needs and cost estimates, and for implementation of the study to renovate the Lake City Community Center. Depending on the study results, specific renovations may include Americans with Disabilities Act accessibility compliance elements such as an elevator for access to the second floor, new windows and/or doors to the rear patio, signage, finishes, and related work. The renovations will improve access to the facility for all users, and make it more inviting and comfortable.

Lake Union Park Walkway Renovations-2008 Levy

BCL/Program Name:	2008 Parks Levy- Neighborhood Parks and Playgrounds	BCL/Program Code:	K720020
Project Type:	Rehabilitation or Restoration	Start Date:	Q3/2014
Project ID:	K730197	End Date:	Q4/2015
Location:	860 Terry AVE N		
Neighborhood Plan:	South Lake Union	Council District:	3
Neighborhood District:	Lake Union	Urban Village:	South Lake Union

This project, funded with 2008 Parks Levy funds redirected from the Seattle Asian Art Museum renovation project, investigates and repairs subsidence issues in walkway areas at Lake Union Park, along the north side of the park adjacent to the water, and east and north of the pedestrian bridge on the west side of the park. Temporary repairs have been made to eliminate tripping hazards, but this project constructs a long term solution to ensure safe and accessible walkways.

Magnuson Park (5 Fields) Synthetic Turf Replacement

BCL/Program Name:	Ballfields/Athletic Courts/Play Areas	BCL/Program Code:	K72445
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2019
Project ID:	K732479	End Date:	TBD
Location:	7400 Sand Point WAY N	Council District:	4
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	Northeast		

This project replaces the 471,900 square foot synthetic turf field surfacing which was installed on five fields in 2009, and performs related work. The surfacing material is near the end of its lifecycle. This improvement allows the continued use and scheduling of the playfields for soccer, baseball, lacrosse, rugby, and other activities.

Department of Parks and Recreation

Magnuson Park Building #406 Roof Replacement

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2014
Project ID:	K732467	End Date:	TBD
Location:	7400 Sand Point WAY N	Council District:	4
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	Northeast		

This project replaces the Built Up Roofing (BUR) system with a rubberized/EPDM roofing system with 20KW photovoltaic panels. The system will supply power into the electrical system for the building, which will reduce the amount of utility power used. At certain times, the system may produce more power than is being used by the building, resulting in a credit for power used.

Magnuson Park Electrical System Renovation

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2013
Project ID:	K732445	End Date:	Q1/2015
Location:	7400 Sand Point Way NE	Council District:	4
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	Northeast		

This project renovates the electrical system, including updating the old Navy system to the Seattle City Light system, and related work. It will help bring the system up to current standards and make it easier for the co-location of Parks and non-Parks tenants and users. The work implements the 2008 study of the electrical system by Sparling Electrical.

Major Maintenance Backlog and Asset Management

BCL/Program Name:	Fix It First - CIP	BCL/Program Code:	K720300
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2015
Project ID:	K730300	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project provides funding for major maintenance projects for assets in all of the city parks and recreation facilities, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds a new integrated asset management and work order system to better track and forecast long-term asset and maintenance needs. The project also increases Parks' ability to remove property encroachments. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project provides funding to leverage community-generated funding for renovation or development of large projects of Parks' facilities where other City funding is unavailable, often times due to the magnitude of the project. These projects will require matching funds, so the leveraging will stretch the City's funding, and more great community-generated projects can be accomplished. The community will benefit from new and/or improved facilities that can better accommodate current and projected park and recreation needs and demands. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Location:	Citywide Multiple Locations	Council District:	All
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This project provides for investment in more energy efficient building systems and other facility efficiency improvements. By making these investments the City expects future savings in utility and labor costs, and significant progress toward carbon neutrality. This program is intended to fund facility retrofit projects identified by energy audits conducted in 2010 (funded by the City's Energy Efficiency and Conservation Block Grant) and similar projects identified by the department. Depending on project demand and available funding, additional resources may be added in the future.

Department of Parks and Recreation

Neighborhood Park Acquisitions- 2008 Parks Levy

BCL/Program Name:	2008 Parks Levy- Neighborhood Park Acquisition	BCL/Program Code:	K720010
Project Type:	New Facility	Start Date:	Q2/2009
Project ID:	K730010	End Date:	TBD
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
		Urban Village:	
Neighborhood District:			

This project provides for acquisition of property to create new urban parklands in Seattle's most densely-developed neighborhoods as identified in Seattle Parks and Recreation's 2006 Gap Analysis. New park land acquisition enhances livability and increases opportunities for the public to enjoy the outdoors. The acquisitions also implement the Parks Strategic Action Plan. Levy funds are expected to be supplemented by grants and funds from other sources and are not expected to be sufficient to complete acquisitions in all the targeted areas. This project is part of the 2008 Parks Levy.

Neighborhood Response Program

BCL/Program Name:	Citywide and Neighborhood Projects	BCL/Program Code:	K72449
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2010
Project ID:	K732416	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing program provides funding for small projects identified by citizens, neighborhood groups, or other community organizations. Projects address requests which are typically under \$50,000, and may be used for major maintenance activities performed in conjunction with development-oriented Neighborhood Matching Fund (NMF) projects. This program enables the Department to respond quickly to community requests for repairs in neighborhood parks. This project was formerly project number K73508. A new project number has been created for this project to comply with new accounting procedures, therefore life to date and 2009 revised dollar amounts do not appear in the table below.

2015 - 2020 Adopted Capital Improvement Program

Department of Parks and Recreation

Northwest Native Canoe Center Development

BCL/Program Name:	2008 Parks Levy- Opportunity Fund	BCL/Program Code:	K720041
Project Type:	Improved Facility	Start Date:	Q1/2014
Project ID:	K730185	End Date:	Q1/2016
Location:	860 Terry AVE N	Council District:	3
Neighborhood Plan:	South Lake Union	Urban Village:	South Lake Union
Neighborhood District:	Magnolia/Queen Anne		

This project, part of the 2008 Parks Levy Opportunity Fund, develops a carving shed which includes a living roof, and installs a carved “Welcome” figure on the beach. The project provides insight into distinctive varieties of Native American culture in a location at Lake Union where Native carvers are safe, and the public is welcome. This is the first phase of a two building development.

Park Land Acquisition and Leverage Fund

BCL/Program Name:	Building For The Future - CIP	BCL/Program Code:	K720302
Project Type:	New Facility	Start Date:	Q1/2016
Project ID:	K730306	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project provides funds for land acquisition, leveraging capital projects, pre-acquisition activities (including planning, title searches, appraisals, negotiations, and community involvement), associated with acquisitions of specified real property, and related work. The project also serves as a match to leverage other funding sources such as King County Conservation Futures. The City is growing and there is a need to add parkland to meet park and open space goals and improve the quality of life for Seattle residents. This project is part of the Metropolitan Parks District measure put before voters in 2014.

2015 - 2020 Adopted Capital Improvement Program

Department of Parks and Recreation

Parks Central Waterfront Piers Rehabilitation

BCL/Program Name:	Docks/Piers/Floats/Seawalls/Shorelines	BCL/Program Code:	K72447
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2015
Project ID:	K732493	End Date:	TBD
Location:	Alaskan Way	Council District:	7
Neighborhood Plan:	Commercial Core	Neighborhood District:	Downtown
		Urban Village:	Commercial Core

The Waterfront Park and Pier 62/63 are public park facilities that provide public access to Elliott Bay and host a range of public events, markets and performances. Both piers need a full seismic upgrade to meet current life safety codes, and Waterfront Park needs significant access improvements. Waterfront Park is envisioned as a flexible public recreation and open space. Pier 62/63 is anticipated to be more heavily programmed, with a flexible activity rink, events, and performances. The Department of Parks and Recreation (DPR) owns the piers, but the Central Waterfront Improvement Fund will pay for the rehabilitation. This project is part of the overall waterfront improvement program.

This ongoing program provides minor capital improvements to low-income area parks throughout the City. Conservation Corps Program staff perform this work, providing training opportunities for low-income, homeless, and other at-risk community members. Program elements include provision of ADA improvements to parks and park restrooms, accessible drinking fountain installation, basketball court construction, bench and picnic table installation, tree purchase and planting, and other small-scale capital projects. Funding is also targeted to projects that can be integrated with other community-identified amenities. This project was formerly project number K73861. A new project number has been created for this project to comply with new accounting procedures, therefore life to date amounts do not appear in the table below. For 2013-2014, this program is funded with federal Community Development Block Grant funds.

Location:	Citywide	Council District:	All
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project funds various project activities, including, but not limited to, seal-coats to new pavement to extend its lifespan, pavement patching, sub-grade repairs, overlays to small areas, and repairs associated with pavement failures (e.g., heaving, sinking, cracking, and root invasion.) Improvements reduce damage to asphalt, lengthen pavement lifespan, and reduce safety hazards such as uneven pavement. This project was formerly project number K3512. A new project number has been created for this project to comply with new accounting procedures, therefore life to date and 2009 revised dollar amounts do not appear in the table below.

Play Area Safety Program

BCL/Program Name:	Ballfields/Athletic Courts/Play Areas	BCL/Program Code:	K72445
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2010
Project ID:	K732403	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing program renovates play areas, makes ADA improvements, installs safety upgrades, and performs other related work. The program focuses on addressing safety issues at two to four play areas per year. Primarily, the program is focused on installing proper safety surfacing at children's play areas throughout the parks system. Future funding for this program depends on specific projects and available resources, including grants. This program extends the useful life and improves the safety of the play areas. This project was formerly project number K732218. A new project number has been created for this project to comply with new accounting procedures, therefore life to date and 2009 revised dollar amounts do not appear in the table below.

Pool Plaster Liner Replacements

BCL/Program Name:	Pools/Natatorium Renovations	BCL/Program Code:	K72446
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2017
Project ID:	K732455	End Date:	TBD
Location:			
Neighborhood Plan:	In more than one Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project replaces pool plaster liners at five pools, in priority order: Evans, Evers, Ballard, Southwest, and Pop Mounger. Pool plaster liners typically last approximately 15 to 20 years, depending on the specific conditions at a pool. New pool liners protect the pool shell, make the pool brighter, and improve underwater visibility. They also have smoother finishes than older ones, which can minimize potential abrasions for the users.

Rainier Beach Community Center Redevelopment

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Improved Facility	Start Date:	Q1/2007
Project ID:	K732337	End Date:	Q1/2015
Location:	8802 Rainier Ave S	Council District:	2
Neighborhood Plan:	Rainier Beach	Urban Village:	Rainier Beach
Neighborhood District:	Southeast		

This project provides for planning, preliminary design, and redevelopment of a new facility to replace the existing Rainier Beach Community Center and swimming pool. This project was developed by Parks in response to the Seattle School District's decisions about the future of Southshore Middle School, since the school shares a building with the existing community center and pool. A new facility will provide the public with improved and updated recreational opportunities and will complement the two new schools on the site. The specific scope of work for this project is being developed through a community process.

Location:	Citywide	Council District:	All
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project revitalizes the City's 82 P-Patch Community Gardens. Typical projects will improve the paths, improve the planting beds and common areas, improve Americans with Disabilities (ADA) access, update aging infrastructure, and related work. The first P-Patch was constructed in 1973, and more have been added in the past 40 years. The individual projects will address safety and code requirements, extend the life of the asset, improve accessibility, and contribute to better air quality. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Location:	Citywide	Council District:	All
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project funds architectural, engineering and other studies of the Department's buildings (roofs, structure and other related infrastructure); associated cost estimating; related staff and consultant support for developing and prioritizing projects within the Department's Asset Management Plan; and implements the replacement or renovation of buildings and roofs throughout the park system, including those at comfort stations, picnic shelters, community centers, and small roof sections of larger buildings.

This project extends the useful life of the buildings and roofs; assures that the facilities are protected against damage from roof and wall leaks; and assures that general building issues are addressed in the Asset Management Plan.

This project provides for replacement of play equipment, adds new safety surfacing, installs access improvements, and other associated work at the existing play area which was built in 1994. The scope of this project brings the play area into compliance with current play area safety standards and guideline efforts of the American Society of Testing and Materials (ASTM) and the Consumer Product Safety Commission (CPSC) as well as meets Federal ADA requirements. This project is funded out of the King County 2013 Levy.

Saving our City Forests

BCL/Program Name:	Fix It First - CIP	BCL/Program Code:	K720300
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2015
Project ID:	K730302	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project restores and maintains Seattle's 2,500 acres of urban forests. Seattle's trees are aging and inundated with invasive plants, including English ivy, Himalayan blackberry, Scot's broom, and knotweed. This project expands Parks' capacity to restore forest land, and to provide the ongoing monitoring and maintenance work necessary to keep restored areas from being overrun by invasive plants. A healthy urban forest contributes significantly to the health of the environment by cleaning air and water, filtering and retaining storm water, and providing a respite from the built environment. This project is part of the Metropolitan Parks District measure put before voters in 2014.

This project funds initial planning and design work for mechanical, electrical, seismic, and other improvements to the Seattle Asian Art Museum (SAAM), which is a City-owned building located in Volunteer Park originally constructed in 1933. In 2007, the Seattle Art Museum (SAM), which operates SAAM, completed a study which identified improvements needed to update the building's climate control infrastructure and improve its seismic and fire/life safety features.

This project provides for the restoration of old growth forest in Seward Park as part of the Green Seattle Partnership. The restoration work will be guided by the established vegetation management plan for Seward Park. This additional work is being funded by a private donation of \$1 million. The donation will be made to the Seattle Foundation over the course of 3 to 4 years and dispersed to Parks over a period of 10 to 11 years.

Location:	W Galer ST/23rd AVE W		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Magnolia/Queen Anne	Urban Village:	Not in an Urban Village

This project, funded by LTGO bonds, develops the 4.9 acre waterfront portion of Smith Cove Park located just west of Pier 91 on Elliott Bay. The park will be developed following a planning and design process for the site. These amenities may include paths, landscaping, waterfront access points, a play area, and related improvements. Some improvements will also be made to the existing part of Smith Cove Park (west of this site), currently used for sports such as soccer. The improved park will provide waterfront access and ADA accessibility; provide enhanced opportunities for active recreation, increase environmental-sensitivity, and make the park inviting and usable for more people.

Location:	W Galer ST/23rd AVE W	Council District:	7
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	Magnolia/Queen Anne		

This project supports debt service payments on 10-year Limited Tax General Obligation (LTGO) bonds that will be issued in 2016 to pay for the development of the 4.9 acre waterfront site located just west of Pier 91 on Elliott Bay. The land was acquired from the Port of Seattle for park purposes. King County also acquired a portion of the property in the northwest corner for the Magnolia Combined Sewer Overflow (CSO) project. The park will be fully developed following a planning and design process. The improved park will provide public access to the waterfront and provide enhanced opportunities for active recreation in the west central area of Seattle.

Location:	Citywide	Council District:	All
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	In more than one District		

This ongoing project renovates tennis and basketball courts throughout the City. The program focuses on crack repair, color coating, providing new posts, standards, and nets, and completing less expensive repairs. Between one and three courts are renovated each year that are selected based on user complaints and staff evaluation of conditions. The Tennis Committee of the Seattle Sports Advisory Committee reviews the proposed project list and helps prioritize court repairs.

Department of Parks and Recreation

Urban Forestry - Forest Restoration Program

BCL/Program Name:	Forest Restoration	BCL/Program Code:	K72442
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2010
Project ID:	K732410	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	In more than one District		

This program develops forest and vegetation management plans, implements restoration projects at sites throughout the City's park system, removes hazardous trees, and performs other related work. Restoration projects, with much of the work being performed by citizen volunteers, may include removal of invasive plants, such as English ivy and Himalayan blackberry, followed by replanting with native plants. Future funding for this program depends on available resources. This project enhances Seattle's urban forest and supports the Green Seattle Partnership to increase overall City tree canopy and the Restore Our Waters Strategy to improve Seattle's aquatic environments. This project was formerly project number K732410. A new project number has been created for this project to comply with new accounting procedures, therefore life to date and 2009 revised dollar amounts do not appear in the table below.

Location:	Citywide	Council District:	All
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project is a collaborative effort between the City of Seattle and the Cascade Land Conservancy to restore 2,500 acres of forested park lands in Seattle by 2025. Restoration for each acre occurs over a three-year period and includes clearing invasive plants, replanting the area with native plants, caring for the plants through establishment, and other related work. This project supports the Green Seattle initiative.

Department of Parks and Recreation

Urban Forestry - Kiwanis Ravine Restoration

BCL/Program Name:	2008 Parks Levy- Forest & Stream Restoration	BCL/Program Code:	K720030
Project Type:	Rehabilitation or Restoration	Start Date:	Q2/2009
Project ID:	K730137	End Date:	Q4/2015
Location:	4404 36th AVE W		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Magnolia/Queen Anne	Urban Village:	Not in an Urban Village

This project funds the restoration of the forest in Kiwanis Ravine which is declining due to invasive Alder and Big Leaf Maple trees. The project will include forest and creek restoration and provide native habitat for the heron rookery. The Kiwanis Ravine is home to Seattle's largest nesting colony of Great Blue Herons. This project is part of the 2008 Parks Levy.

2015 - 2020 Adopted Capital Improvement Program

Department of Parks and Recreation

Utility Conservation Program

BCL/Program Name:	Building Component Renovations	BCL/Program Code:	K72444
Project Type:	Rehabilitation or Restoration	Start Date:	Q2/2007
Project ID:	K732336	End Date:	ONGOING
Location:	Citywide	Council District:	All
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project implements energy conservation projects in collaboration with Seattle City Light, Seattle Public Utilities, and Puget Sound Energy. Projects may include lighting, heating, and water use renovations at various facilities throughout the Parks system. These projects result in energy savings and better air and water quality, and support the Climate Protection Initiative by reducing greenhouse gas emissions. The cost of these projects is expected to be recovered within approximately five years through reduced utility costs and rebates from the three utilities. Rebates and other additional resources will be pursued to fund future conservation projects.

Location:	2300 Arboretum DR E		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	3
Neighborhood District:	East District	Urban Village:	Not in an Urban Village

This project, funded with the first phase of State Route 520 Arboretum mitigation projects funds, develops a one mile multi-use trail for bicycle and pedestrian access that connects East Madison Street to the Montlake and University of Washington neighborhoods. Project elements also include improvements to the Azalea Way Pond, parts of Arboretum Creek, and Foster Island. These mitigation projects will improve bicycle and pedestrian safety, and begin the restoration process of water features and selected shoreline areas within the Arboretum to enhance the health of its ecosystem.

Location:	3823 SW Willow ST		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	1
Neighborhood District:	Southwest	Urban Village:	Not in an Urban Village

This project demolishes the 1,700 square foot house, removes the concrete and other building debris, and restores the site by hydro-seeding the disturbed part of the property. The Watton family donated the property to Parks with the stipulation that the house could be demolished only after the tenant vacated the home. These funds are derived from a cash donation received in 1998 from Delayne B. and George Watton authorized in Ordinance 119200.

Neighborhood District:		Urban Village:	

This project provides for new park development on the West Seattle Reservoir. Seattle Public Utilities will develop a new covered reservoir in the footprint of the existing open reservoir during 2009-2010. The scope of this project includes the development of a master plan for the new park space and the surrounding portions of the existing Westcrest Park, and implementation of the plan. This project is part of the 2008 Parks Levy.

This ongoing project preserves the Zoo facilities to enable it to operate efficiently, and to offer a world-class experience to the patrons. Typical projects include exhibit renovation or replacement, water, electrical, irrigation, and sewer systems replacement, energy efficient improvements, pavement and grounds restoration, Americans with Disabilities (ADA) access improvements, and related work. The oldest buildings at the Zoo were constructed in the 1930s and others have been built in subsequent decades. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, and improve the overall Zoo experience for the public. This project is part of the Metropolitan Parks District measure put before voters in 2014.

2015 - 2020 Adopted Capital Improvement Program

Seattle Center

Overview

The place that we know today as Seattle Center has a long history as a gathering place for our city and region. It was a location where Native American tribes gathered for talk, ceremony and celebration. In the 1920s a civic campus was created with the construction of the Civic Auditorium, Civic Ice Arena, and Civic Field, with Mayor Bertha Landes presiding over the ground breaking in 1927. In the 1930s the Washington State Armory (later called Center House and recently renamed the Armory) was built. Memorial Stadium was constructed in the 1940s. In the late 1950s and early 1960s the site for the 1962 Seattle World's Fair was created, expanding the size of the campus to roughly what we know today. One result of this long history as a gathering place is an aging infrastructure. Some facilities have been significantly renovated (e.g., Civic Auditorium into the Opera House for the World's Fair, and into McCaw Hall in 2003), while others remain in need of major renovation/redevelopment (e.g., the Armory and Memorial Stadium).

Today, Seattle Center is a 74-acre campus in the middle of the city. It is the largest visitor destination in Washington State, attracting an estimated 12 million visits each year to arts, sporting, educational, cultural events and festivals, and to enjoy the grounds and open spaces. There are 24 buildings and three parking garages on the campus. Seattle Center is also a major urban park with lawns, gardens, fountains, a skatepark, and a variety of plazas and open spaces. The Seattle Center Monorail runs between the Seattle Center campus and downtown Seattle. The City owns the Monorail and a private contractor operates it. The Space Needle, the Pacific Science Center, the EMP Museum, the Chihuly Garden and Glass Exhibition, and Seattle Public Schools' Memorial Stadium and an adjacent parking lot, are also part of the campus but are privately owned and operated. The City's 2003 Asset Preservation Study valued Seattle Center's capital assets at \$777 million. This valuation does not include the Monorail, Mercer Arena or the Blue Spruce Building (all were thought to be going away at the time of the study). The valuation also does not include the Fifth Avenue Parking Garage, which was completed in 2008.

Seattle Center's Capital Improvement Plan (CIP) is at the heart of the Center's purpose – "to create exceptional events, experiences and environments that delight and inspire the human spirit to build stronger communities." The Center's CIP repairs, renews and redevelops the facilities and grounds of the Center in order to provide a safe and welcoming place for millions of annual visitors. Seattle Center's CIP is funded from a variety of revenue sources including Real Estate Excise Tax (REET); the City's General Fund; voter-approved property tax levies; State, County and federal funds; proceeds from property sales; and private funds. Following the adoption of the Seattle Center Master Plan in 1990, two voter-approved levies raised \$62 million for Seattle Center's redevelopment. This amount in turn, leveraged \$500 million in non-City funds, including \$440 million from private sources. In August of 2008 the City Council adopted a new master plan for Seattle Center, the Seattle Center Century 21 Master Plan, which will guide development of the Seattle Center campus over the next 20 years.

Capital projects at Seattle Center are planned and implemented to minimize the impact on events that occur throughout the year, including four major festivals between May and September.

2015-20 CIP Highlights

Seattle Center's Adopted 2015-16 CIP is \$11.7 million over the two year period. Seattle Center's CIP is supported mainly by REET I funds (\$3.4 million in 2015 and \$3.8 million in 2016) and by federal grant funds (approximately \$1 million in each year). Some additional funding comes from property sales and earnings and from private donors to the McCaw Hall Capital Reserve Fund. Given the constraints of this budget, Seattle Center's 2015-20 CIP is focused on the preservation of existing assets. Maintaining the functionality, competitiveness, safety and revenue-generating capacity of existing facilities is at the heart of Seattle Center's CIP. In 2015-16, priority asset preservation investments include:

Facility Condition Assessment – In 2015 and 2016, Seattle Center will carry out a comprehensive condition assessment of its facilities that will identify critical issues, prioritize necessary repairs, and develop cost estimates. With buildings on the Seattle Center campus constructed in every decade starting from the 1920s, and with increasing competition for CIP funds, an industry-standard assessment of Seattle Center facilities will provide important data to preserve existing assets and guide future capital investments. Funding is \$300,000 in 2015 and \$300,000 in 2016 for the facility assessment and other preliminary engineering and planning. In 2016, \$413,000 will fund prioritized HVAC, electrical, mechanical and other needs that the assessment has identified. These needs will continue to be funded over the next six or more years.

Energy Management Control System (EMCS) – In 2015-16 Seattle Center continues the phased replacement and upgrade of the system which controls heating and cooling in facilities across the campus. Addressing the most outdated equipment first, this project involves upgrading hardware, software, and wiring in campus buildings, including improvements to fire-alarm systems. This is an ongoing, REET I funded project planned to continue into 2018. Funding is \$420,000 in 2015 and \$414,000 in 2016.

Armory Renovation – The renovation of the Seattle Center Armory, the primary free, indoor public gathering place on the campus, began in 2011 as a part of Seattle Center's Next 50 celebration. The Armory is integral to Seattle Center's identity and ability to generate revenue, and renovation is expected to continue, in a phased approach developed by the Armory Operating Board, for at least six years. In 2015-2016, this will include restroom renovations and infrastructure improvements that are intended to keep the area attractive to and leverage additional investment from tenant food vendors. Other components of this project include the conversion of a former office area into the newly branded Armory Loft, rentable meeting room space that can be configured to meet the various needs of clients. REET I funding is \$258,000 in 2015 and \$452,000 in 2016. For the costs of the now-completed Armory food court renovation, Seattle Center will pay debt service of \$380,000 in 2015 and \$381,000 in 2016.

McCaw Hall – Annual REET I allocations for McCaw Hall asset preservation are matched 100% by the resident tenants of McCaw Hall, the Seattle Opera and Pacific Northwest Ballet to carry out the McCaw Hall Capital Renewal Plan, under the direction of the McCaw Hall Operating Board. The total of REET and privately donated funds for McCaw Hall is \$531,000 in 2015 and \$545,000 in 2016.

KeyArena – Annual asset-preservation investments in KeyArena are overseen by the KeyArena Operating Board and, in 2015-2016, are focused on client and patron needs. As a condition of KeyArena's continued ability to host NCAA basketball tournament games, the NCAA required Seattle Center to upgrade its concession areas and its scoreboard, lighting, and sound systems.

Seattle Center

Seattle Center has also begun the incremental replacement of seat pans for guests' comfort. KeyArena generates an increasing share of Seattle Center's revenue and these improvements help preserve its ability to attract popular events. REET I funding for improvements and repairs to KeyArena is \$250,000 in 2015 and \$400,000 in 2016.

Open Space Restoration and Repairs – Over half of the Seattle Center 74-acre campus is devoted to hard surface and landscaped open space. Millions of visitors come to the campus each year and Seattle Center is committed to maintaining it in a safe and welcoming condition. REET I funds for open space restoration and repairs are used both to address specific and complex needs – in 2015-2016, this will include hard surface repair and renovation to the Fisher Pavilion rooftop plaza, the Upper Northwest Courtyard, and along vacated Thomas Street – and for ad hoc maintenance and improvements of public areas. This work is funded by REET I at \$579,000 in 2015 and \$700,000 in 2016.

Parking Improvements – In 2015, with \$456,000 in REET I funding, Seattle Center will make safety upgrades to the Mercer Garage elevators, address water infiltration in the First Avenue North Garage, and make signage and other alterations to assist the public in adjusting to new traffic patterns as a result of the Mercer West and Viaduct North Portal construction projects. No additional work is scheduled for 2016, though Seattle Center intends to fund other parking improvements over 2017-2020.

Disabled Access – In 2015-16, Seattle Center will continue to make improvements to enhance access to facilities and grounds throughout the campus for persons with disabilities. This builds on recent work which installed an ADA compliant ramp to the Exhibition Hall, renovated and upgraded the only elevator that provides disabled access to all floors of the Armory, and significantly increased ADA seating options in the lower bowl of KeyArena. REET 1 funding for these changes is \$775,000 in 2015.

Summary of Upcoming Budget Issues and Challenges

The biggest challenges facing Seattle Center's CIP are aging infrastructure, lack of funding, and an increasingly competitive environment for the sports and entertainment business that provides roughly two-thirds of the revenue which supports Seattle Center. The City's 2003 Asset Preservation Study looked at best practices in the public and private sectors and set an initial annual asset preservation funding target of 1% of the replacement value for buildings and 0.5% for other assets (e.g., grounds and open space). By that calculation, Seattle Center should have been investing \$6.8 million annually in asset preservation (not including the Monorail, Mercer Arena or the Blue Spruce). This \$6.8 million amount in 2003 dollars inflated at 3% per year calculates to roughly \$10 million in 2015 dollars.

Center's annual allocation of REET and CRS Unrestricted funding has been augmented by bond funds in 2003 (roof replacements and seismic improvements), 2007 (monorail rehabilitation), and 2011 (Armory renovation). The 2003 and 2011 bonds are being repaid with REET funds, and the 2007 monorail bonds through CRS Unrestricted funds and federal grant funds. The City also allocated \$8 million from the sale of a Seattle Center surface parking lot to the Bill & Melinda Gates Foundation for capital improvements at Seattle Center, and \$4.7 million from the settlement with the Sonics for capital improvements in KeyArena and elsewhere on the grounds.

Due to economic impacts of the Great Recession, from 2009-12, Seattle Center's annual CRS REET and Unrestricted CIP funding (exclusive of debt service), dropped from \$2.8 million to

2015 - 2020 Adopted Capital Improvement Program

\$1.0 million per year. Economic recovery has allowed REET funding levels to increase, which is particularly critical for Seattle Center, as the one-time funding sources listed above (land sale to Gates Foundation, KeyArena Settlement Funds and City-issued bonds), will be nearly fully spent by the end of 2014. Another important part of Seattle Center capital funding is the intermittent infusion of a significant amount of capital dollars every seven to ten years from a bond issue (1977, 1984), or a levy (1991, 1999). It has now been fifteen years since the last Seattle Center levy. Seattle Center continues to work with City officials to determine how best to meet its future capital needs.

Seattle Center continues to draw millions of visitors each year and provides green and open space in an increasingly dense center of the city. In 2008, following a two-year community process, the City Council adopted the Seattle Center Century 21 Master Plan. This plan provides a roadmap for the redevelopment of Seattle Center around a set of design and planning principles including increased open space; sustainable design and operations; opening the edges of the campus to the surrounding community; enlivening the campus throughout the day; being pedestrian friendly and accessible to all; and continuing to provide a diversity of programming and attractions for all parts of our community. Seattle Center has used mostly one-time funding sources to complete initial Master Plan capital projects: Broad Street Renovation Phase I (2009), new Seattle Center Skatepark (2009), Theater Commons (2010), Campus Signage Renovation (2011), and Armory Atrium Renovation (2012). The challenge in the coming years is how to fund the vision of the Master Plan and to maintain existing assets.

Thematic Priorities

The thematic priorities for Seattle Center's 2015-2020 CIP are as follows:

Safety and Security – The safety of Seattle Center visitors and staff is always the first priority. In 2015-16, Seattle Center upgrades and extends the fire alarm system in the public areas of the Armory, makes elevator repairs in two garages to improve safety and operations, and repairs hard surface areas where settlement issues have created trip hazards.

Disabled Access – In 2015-16 Seattle Center continues to make progress throughout the campus in improving access for persons with disabilities

Asset Preservation – In 2015-16, Seattle Center prioritizes asset preservation investments in its primary public assembly facilities – McCaw Hall, KeyArena, the Armory and campus open spaces. Consistent with the City's 2003 Asset Preservation Study, Seattle Center has prioritized capital investments in existing facilities. Armory asset preservation work in 2015-16 includes fire alarm upgrades, restroom renovation, improvements to attract new food service tenants, and incremental renovation of staff areas at the north end of the building. Asset preservation work in McCaw Hall and KeyArena continues in 2015-16 and is overseen by the McCaw Hall Operating Board and the KeyArena Operating Board, respectively. Also in 2015-16, Seattle Center continues a phased replacement and upgrade of the system which controls heating and cooling in facilities across the campus and carries out a comprehensive condition assessment of campus facilities to guide future investments. Allocation levels for asset preservation in the out years, 2017-20, will depend on available resources.

Energy Efficiency and Sustainability – Sustainability is a key principle of the Seattle Center Century 21 Master Plan. In 2015-16, Seattle Center improves metering of heating and cooling use to better track building energy use and makes priority renovations to outdated HVAC components.

Implementation of the Seattle Center Century 21 Master Plan – In 2015-16 Seattle Center will update the 2008 Century 21 Master Plan to incorporate changes since 2008 as well as future development opportunities.

Revenue Generation – Capital improvements which maintain and/or enhance a facility's ability to generate revenue are critical to the financial health of Seattle Center, where roughly two-thirds of the Seattle Center's budget comes from revenue generated by operations. Maintenance and improvement of revenue generating capacity can be as important as maintenance and improvements to building systems. In 2015-16, Seattle Center will invest in event-related infrastructure that supports the revenue generating capacity of facilities throughout the campus.

Leverage Non-City Funds – In 2015-16, the City's \$523,000 allocation for the McCaw Hall Capital Reserve Fund is matched by a combined equal investment from the building's resident tenants, Seattle Opera and Pacific Northwest Ballet. The ability to use City investment to leverage non-City funds is a fundamental part of the history of the redevelopment and renewal of Seattle Center.

Project Selection Criteria

For each two-year budget cycle, a broad cross-section of Seattle Center staff members are engaged in the process of identifying the highest priority asset preservation and improvement needs on the campus. This includes staff members who maintain facilities, rent facilities to clients, provide technical support for events, manage parking and public assembly facilities, and manage capital projects. Projects are prioritized around a set of criteria, including public and staff safety, regulatory requirements, failing building systems, asset preservation, Master Plan implementation, reducing operating costs and/or increasing revenue potential, and leveraging non-City funds. The Center's four operating boards (Armory, Campus, KeyArena, and McCaw Hall) play a central role in identifying and prioritizing capital needs in the facilities they oversee, and the Seattle Center Executive Team takes all of this information and prioritizes projects across the entire Seattle Center campus.

Major maintenance funding has fallen far short of the levels recommended in the City's 2003 Asset Preservation Study, especially during 2009-12 due to dramatic reductions in Real Estate Excise Tax (REET) revenues, a primary source of major maintenance/asset preservation funding for Seattle Center. To allocate limited major maintenance funding, Seattle Center prioritizes projects which cannot be delayed due to safety concerns or system failure, and allocates some level of annual asset preservation investment in the major public assembly facilities, including McCaw Hall, KeyArena, the Armory and campus open spaces.

Future Projects/What is on the Horizon

The Seattle Center Century 21 Master Plan, adopted by the City Council in 2008, is a roadmap for the redevelopment of Seattle Center over the next 20 years. The total estimated cost of Master Plan improvements is \$567 million (in 2007 dollars). The Master Plan addresses Seattle Center's aging infrastructure, the Center's critical role as a cultural and recreational center for the city and region, and the need for the Center to remain competitive in the marketplace and grow its revenue potential. The expectation is that the Master Plan will be implemented incrementally, as funds, partners, and opportunities become available. This was the experience with the 1990 Master Plan. Between 1990 and 2005, \$700 million was invested in the

Seattle Center

redevelopment of Seattle Center, including \$440 million in private funds, voter-approved levies in 1991 and 1999, and funding from King County, the State, and the Federal government.

Looking ahead, Seattle Center is intently focused on the following two Century 21 Master Plan projects:

- Memorial Stadium Site Redevelopment
- Redevelopment of the former North Fun Forest area

City Council Provisos to the CIP

There are no Council provisos.

Armory Food Court Renovation - Debt Service

BCL/Program Name: Armory Rehabilitation **BCL/Program Code:** S9113
Project Type: Rehabilitation or Restoration **Start Date:** Q1/2011
Project ID: S1002 **End Date:** Q4/2021
Location:
Neighborhood Plan: Not in Neighborhood Plan **Council District:**
Neighborhood District: **Urban Village:**

This project provides for payment of debt service on 10-year LTGO bonds issued in 2011 to fund renovation of the Seattle Center Armory atrium, formerly known as the Center House Food Court. LTGO bonds are one fund source for the work described in the Department’s Center House Food Court Renovation project (S1001).

Bagley Wright Theatre Maintenance Fund

BCL/Program Name:	Bagley Wright Theatre Maintenance Fund	BCL/Program Code:	S9606
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/1996
Project ID:	S9606	End Date:	Q4/2014
Location:	151 Mercer St		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Magnolia/Queen Anne	Urban Village:	Uptown

This project provides for interior major maintenance needs at the Bagley Wright Theatre as stipulated in the use agreement between the Seattle Repertory Theatre (SRT) and Seattle Center. The agreement is structured to transfer financial responsibility for interior major maintenance of the facility from the City to the SRT after the year 2009. The City's maintenance fund primarily pays for the planned replacement of theatrical equipment, but may also pay for other capital needs, including, but not limited to, carpeting, seating, and mechanical improvements, as well as building and theatrical system assessments.

Fun Forest Site Restoration

BCL/Program Name:	Campuswide Improvements and Repairs	BCL/Program Code:	S03P01
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2009
Project ID:	S0901	End Date:	ONGOING
Location:	Seattle Center Campus		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Magnolia/Queen Anne	Urban Village:	Uptown

This project provides funding for design and construction of improvements to the former Fun Forest site. Work may include, but is not limited to, hard surface repairs, demolition of existing structures, creation of new green space, installation of recreation facilities, and renovation and repurposing of existing structures. Center Art, LLC is contributing \$1 million in private funds for design and construction of an artist-designed children's play area on the former north Fun Forest site, with opening planned for Spring 2015. Center Art is also contributing \$50,000 per year for maintenance of the play area.

Neighborhood District:	Magnolia/Queen Anne	Urban Village:	Uptown

This project provides for activities related to the sale of Seattle Center Parking Lot 2 to the Bill & Melinda Gates Foundation. The property sale closed in November 2006, but sale-related activities will continue for a number of years. Activities include, but are not limited to, relocation of facilities, groundwater remediation, construction oversight, and development of a replacement skateboard park.

Seattle Center

Monorail Improvements

BCL/Program Name:	Monorail Improvements	BCL/Program Code:	S9403
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	S9403	End Date:	ONGOING
Location:	Seattle Center Monorail System		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Magnolia/Queen Anne	Urban Village:	Uptown

This project provides for the renovation of the Seattle Center Monorail, including the two trains, the two stations and the guideways that run in between. The City operates the Monorail through its contractor, Seattle Monorail Services. Monorail improvements may include, but are not limited to, door replacement, renovation of pneumatic and electrical systems and other train components, guideway renovation, and station upgrades.

2015 - 2020 Adopted Capital Improvement Program

Seattle Public Library

Overview

The Seattle Public Library's facilities include 26 branch libraries and the Central Library, as well as a storage facility and leased shops space. In 2008, the Library completed the final building projects of a system-wide capital program, known as "Libraries for All" (LFA). As a result of that \$290.7 million program, which was funded by a combination of public and private sources, Seattle built a new Central Library and four new branch libraries at Delridge, International District/Chinatown, Northgate and South Park. In addition, each of the 22 branch libraries that were in the system as of 1998 was renovated, expanded or replaced. The LFA program increased the amount of physical space that the Library maintains by 80 percent to a total of over 600,000 square feet.

The Library's buildings can be divided into four major categories.

1. Ten buildings that are designated as historic landmarks, including 7 Carnegie-era libraries (built in the early 1900s) and three landmark modern buildings.
2. Eleven branch libraries are either LFA new construction (eight buildings) or non-landmarked buildings developed between the 1950s and the 1970s (three buildings).
3. Five small library branches are essentially storefronts, four of which are part of larger buildings.
4. The Central Library is a 12-story 363,000 square foot building that serves as headquarters and hub of the library system. It houses the materials distribution system, Library administration, a 425-seat auditorium and public meeting rooms, large public areas for reading and access to 412 public computers, a data center housing system-wide servers, and the Central Library collection of books and materials.

The Library Major Maintenance BCL is the primary capital project, providing ongoing funding for work that preserves or improves building integrity, efficiency and functionality.

CIP Highlights

In 2015, the Adopted CIP Budget includes \$3.65 million (\$3.15 million from the Library Levy and \$500,000 of Real Estate Excise Tax (REET)) for major maintenance work as well as the Library's Reimaging Spaces project.

In 2012, the Library worked with the Mayor and City Council to develop a Library Levy proposal that voters approved in August of 2012. One of the core areas the levy funds is major maintenance. The 2015-2020 Adopted CIP provides a base level of support for asset management in this critical period when all buildings will be surpassing the ten year mark from their LFA construction/renovation.

Several branch CIP projects are planned for 2015. Rainier Beach, West Seattle, Ballard, Columbia and International District branches are scheduled to receive carpet/flooring replacement and casework; Rainier Beach will also receive restroom work. Building envelope (i.e. roof and glazing) assessment/repairs are scheduled to begin next year at Queen Anne and Rainier Beach; Fremont's exterior will receive patching/painting. Security and life safety system maintenance projects are scheduled for Ballard, Columbia Rainier Beach and West Seattle.

The Library is planning an assessment of sewer lines and unreinforced masonry at several branches to determine the necessity/extent of repair work; corrective work would likely begin in 2015.

The large and complex Central Library requires a significant portion of CIP funds. In 2015 the Library will continue to implement the next phase of mechanical, engineering, plumbing and control system improvements to bolster fire safety and building efficiency. Flooring and carpeting are also scheduled to be updated on Levels 3 and 10.

The 2015 Adopted CIP also provides \$500,000 in REET funding to support the Library's Reimagining Spaces efforts, to modify Library spaces and better address patron and community uses of libraries. This funding will leverage concurrent major maintenance projects funded by Library Levy.

Thematic Priorities

Library CIP projects generally fall into one or more categories: asset preservation, operational efficiency, environmental stability, public service improvements, and safety and security.

Asset Preservation

The overriding priority of the Library's capital program is extending the useful life of our buildings as long as possible. Major repairs and replacement to roofs, building envelopes, HVAC and other critical building systems, doors, windows, flooring and casework are examples of the asset preservation items that must be funded through the Library's CIP budget. Roughly \$4 million of the Library's 2015 Adopted CIP can be wholly or partially classified as asset preservation work. As buildings reach and surpass the ten-year mark, they generally require attention to flooring, casework, finishes and restroom fixtures; these improvements are planned for all or a combination of Ballard, Columbia, International District, Rainier Beach and West Seattle branches. Roof, skylight and window repair/maintenance is slated for Fremont, Queen Anne, University and Rainier Beach branches. At the Central Library, asset preservation projects will address mechanical systems assessment, finishes, casework and restroom refurbishment.

Library Operational Efficiency, Environmental Sustainability and Public Service Improvements

The Library delivers direct services to the public, who expect highly functional and welcoming library buildings. Major maintenance work carried out under this priority supports:

1. implementation of new service models to help the library reduce operating costs while minimizing impact to the public;
2. improvements to enhance the environmental sustainability of Library buildings; and
3. efforts to better tailor services to neighborhood needs and changes in how people access and use information.

Within the latter theme, Reimagining Spaces projects are in the planning stages, underway or have been completed at several branches, including Northeast, Capitol Hill, Rainier Beach and West Seattle. The Ballard branch will likely be assessed in 2015. To improve operational efficiency and sustainability, roughly \$370,000 is budgeted for mechanical, engineering, plumbing and control system improvements at Central and several branches.

Safety and Security of Public and Staff

Repairs and improvements that enhance the safety of library facilities are another priority guiding the Library's decision-making regarding allocation of its capital resources. More than \$500,000 will be spent for projects at Ballard, Columbia, Rainier Beach, West Seattle and Central that can be wholly or partially categorized as improving building safety and security.

CIP Revenue Sources

Historically, Real Estate Excise Tax (REET) was the primary source of funding for the Library's CIP program, with an additional smaller allocation from the General Fund. Upon passage of the 2012 Library Levy, all routine major maintenance funding was shifted from REET/General Fund to the Levy. The Real Estate Excise Tax provides additional funding for targeted efforts, such as the Library's Reimagining Spaces initiative which aims to enhance Library physical spaces to better address patron and community needs.

Project Selection Criteria

In selecting major maintenance work to accomplish each year, the Library evaluates the preservation of building integrity, impact on safety to the public and staff, importance of the work to core library building functions, operational efficiency gains (both economic and environmental), and opportunities to improve or preserve service to the public.

The Library conducts condition assessments and updates information based on inspection by the capital program manager and facilities maintenance staff. The Library obtains professional evaluations of roofs, mechanical, HVAC and lighting systems to flag deficiencies and identify areas where the capital program may be able to reduce operating costs. Library public services managers develop proposals to change the functional use of library space. These proposals are evaluated for feasibility, cost and urgency, and the capital program works with Library services managers to scope alternatives. The Library Leadership Team has ultimate responsibility for authorizing and prioritizing functional building modifications.

Many library facilities are open seven days per week, which requires careful planning and staging of projects to keep libraries open as much as possible while capital improvement work is underway. Flexibility is critical to respond to building issues as they emerge.

Summary of Upcoming Budget Issues and Challenges

The Library Levy provides critical resources that support a responsible capital program and preserve welcoming Library spaces throughout the city. The Library uses a seven-year asset management plan to guide the capital element of the Levy proposal. The Library is grateful for the opportunity to avoid deferred maintenance, keeping these community hubs in excellent condition.

The Library Levy will conclude at the end of the fifth year (2019) of the current six-year Adopted CIP. The Library will need to work with the Mayor and City Council prior to the end of the seven-year Library Levy to develop a strategy for continuing capital improvement program support for the Library, whether in the form of a renewed Levy, re-instituted REET support, or some other mechanism.

Library buildings are the most intensively-used city facilities in Seattle. The Central Library hosts almost 2 million visitors annually, and library branches serving nearly 5 million visitors. Even the

quietest branch has nearly 70,000 people walk through the door each year. The Library's historic landmark buildings have unique features such as brick facades, slate roofs and other details. It is important to use designs and materials consistent with their landmark status – all factors that increase major maintenance costs. The Central Library poses a different set of challenges. A building of its size, complexity and intensity of use requires significant annual major maintenance to preserve core functionality and continually improve building efficiency. All of these factors were considered in establishing the major maintenance component of the Library Levy.

The LFA improvement projects were completed on a rolling basis over the course of a decade. The Library has developed a projection of annual asset preservation requirements by focusing on the year in which each building reaches the 10-year mark from its LFA construction or expansion/renovation. This juncture provides a critical milestone for renewal of mechanical systems, building envelopes/roofs, and interiors. The Library does not anticipate needing to fund many wholesale replacements of systems at this point, but will need to replace, repair or upgrade components in order to maximize the useful life of the systems.

Future Projects on the Horizon

The Library is interested in acquiring a 10,000 to 16,000 square foot multi-use facility to allow for consolidation of the Library's building maintenance, custodial, landscaping and storage facilities, as well as to house the Library's fleet of vehicles. The Library is pursuing this project for the following reasons:

- The Library's current Airport Way lease for building maintenance shop functions expires in 2015. The space is small, limiting the functionality of the shop space, and it is highly unlikely the Library will be able to renew or extend that lease, certainly not at the current below-market rate.
- The Library leases space for mobile and delivery service vehicles from the Washington State Library at a downtown Seattle facility. This space is too small for a planned expansion of the mobile services program.
- The current Library-owned storage space, shop and office space for the landscaping program at Queen Anne Storage is in a former utility building located across the street from the Queen Anne library in a residential neighborhood. The facility needs significant major maintenance, is not the property's highest and best use, and has very limited parking. The Library's needs for these functions exceed what would be acceptable at this location, particularly the amount of truck traffic.

Consolidating these functions in one purchased or long-term lease facility would provide predictable future costs and improve efficiency with building, custodial, landscaping maintenance and storage all in one location. The new, larger and more centralized maintenance and storage site will streamline and enhance maintenance storage and shop functions; improve storage systems, access and ergonomics; and reduce costly trips to the congested downtown corridor.

The Library is also adapting to a rapidly changing information environment, where patrons are increasingly using the Library in new ways and accessing content digitally. Funding is vital for strategic, transformational improvements to Library facilities beyond baseline asset

preservation. These strategic improvements will modify physical Library space with a threefold goal:

1. support learning experiences and programs for patrons, rather than serving as a location where a patron completes a transaction;
2. provide that experience in more flexible, adaptable spaces, responsive to service, patron, and demographic changes; and
3. in those spaces, reflect the expressed needs of our individual neighborhoods and communities, while maintaining the Seattle Public Library brand.

The Reimagining Spaces initiative will continue for the next five to seven years. Major maintenance funding afforded by the Library Levy provides for a responsible level of baseline asset preservation. It fills significant gaps in routine and major maintenance budgets in time to avoid or slow the effects of wear and tear. However, levy funding is insufficient to fund the substantial costs associated with programmatically driven or reimagining projects, building infrastructure renovations, or replacement of major building systems at Central or the Library's larger branches. Additional financial support is crucial to the Library's ability to address major systems replacement and adapt libraries to the public's changing needs and uses during the life of the levy and beyond.

City Council Provisos to the CIP

There are no Council provisos.

This project provides for improved infrastructure at the 363,000 square foot Central Library. Central requires substantial infrastructure work to achieve operational efficiency and set the stage for its eventual programmatic re-imagining. Changes to Central also require additional lead time for planning and design, due both to its unique physical configuration/infrastructure and iconic architectural status. Typical improvements may include, but are not limited to, structural and mechanical repairs or improvements, safety and security upgrades, lighting and signage enhancements, and wall and floor surface repairs.

Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing project provides for major maintenance to Library facilities, which include the 363,000 square foot Central Library and 26 branch libraries as well as storage/shops facilities. Typical improvements may include, but are not limited to, structural and mechanical repairs or improvements, safety and security upgrades, lighting and signage improvements, wall and floor surface repairs, landscape and exterior hard surface repairs, and projects that enhance service delivery or facilitate operational cost-savings at our libraries. This project preserves building integrity and improves functionality, and provides responsible management of the Library's building assets to ensure their long-term operational use. The project was created in 2009 in connection with midyear budget reductions to facilitate efficient asset management.

2015 - 2020 Adopted Capital Improvement Program

Overview

The Seattle Department of Transportation (SDOT) is responsible for maintaining and building a safe, reliable, efficient and socially equitable transportation network. In addition, SDOT maintains and improves critical transportation infrastructure of regional, statewide and national significance in cooperation with external partners. Achieving transportation excellence helps support businesses, improve quality of life, and build a more sustainable community. This is accomplished by:

- Preserving existing transportation infrastructure and using it to its fullest capabilities.
- Moving people and goods efficiently and safely, using technology wherever possible to overcome transportation challenges.
- Reducing reliance on the automobile and making transit, bicycling and walking convenient and attractive.
- Shaping future transportation improvements that reflect Seattle's role and connections to the region.
- Incorporating environmental excellence and climate protection into every decision, project and program.
- Promoting the livability of our neighborhoods and communities.
- Guiding investments that contribute to the economic vitality of neighborhood businesses and industries in Seattle and the region.
- Managing resources wisely with performance measures.

The transportation infrastructure is valued at more than \$13 billion. Major system assets include:

- 1,547 lane-miles of arterial streets,
- 2,407 lane-miles of non-arterial streets,
- 122 bridges,
- 509 stairways,
- 614 retaining walls,
- 22 miles of seawalls,
- 1,061 signalized intersections,
- 47 miles of bike trails,
- 338 miles of on-street bicycle facilities,
- More than 170,000 signs,
- 41,000 street trees,
- 2,040 pay stations, and
- 29,073 curb ramps.

SDOT's 2015 Adopted and 2016 Endorsed Budget and 2015-2020 Adopted CIP emphasize transportation safety, the efficient mobility of goods, and mobility for people of all ages/abilities. The documents outline investments in critical transportation infrastructure needs and include planned spending of \$1.06 billion during 2015-2020. Key work includes street paving and resurfacing, building new sidewalks and curb ramps, implementation of the Transit Master Plan, implementation of the Pedestrian and Bike Master Plans, school safety improvements, investments to facilitate freight mobility, traffic cameras and signals, support for the Waterfront Program, pay station replacement, 23rd Avenue Corridor improvements, and multi-modal corridor development; for details, please see the associated explanations below.

The 2015-2020 Adopted CIP also shows reduced funding levels in a number of projects due to the expiration of the Bridging the Gap levy at the end of 2015. Affected projects include Arterial

Department of Transportation

Asphalt and Concrete, Arterial Major Maintenance, Bike Master Plan Implementation, Left Turn Signals, Neighborhood Large Projects, Pedestrian Master Plan Implementation, Sidewalk Safety Repair, and Transit Corridor Improvements.

Street Paving and Resurfacing: The adopted CIP includes a new “Pavement Microsurfacing” project to improve the surface of Seattle’s streets and reduce life-cycle costs by avoiding future replacement costs. The total investment during 2015-2016 is \$6,500,000 and should restore approximately 163 lane-miles of the City’s streets. In addition, the adopted budget adds \$1,500,000 to the operating budget during 2015 and 2016 for crack sealing repairs on arterial streets. Other street investments in the adopted CIP during 2015-2016 include \$7,600,000 for Arterial Major Maintenance, \$8,721,000 for Arterial Asphalt & Concrete, and \$4,413,000 for Non-Arterial Asphalt and Concrete.

Transit Master Plan Implementation: The 2015-2020 Adopted CIP makes significant investments to design and implement components of the 2012 [Transit Master Plan](#). During 2015, the adopted CIP includes:

- \$500,000 to develop a conceptual design of high-capacity transit options in the Eastlake corridor;
- \$4,000,000 for design of the Center City Streetcar Connector,
- \$633,000 to partner with King County Metro and leverage Federal grants on the 3rd Avenue Corridor improvements project;
- \$175,000 for the Broadway Streetcar Extension, was awarded two Federal grants totaling \$10,000,000 via the Puget Sound Regional Council; and
- \$2.7 million for the Transit Corridor Improvements project.

Pedestrian Master Plan Investments: The 2015 adopted CIP includes three projects that advance the Pedestrian Master Plan recommendations. The newly created “Pedestrian Master Plan - New Sidewalks” project includes \$10.319 million in 2015 and \$7.86 million in 2016 to design and construct approximately 35-60 blocks of new sidewalks during the biennium. Of the total \$18.179 million, \$7,731,000 is from ticket revenue generated from school zone fixed automated cameras located near school zones. These funds will be used to construct sidewalks within Seattle Public Schools walk zones. The remaining \$10.448 million is eligible for use anywhere in Seattle. \$8,448,000 is transferred from the Pedestrian Master Plan Implementation project and \$2 million in REET revenues are added in 2016.

The Pedestrian Master Plan – School Safety project emphasizes pedestrian improvements in school zones. In 2014, a new School Zone Fixed Automated Cameras Fund (SZFAC), administered by SDOT, was created to pay for costs associated with school safety infrastructure project design and construction, school zone camera installation and operation, school zone warning beacon maintenance, and school safety program administration. The 2015 adopted CIP includes \$6,099,000 for capital improvements dedicated to school zones. These capital improvements may include school zone signing, crosswalk maintenance, curb bulb and curb ramp replacement and maintenance, and sidewalk maintenance, changes to traffic circulation around schools, and installation of an additional 12 school zone cameras at six schools.

The Pedestrian Master Plan Implementation project will continue to fund curb ramp replacement, pedestrian lighting installation and the rehabilitation or replacement of stairways. The construction of new sidewalks has shifted to the New Sidewalks CIP project. Within the available funding, SDOT will prioritize American with Disabilities Act (ADA) compliance in the

Department of Transportation

City's right-of-way. This includes funding for replacing and improving curb ramps. During the six-year period, the CIP includes \$20,750,000 for Pedestrian Master Plan Implementation.

Bicycle Master Plan Investments:

The Bicycle Master Plan investments in 2015–2020 Adopted CIP include \$12,579,000 for Bike Master Plan implementation. During the 2015-2016 biennium, the Bicycle Master Plan will fund design and construction of approximately two miles of protected bicycle lanes—complete with separation from traffic and bike-specific traffic signalization—in the downtown core. These funds are expected to leverage approximately \$6 million in Federal grant funds.

Investments to Facilitate Freight Movement: The adopted CIP includes three major investments for freight. The Freight Spot Improvement program includes small-scale investments to improve connections between port facilities, railroad intermodal yards, industrial businesses, the highway system, and the first and last miles of the supply chain. The adopted CIP includes \$256,000 for this program during 2015. Also during 2015, the adopted CIP includes \$1.3 million for Intelligent Transportation System (ITS) improvements in Georgetown, SODO, and for connections to State Route 509; these funds will be used to leverage an estimated \$4,010,528 in future Federal grants. An additional \$200,000 in 2016 is identified in the operating budget to maintain the ITS systems. Moreover, the City plans to invest \$1.5 million in 2016 in a partnership with the Port of Seattle to build a Heavy Haul Corridor on East Marginal Way South.

Traffic Cameras and Signals: The City owns 158 traffic cameras, all of which are beyond or nearing the end of their useful life; moreover, funding to maintain these cameras in good working order was not identified in prior budgets. These cameras are needed so that staff at the Traffic Operations Center can adjust signals and dynamic message signs, communicate with first responders, and respond to changing conditions. The 2015-2020 Adopted CIP plans to replace these cameras during the next four years at an annual cost of \$600,000. In addition, \$50,000 annually is adopted in the operating budget to keep these cameras in good working order and extend the life cycle of these assets.

Another important City asset is traffic signals. Therefore, the adopted CIP provides \$1,013,000 in 2016 to rebuild 10 additional signals that year. This funding augments the base budget, which allows for eight signal rebuilds annually.

Bridge Projects: The City owns 122 bridges, and keeping them in good repair is a major challenge. The 2015-2020 Adopted CIP seeks to leverage Federal grant funds to replace and repair the following bridges:

- Post Alley Bridge, which will be replaced with a standard street;
- Cowen Park Bridge (award pending), which will be improved from poor to good condition;
- Schmitz Park Bridge (award pending), which will be resurfaced; and
- The 45th Street Viaduct, which will be seismically retrofitted.

If these Federal grant applications are successful, the City will receive approximately \$10,440,000 in Federal grants during 2015-2017; thus, the adopted CIP identifies \$3,812,000 in local matching funds during this time frame. An additional local match of \$1,332,000 in 2017 will need to be identified if all of the grant applications are successful.

Another new investment in the 2015-2020 Adopted CIP concerns bridge load rating standards, which were modified by the Federal Highway Administration in November 2013. The standards

2015-2020 Adopted Capital Improvement Program

Department of Transportation

require the City to re-load rate 63 bridges by 2022. The estimated cost per bridge ranges from \$20,000 to \$40,000; thus, the adopted CIP includes \$300,000 of Commercial Parking Tax in 2015 and \$300,000 of REET in 2016 to address this issue. This level of investment will also be needed during 2017-2021.

The 2015-2020 Adopted CIP also includes funds for Bridge Painting (\$2,135,000 annually) and other Bridge Rehabilitation and Replacement efforts (\$6,557,000 in 2015 and \$16,100,000 in 2016, including Federal grant funds).

Seattle Waterfront Capital Projects: The four major capital projects related to the downtown waterfront are the Alaskan Way Viaduct Replacement Project, the Elliott Bay Seawall Project, the Alaskan Way Main Corridor, and the Overlook Walk and East-West Connections Project. The Alaskan Way Viaduct Replacement Project includes SDOT's costs for the SR-99 / Bored Tunnel, the Battery Street Tunnel decommission, the Holgate to King south end projects, the parking program, and program management services. The Elliott Bay Seawall Project, currently in construction, will replace the current seawall from Washington to Virginia streets (also known as the Central Seawall). It will also strengthen the pier support for Fire Station 5, which is currently attached to the existing seawall. The Alaskan Way Main Corridor and Overlook Walk and East-West Connection Projects are led by the Office of the Waterfront. The Alaskan Way Main Corridor is responsible for the design and construction of the Alaskan Way/Elliott Way surface street and the adjoining pedestrian promenade along the waterfront. The Overlook Walk and East-West Connections project include the Overlook Walk which provides pedestrian connections between the waterfront and the Aquarium and Pike Place Market. The project also focuses on the east/west streets that connect the downtown to the waterfront area. Most of the project elements within the two projects have reached 30% design, with certain elements reaching 60% design by the fourth quarter of 2014.

Pay Station Replacement: The first of the City's parking pay stations began reaching the end of their 10-year lifecycle in 2014. Older pay stations were past their warranty, costly to maintain, becoming obsolete, and could not accommodate time-of-day pricing. The effort to replace the pay stations began in 2014 and will continue through 2016. In addition to \$1.3 million identified in the 2014 Adopted CIP for this project, the adopted CIP identifies General Subfund revenues of \$4.2 million in 2015, \$5.3 million in 2016 and \$4.7 million per year during 2017, 2018, 2019 and 2020. The City may need to revise these costs and assumptions after the vendor contract is negotiated.

23rd Avenue Corridor Improvements: 23rd Avenue is a vital multi-modal corridor linking much of south and central Seattle with Capitol Hill, the University District, and other North Seattle neighborhoods. The original scope of the 23rd Avenue Improvements project was to reconstruct the roadway in its current 4-lane configuration between John and Rainer, along with optional improvements between East John and East Helen Streets. Additional funding will support improvements that significantly modify the cross section of this roadway to a 3-lane section in accordance with stakeholder desires; build a parallel greenway; and continue development of Route 48 transit service electrification in the corridor. The 2015-2020 Adopted CIP funds design and construction of the first and third phases of the corridor. It also includes funds to design the second phase of the corridor; however, funds to construct the second phase (\$23 million) have not yet been identified.

Multimodal Corridor Development: With the adoption of citywide pedestrian, bicycle, and transit master plans, and the forthcoming freight master plan, there are many corridors in the city that have been identified for multiple uses (priority transit corridors, Major Truck Streets, high priority pedestrian corridors, bicycle facilities, etc.). The multimodal corridor development program will provide preliminary planning, design, project scoping, cost estimating, and traffic

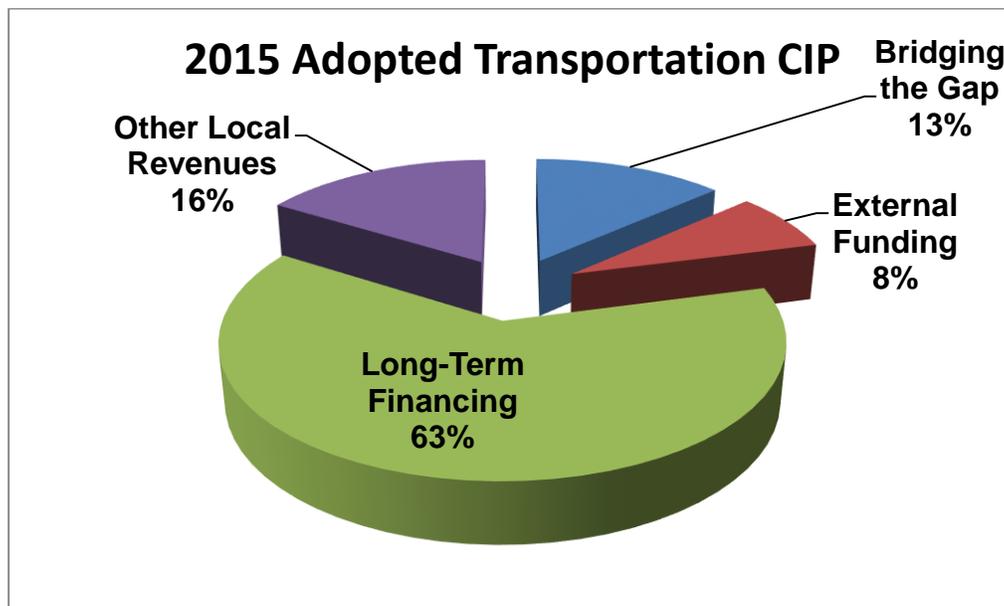

studies for these multimodal corridors. This work will integrate plan recommendations, address the needs of multiple modes within constrained rights of way, and lay the foundation for addressing these corridors in a proactive and purposeful manner. The work will include a complete streets assessment and consideration of green stormwater infrastructure. In 2014, SDOT began evaluating the Beacon Avenue, Lake City Way, Greenwood Avenue, East Marginal Way and Delridge Way corridors. In 2015, work on these corridors will continue and work will begin on Yesler Way, 1st Avenue, and Aurora Avenue.

CIP Revenue Sources

Multiple funding sources support the Transportation CIP, including:

- Gas Tax;
- REET I and REET II;
- Bridging the Gap Levy LID Lift and Commercial Parking Tax;
- Long-term financing (general obligation bonds);
- Street vacation revenues;
- Street use fees;
- Property sales proceeds;
- Federal and state grants; and
- Funds from various funding partners, such as Sound Transit and the Washington State Department of Transportation.

In 2015, the adopted CIP budget is \$294 million from the following sources:

Local Revenues

Local funding sources for the Transportation Capital Improvement Program include Gas Tax, General Fund, Cumulative Reserve REET II, Cumulative Reserve Street Vacation, Commercial Parking Tax, BTG – Levy LID Lift and the \$20 Vehicle License Fee. These revenues are for programs that improve or maintain the City’s transportation system or to provide local matching funds to SDOT’s funding partners on large capital projects. The revenue projections for the Gas

Tax are flat, and SDOT revenues from the General Fund are not significantly different from what was programmed in 2014.

Thematic Priorities

The role of the transportation system is to connect people, places and products. To accomplish this, SDOT prioritizes services and capital projects based on the core principles in SDOT's [Action Agenda](#). The Action Agenda lays out a clear set of transportation policies, actions, and measures of success.

The Action Agenda is organized around five core principles:

1. **Keeping it Safe** - using engineering, education, enforcement and evaluation to improve safety for all, and reduce fatalities and injuries
2. **Focusing on the Basics** - maintaining, protecting, preserving and enhancing our capital assets
3. **Building Healthy Communities** - supporting sustainability, livability and equitable growth
4. **Supporting a Thriving Economy** - keeping people and goods moving, and creating great places that attract businesses
5. **Providing Great Service** - helping people access transportation services and information

Transportation projects are initiated through a number of methods including planning processes (modal, subarea, neighborhood planning), preservation, operations and safety needs assessment, regulatory requirements, elected official direction and, in some instances, from neighborhood input such as the Neighborhood Street Fund program.

Stakeholders have significant input in development of all SDOT plans through public involvement processes. Seattle's Pedestrian, Bicycle and Freight Advisory Boards also provide input on project/program needs.

A number of factors can affect SDOT's project and funding decisions, including regulatory requirements, state and federal law (such as the Americans with Disabilities Act) and construction seasons. Opportunities to leverage the City's limited funding with grants or coordinating projects with other agencies can also affect SDOT's decisions.

In every case, SDOT strives to implement the City's policy goals laid out in Seattle's Comprehensive Plan and individual policy initiatives such as Complete Streets, the Race and Social Justice Initiative and the Environmental Management Initiative. SDOT's Transportation Strategic Plan, modal plans and subarea plans provide an overall framework for implementing these goals.

City Council Provisos to the CIP

Council adopted the following capital budget proviso:

- None of the money appropriated in the 2015 budget for the Seattle Department of Transportation's Mobility--Capital BCL may be spent for the Adaptive Signal Control Implementation CIP project until the chair of the City Council Transportation Committee files with the City Clerk his certification that the Seattle Department of Transportation has

2015-2020 Adopted Capital Improvement Program

Department of Transportation

submitted a report to the Transportation Committee on how the money will be spent on this project or whether it will instead be used for other transportation priorities.

23rd Avenue Corridor Improvements

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	Q3/2013
Project ID:	TC367420	End Date:	Q4/2017
Location:	23rd AVE S/E John ST/Raini AVE S		
Neighborhood Plan:	Central Area	Council District:	3
Neighborhood District:	Central	Urban Village:	23rd Ave. @ Jackson

The project will reconstruct sidewalks, enhance the pedestrian environment, reconstruct pavement, upgrade signalized intersections, upgrade controller cabinets to meet transit signal priority (TSP) needs and accommodate Intelligent Transportation Systems (ITS) upgrades. Activities include the following: install ITS to provide travel time information; install fiber communication as needed along the corridor to relay information back to the Traffic Management Center; and install poles for support of future trolley wires in two gap segments of the trolley network. The project will also include design and construction of a 3-lane cross section (with 4 lanes at isolated intersections) between John Street and Rainier Ave South, as well as a greenway facility on a parallel street to facilitate north-south bicycle travel.

Location:	3rd AVE/S Jackson ST/Denny WAY		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Downtown	Urban Village:	Commercial Core

This project makes multimodal improvements in the Third Avenue downtown corridor. Improvements include expanding the northbound bus stop area at Pine Street adjacent to Macy's department store, designing and constructing additional streetscape improvements, remarking numerous crosswalks, and installing pedestrian countdown signals.

This project removes and replaces curb ramps at eleven locations in the City of Seattle Right of Way (ROW) in order to improve accessibility for people with disabilities. This project will address the 11 highest priority ramps that provide access to Seattle parks and will be built in compliance with applicable standards, including the Americans with Disabilities Act Standards for Accessible Design.

Adaptive Signal Control Implementation

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	New Facility	Start Date:	Q1/2015
Project ID:	TC367650	End Date:	Q4/2019
Location:	W Mercer ST/3rd AVE W/Queen Anne AVE N		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Magnolia/Queen Anne	Urban Village:	South Lake Union

This project implements adaptive signal control (ASC) in the Seattle Center and South Lake Union area, and supports integrated corridor management on Denny Way, Mercer, and SR-99 north tunnel access. Phase 1 begins operation of 31 intersections on Mercer, Valley, and Roy that have been built as part of the Mercer project. Phase 2 includes 17 intersections along the Denny Way corridor. Phase 3 includes several connector streets between Mercer and Denny Way, including Elliott Ave, Queen Anne Ave N, Broad St, Dexter Ave N, Westlake Ave N, Fairview Ave N, 1st Ave N, 5th Ave N, and 9th Ave N. Phase 1 funding is proposed for 2015 and 2016. During the budget process for the 2015-2020 CIP, Council adopted a related proviso.

2015 - 2020 Adopted Capital Improvement Program

Seattle Department of Transportation

Alaskan Way Main Corridor

BCL/Program Name:	Major Projects	BCL/Program Code:	19002
Project Type:	New Facility	Start Date:	Q1/2013
Project ID:	TC367330	End Date:	Q4/2018
Location:	Various		
Neighborhood Plan:	In more than one Plan	Council District:	7
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

The State of Washington is in the process of building a deep bore tunnel to replace the Alaskan Way Viaduct (Viaduct), which is part of State Route (SR) 99. State Route 99 is currently planned to be relocated from the Viaduct into the tunnel. The State is responsible for demolishing the Viaduct and decommissioning the Battery Street tunnel. The City of Seattle is responsible for designing and constructing the Alaskan Way/Elliott Way surface street and the adjoining pedestrian promenade along the waterfront. The project also includes replacement of and improvements to three key connections impacted by the Viaduct removal, namely Seneca Street, Columbia Street, and the Marion Street pedestrian bridge. This project is part of the overall waterfront improvement program.

Seattle Department of Transportation

Alaskan Way Viaduct Replacement

BCL/Program Name:	Major Projects	BCL/Program Code:	19002
Project Type:	New Facility	Start Date:	Q1/2001
Project ID:	TC366050	End Date:	Q4/2018
Location:	ALASKAN WY VI SB/BATTERY ST TUN OFF RP		
Neighborhood Plan:	In more than one Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project funds the City's involvement in the replacement of the Alaskan Way Viaduct with the bored tunnel hybrid alternative. Replacement of this structure will enhance overall safety, as this structure is seismically vulnerable. In prior years, this project included design of the Central Seawall and Waterfront Improvements. In 2013, for transparency purposes, the Seawall and Waterfront work was reflected in two new capital projects, Elliott Bay Seawall Project (TC367320) and Waterfront Improvement Program (TC367330).

Arterial Asphalt and Concrete Program

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC365440	End Date:	ONGOING
Location:	Various		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

The Arterial Asphalt and Concrete Program maintains Seattle's 1,581 lane miles of arterial streets through resurfacing and reconstruction projects. The Department uses a pavement management system to track the condition of arterial street pavement, to develop maintenance needs and establish priorities, and to select the streets to be rehabilitated each year. This project improves the quality and condition of the City's arterials.

Arterial Major Maintenance

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC365940	End Date:	ONGOING
Location:	Citywide	Council District:	Mulitple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project repairs and/or replaces deteriorated pavement on arterial streets. Arterial Major Maintenance paving work typically spans one to three city blocks. It allows the City to respond quickly and cost effectively to pavement issues that are too large to be addressed with a pothole repair, yet are too small to be efficiently contracted. Project prioritization is based on pavement condition; cost; transit, bicycle, pedestrian and freight use; traffic volume; coordination opportunities; complaints and claims; and geographic balance across the city. The work extends the service life of existing pavement structures.

Ballard to Downtown High Capacity Transit and Ship Canal Crossing Project

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	Q1/2013
Project ID:	TC367390	End Date:	Q3/2015
Location:	Downtown Ballard/Downtown Seattle		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Mulitple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project will develop recommendations for implementation of high capacity transit alternatives between Ballard and Downtown Seattle. The project will build on the Ballard-Fremont-South Lake Union-Downtown corridor identified in the Transit Master Plan. The work will be done in conjunction with Sound Transit. The project will also develop conceptual designs and cost estimates for a new ship canal crossing for transit, pedestrians and bicycles.

Bike Master Plan Implementation

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Improved Facility	Start Date:	ONGOING
Project ID:	TC366760	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Mulitple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program implements the Seattle Bicycle Master Plan. Typical improvements may include installing bike lanes and sharrows, bicycle route signing, completing key links in the urban trails network, adding bicycle/pedestrian signals to complete the network, and reconstructing key sections of the trails. The goals of the program are to increase bicycle safety and access, while reducing bicycle crashes. This program includes funding for street improvement and trail construction and is consistent with the focus in the City's Transportation Strategic Plan (TSP) on encouraging walking and biking.

Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project rates bridges for safe load-carrying capacity, as part of a federally-mandated program. The work on this project, performed by both City staff and consultants, ensures public safety. Additional funding was added to this program as of the 2015-2020 Proposed CIP due to new load rating standards for specialized hauling vehicles that were issued by the Federal Highway Administration on November 13, 2013. These new standards require an additional investment of \$300,000 a year for seven years (2015-2021).

Bridge Painting Program

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC324900	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	In more than one Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	Not in an Urban Village

This ongoing asset preservation project provides for the periodic painting of each of the City's 20 structural steel bridges. The painting cycle is initially determined by applying Federal Highway Administration standards for coating life, and is supplemented by annual physical inspections to assess the actual rate of deterioration.

Bridge Seismic - Phase III

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2013
Project ID:	TC367300	End Date:	Q4/2016
Location:	Citywide	Council District:	Mulitple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	In more than one District		

The program prioritizes and implements seismic upgrades to bridges based on traffic importance and seismic vulnerability. On the highest ranked bridges, conceptual level analysis is performed to develop a retrofit strategy and cost estimate. As funding allows, full retrofit design and construction phases are implemented. The project enhances the safety of City bridges in lieu of substantial rehabilitation or replacement. If Federal funding is secured, the 45th Street Viaduct will be seismically upgraded in 2015-2016.

Broadway Streetcar Extension

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	New Facility	Start Date:	Q3/2012
Project ID:	TC367240	End Date:	TBD
Location:	Broadway E/E Denny Way/E Roy ST		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	3
Neighborhood District:	East District	Urban Village:	Capitol Hill

This project extends the First Hill Streetcar to the north end of Broadway (approximately Denny Way to Roy Street). The First Hill Streetcar line is currently under construction and will connect First Hill employment centers to the regional Link light rail system, including but not limited to the International District/Chinatown Station, and Capitol Hill Station at Broadway and John Street. This half-mile extension to the retail core of Broadway will reach a high density residential area with reliable frequent service (approximately 10 minute headways) mirroring the hours of operation of Link light rail system.

Seattle Department of Transportation

Burke-Gilman Trail Extension

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	New Facility	Start Date:	Q1/1995
Project ID:	TC364830	End Date:	TBD
Location:	Various		
Neighborhood Plan:	Crown Hill/Ballard	Council District:	6
Neighborhood District:	Ballard	Urban Village:	Ballard

This project extends the Burke-Gilman Trail from its current terminus at Eighth Avenue NW to Golden Gardens Park. The segment from Eighth Avenue NW to 11th Avenue NW was constructed in 2001. The Ballard Locks to NW 60th Street segment was constructed in 2005. The NW 60th Street to Golden Gardens segment was constructed in 2008. The "Missing Link" segment from 11th Avenue NW to the Ballard Locks was planned for construction in 2011 and 2012, but has been delayed due to ongoing litigation.

2015 - 2020 Adopted Capital Improvement Program

Seattle Department of Transportation

Cheshiahud Lake Union Trail Project

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	Q1/2009
Project ID:	TC367070	End Date:	Q4/2016
Location:	Lake Union		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Lake Union	Urban Village:	South Lake Union

This project completes Fairview trail improvements and establishes the History Trail. The project addresses the challenges presented along the Fairview Avenues N and E corridors. This may include implementing a new separated bike/pedestrian path along Fairview Avenue N to the south of the old steam plant to Lake Union Park, and improving the shared route along Fairview Avenue E to the University Bridge. This will substantially complete the needed physical improvements along the trail. Three street-end parks will be improved through volunteer efforts. The Museum of History and Industry (MOHAI) and the Center for Wooden Boats (CWB) will implement interpretive elements for the History Trail. A cycle track will be constructed on Westlake Avenue North. A cycle track will be constructed on Westlake Avenue North.

Collision Evaluation Program

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	ONGOING
Project ID:	TC323860	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This program identifies locations that have high numbers of collisions; performs reviews of high collision locations; identifies and designs improvements to enhance safety at these locations; and facilitates installation of these improvements. High collision locations identified include signalized and unsignalized intersections, mid-block locations, locations having high numbers of pedestrian collisions and locations having high numbers of bike collisions. Improvements identified by this program tend to be low-cost. They tend to involve signal modifications or changes to signs and striping.

Eastlake Corridor Transit and Street Improvements

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	Q1/2013
Project ID:	TC367380	End Date:	Q4/2015
Location:	Eastlake AVE/Stewart ST/NE 65th ST		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project will develop and implement a range of transit and street improvements in the Eastlake Avenue corridor connecting the University District, Eastlake and South Lake Union neighborhoods between Downtown and the Roosevelt Link LRT station area. The corridor is identified as a priority in the Transit Master Plan. This project will identify, prioritize, design and construct the highest priority "speed and reliability" improvements to existing bus service without excluding the potential for longer-term implementation of High Capacity Transit options. The project will also consider an improved ROW profile to best accommodate the corridor's multi-modal demands, along with the recommendations reflected in each of the City's adopted modal transportation plans and the respective neighborhood plans.

Elliott Bay Seawall Project

BCL/Program Name:	Major Projects	BCL/Program Code:	19002
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2013
Project ID:	TC367320	End Date:	Q4/2016
Location:	Alaskan WAY/S Washington ST/Virginia ST		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Downtown	Urban Village:	In more than one Urban Village

This project, created in 2013, is a critical public safety project to replace the existing seawall from S. Washington Street to Virginia Street with a structure that meets current safety and design standards. The project will also improve the nearshore ecosystem of Elliott Bay and provide opportunities for recreation and shoreline access. Costs incurred prior to 2013 are included in the Alaskan Way Viaduct Replacement project (TC66050). The total anticipated cost is approximately \$330 million.

First Hill Streetcar

BCL/Program Name:	Major Projects	BCL/Program Code:	19002
Project Type:	New Facility	Start Date:	Q2/2009
Project ID:	TC367100	End Date:	Q4/2015
Location:	Various		
Neighborhood Plan:	In more than one Plan	Council District:	7
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project constructs a modern, low-floor streetcar system connecting First Hill employment centers to the regional Link light rail system, including but not limited to the International District/Chinatown Station and the Capitol Hill Station (at Broadway and John Street). The system will provide reliable, frequent service with headways of approximately 10 minutes during peak periods. Service will operate 5 AM to 1 AM Monday through Saturday. On Sundays and holidays, service will operate 10 AM to 8 PM. A streetcar operations and maintenance facility and procurement of a six-vehicle streetcar fleet is also included in the scope of the project..

Hazard Mitigation Program - Areaways

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC365480	End Date:	ONGOING
Location:	Various		
Neighborhood Plan:	Pioneer Square	Council District:	2, 7
Neighborhood District:	Downtown	Urban Village:	Pioneer Square

This ongoing program implements inspection and repair of areaways to reduce risks to City facilities and the general public. Areaways are usable space, generally in the street right-of-way, constructed under sidewalks between a building foundation and the street wall. Typical improvements may include, but are not limited to, repairs to the existing areaway and/or filling the areaway with lightweight concrete. Improving these areaways is an action included in the South Downtown Strategic Plan.

Hazard Mitigation Program - Landslide Mitigation Projects

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC365510	End Date:	ONGOING
Location:	Various		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	Not in an Urban Village

This project enables SDOT to address and repair landslide concerns that affect the right-of-way. The Landslide Mitigation Program provides SDOT with staff and resources to identify and prioritize landslide concerns, to undertake reconnaissance engineering and geotechnical studies of problem areas, and to make repairs at the highest priority locations, usually where landslide concerns have caused the roadway to be partially or completely closed.

Project ID:	TC367590	End Date:	Q4/2016
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
		Urban Village:	
Neighborhood District:			

This project includes mobility improvements to the City's street system to support heavy haul freight mobility between port facilities and railroad intermodal yards. The project may include adding an additional layer of concrete on East Marginal Way South to support the increased weight of vehicles traveling on the road. The total project cost is estimated to be from \$3 to \$4 million. The 2016 amount represents the City's contribution to the project. The remaining amount is expected to come from the Port of Seattle.

Lake Union Ship Canal Trail

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	New Facility	Start Date:	Q1/1990
Project ID:	TC327000	End Date:	Q2/2015
Location:	W Nickerson St/6th Ave W/15th Ave W		
Neighborhood Plan:	Queen Anne	Council District:	7
Neighborhood District:	Magnolia/Queen Anne	Urban Village:	Ballard Interbay

This project completes Phase II of a multi-use trail extending from the Fremont Bridge to Fisherman's Terminal, just west of 15th Avenue NW. Phase II begins at Sixth Avenue W, extends westward for about 0.75 miles, and is largely within, or adjacent to, a railroad right-of-way. This trail segment is a critical "missing link" in an urban and regional trails system that, when completed, will make it possible to bicycle almost exclusively on dedicated trails from Redmond to downtown Seattle.

Linden Avenue North Complete Streets

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	Q1/2008
Project ID:	TC366930	End Date:	Q4/2016
Location:	Linden Ave N/N 128th St/N 145th St		
Neighborhood Plan:	Broadview-Bitter Lake-Haller Lake	Council District:	5
Neighborhood District:	Northwest	Urban Village:	Bitter Lake Village

This project constructs road improvements on Linden Avenue North from N 128th Street to N 145th Street. Improvements include, but are not limited to concrete sidewalks, curb and gutters, pedestrian crossings and curb ramps, buffered bicycle lanes, and asphalt road replacement. The improvements will provide pedestrian, drainage and roadway improvements, and complete the final link in the Interurban Trail North.

Madison Street Bus Rapid Transit

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	New Facility	Start Date:	Q1/2013
Project ID:	TC367480	End Date:	Q4/2015
Location:	Madison ST/Alaskan WAY/Martin Luther King Junior WAY E		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	3
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project will include concept design and environmental review of high-capacity transit and multimodal improvements in the Madison corridor between Alaskan Way and Martin Luther King Jr. Way, connecting the Central Area with the First Hill, Downtown, and Waterfront neighborhoods. The project is identified as a priority in the Transit Master Plan. This project will consider different electric trolley bus rapid transit options in determining the most effective approach to transit service within the project area.

Magnolia Bridge Replacement Project

BCL/Program Name:	Major Projects	BCL/Program Code:	19002
Project Type:	New Facility	Start Date:	Q1/2002
Project ID:	TC366060	End Date:	TBD
Location:	W Garfield St/15th Ave W/Thorndyke Ave W		
Neighborhood Plan:	BINMIC (Ballard Interbay Northend)	Council District:	7
Neighborhood District:	Magnolia/Queen Anne	Urban Village:	Ballard Interbay

The environmental analysis for replacing this bridge evaluated several possible alternatives including rehabilitation of the existing structure. In 2007, an environmental assessment was published and described the preferred alternative, a new bridge south of and adjacent to the existing bridge. The Type, Size and Location (TS&L) Report was completed in 2007, selecting a concrete box girder supported on flared columns as the appropriate structure type for this new bridge. The structure will be a haunched concrete box at the highly visible section of the bridge over 15th Avenue NW and at the westerly high level bluff section. Current available funds will only allow completion of 50% of the design and contract plans. Funding to complete the design, purchase the necessary right-of-way, and construct the new bridge has not been identified. The estimate to complete the project is \$300-350 million.

Mercer Corridor Project

BCL/Program Name:	Major Projects	BCL/Program Code:	19002
Project Type:	New Facility	Start Date:	Q1/1999
Project ID:	TC365500	End Date:	Q4/2018
Location:	Mercer St/Fairview Ave N/Dexter Ave N		
Neighborhood Plan:	South Lake Union	Council District:	Multiple
Neighborhood District:	Lake Union	Urban Village:	In more than one Urban Village

This project, part of the Bridging the Gap funding package, implements a comprehensive package of transportation improvements in the Mercer Corridor in South Lake Union. Improvements include, but are not limited to, a widened two-way Mercer St., improved pedestrian safety and access to Lake Union Park, and enhanced neighborhood circulation for all modes. The project aims to use existing street capacity more efficiently and enhance all modes of travel, including pedestrian mobility.

Mercer Corridor Project West Phase

BCL/Program Name:	Major Projects	BCL/Program Code:	19002
Project Type:	New Facility	Start Date:	Q1/2010
Project ID:	TC367110	End Date:	Q4/2018
Location:	Mercer ST/Elliott AVE W/Dexter AVE N		
Neighborhood Plan:	In more than one Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project converts Mercer Street to a two-way street between Dexter Ave and Elliott Ave West. The Mercer underpass at Aurora Ave will be widened to allow for six travel lanes and a bicycle/pedestrian shared use path between Dexter Ave and 5th Ave North. Roy Street, between Fifth Ave N and Queen Anne Ave, will also be converted to a two-way street with on-road bicycle lanes.

Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project provides preliminary planning, engineering and outreach for potential capital project improvements on multi-modal corridors. Program elements include project scoping, cost estimating, traffic studies, coordination and integration with the public, and resolution of City modal plan recommendations (pedestrian, bicycle, freight and transit). In 2014, the proposed corridors for development are Beacon Avenue, Lake City Way, Greenwood Avenue, East Marginal Way, and Delridge Way. These corridors align with existing efforts, such as transit program improvements and corridor planning, and needs. Candidate corridors for 2015 are Yesler Way, 1st Avenue, and Aurora Avenue.

Neighborhood Large Projects

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	ONGOING
Project ID:	TC367250	End Date:	ONGOING
Location:	Citywide	Council District:	Mulitple
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village

This program enhances the safety, quality and condition of the pedestrian and neighborhood environments. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The Neighborhood Street Fund is funded by the Bridging the Gap (BTG) transportation levy and is a triennial program. The projects funded are identified by the community and prioritized by the District Councils and the BTG Oversight Committee.

Seattle Department of Transportation

New Traffic Signals

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	ONGOING
Project ID:	TC323610	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project installs new traffic signals to improve traffic flow, reduce the frequency and severity of traffic collisions, and support pedestrian activity. Location choices are based upon pedestrian and vehicle volumes; school, senior citizen, and handicapped accessible crossing requirements; and collisions frequency criteria. More than half of the new signal needs are to support pedestrian mobility and safety. SDOT has adopted new “pedestrian friendly” criteria for installation of new pedestrian signals, which has resulted in more locations being added to the unfunded list for new signals.

Location:	Citywide	Council District:	Mulitple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This project will design and implement upgrades to the Traffic Management Center (TMC); implement expansion of real-time information such as traffic cameras, sensors, and travel time to support major construction projects; deploy Dynamic Messaging Signs (DMS) at key decision points to provide real-time information such as incidents, travel times, bridge opening notices, and planned construction and event information; and install dynamic signal timing (self adjusting traffic signal timing based on traffic volume on key corridors around the major construction projects). This project also includes replacing the City's traffic cameras; this requires an investment of \$600,000 per year for four years (2015-2018).

Non-Arterial Asphalt Street Resurfacing

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC323920	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project repairs and/or replaces deteriorated asphalt pavement on non-arterial streets. Project locations are chosen annually, based upon the degree of deterioration as confirmed by Department staff field observation, citizen service requests, claims, and potential City liability. High priority is given to non-arterial streets used by transit, in areas with heavy pedestrian and bicycle traffic, and which serve business and industry.

NSF/CRS Neighborhood Program

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC365770	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	In more than one Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program has two elements: an annual program that identifies projects estimated less than \$100,000 that are prioritized by each of the 13 district councils; and a triennial program that identifies projects estimated between \$100,000 and \$500,000 that are prioritized by the community at large and a project review team. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The program enhances the safety, quality and condition of the pedestrian and neighborhood environments. Beginning in 2013, the NSF/CRS Neighborhood Program will only reflect improvements that can be completed by City crews, and improvements that are contracted out will be covered by a new project named Neighborhood Large Projects.

Overlook Walk and East-West Connections Project

BCL/Program Name:	Major Projects	BCL/Program Code:	19002
Project Type:	New Investment	Start Date:	Q1/2013
Project ID:	TC367630	End Date:	Q4/2020
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	7
Neighborhood District:		Urban Village:	

Removing the Alaskan Way Viaduct provides the opportunity for the City to improve key connections between the downtown core and the waterfront. The specific east/west streets targeted for improving connections include: Bell Street, Union Street, Pike Street, Pine Street, Main Street, Washington Street, and Railroad Way. In addition to these east/west street connections, the waterfront improvement program also includes Overlook Walk, which would provide a pedestrian oriented connection between the waterfront and Aquarium and Pike Place Market with ADA access, views, and public open spaces. This project is part of the overall waterfront improvement program.

Pay Stations

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	New Investment	Start Date:	Q1/2004
Project ID:	TC366350	End Date:	ONGOING
Location:	Various	Council District:	Mulitple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This project funds the installation of parking pay stations to manage on-street parking. To date, this project has installed over 2,200 pay stations citywide. In future years, funding requirements for new installations will be identified as parking plans are developed. The oldest of the pay stations reach the end of their ten-year lifecycle in 2014. Replacement of older pay stations with new units will begin in 2014.

Pedestrian Master Plan - New Sidewalks

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	New Facility	Start Date:	Q1/2015
Project ID:	TC367600	End Date:	
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
Neighborhood District:		Urban Village:	

This project is enhances the pedestrian environment in Seattle's neighborhoods by dedicating funding to construct new sidewalks. The New Sidewalk Program draws funding from the School Zone Fixed Automated Camera (SZFAC) Fund to improve sidewalks and the pedestrian environment near schools. Additional funding is drawn from other sources to pay for new sidewalk construction that are not in a Seattle Public School walk zone.

Neighborhood District:	In more than one District		

This project improves pedestrian and bicycle safety around schools. The work may include: school zone signing; crosswalk, curb bulb, and sidewalk maintenance; changes to traffic circulation around schools; installation of school zone cameras; school walking route maps; and, bike parking at schools. The base level of transportation funding provides improvements at approximately three to four schools per year. The School Zone Fixed Automated Camera (SZFAC) Fund provides improvements at approximately sixteen additional schools in 2014. A separate operations and maintenance budget funds safe biking and walking education and outreach campaigns at the schools where improvements are made as well as the maintenance of school zone warning beacons. Operation of school zone cameras is directly funded from the Seattle Police Department budget.

Pedestrian Master Plan Implementation

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	Q1/2010
Project ID:	TC367150	End Date:	ONGOING
Location:	Citywide	Council District:	Mulitple
Neighborhood Plan:	In more than one Plan	Urban Village:	In more than one Urban Village

This ongoing program implements the Pedestrian Master Plan. Typical improvements may include the installation of curb ramps at high priority pedestrian locations, the installation of pedestrian lighting, and the rehabilitation or replacement of stairways. The goals of the program are to reduce the number and severity of crashes involving pedestrians; make Seattle a more walkable city for all through equity in public engagement, service delivery, accessibility, and capital investments; develop a pedestrian environment that sustains healthy communities and supports a vibrant economy; and raise awareness of the important role of walking in promoting health and preventing disease. This program supports Walk Bike Ride by implementing the Pedestrian Master Plan.

Railroad Crossing Signal Improvements

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	Q1/2009
Project ID:	TC367090	End Date:	Q4/2015
Location:	Broad St B/Alaskan Way/Elliott Ave		
Neighborhood Plan:	Commercial Core	Council District:	N/A
Neighborhood District:	Downtown	Urban Village:	Commercial Core

This project provides railroad crossing gates and flashing lights at key railroad crossings in the Seattle Waterfront Quiet Zone: at Broad Street, Clay Street, Vine Street and Wall Street. By federal law, without these improvements, trains must sound their horn whenever they approach the crossings. The gates and flashing lights will be installed by Burlington Northern Santa Fe (BNSF) Railroad and SDOT will install other elements including curbs and signage. In addition, SDOT will install improvements for bicycle access to the Olympic Sculpture Park and Myrtle Edwards Park at the intersection of Alaskan Way and Broad Street.

S Lander St. Grade Separation

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	New Facility	Start Date:	Q1/2001
Project ID:	TC366150	End Date:	TBD
Location:	S Lander St/1st Ave S/4th Ave S		
Neighborhood Plan:	Duwamish	Council District:	2
Neighborhood District:	Greater Duwamish	Urban Village:	Not in an Urban Village

This project develops a grade separation of the S Lander St. roadway and the Burlington Northern mainline railroad tracks between First Avenue S and Fourth Avenue S. Previously, City staff evaluated traffic conditions and identified an initial design concept. During the preliminary engineering phase of the project, a consultant conducted a Type, Size, and Location study to develop more detailed plans and cost estimates. The project design recommenced in November of 2006, and in January of 2007, survey, geotechnical, and scoping of the design work began. Design was put on hold in 2008 due to lack of funding. The estimated cost to design and construct this project is \$180-\$200 million.

Sidewalk Safety Repair

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC365120	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing project rehabilitates sidewalks damaged by street trees or where there are serious safety concerns as evidenced by claims, service requests, and potential City liability. The project includes opportunities for public/private partnerships with citizens, property owners, and businesses. Asset management principles are used to guide repair needs and establish priorities for maintaining the sidewalk (or walkway), curbs, curb ramps, and in some cases, a filler strip between the sidewalk and curb. In 2014-16, \$2.0 million of Sidewalk Safety Repair funding is dedicated to the 23rd Avenue Corridor Improvement project. The dollars are budgeted directly in the 23rd Avenue project.

Signal Major Maintenance

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC367580	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This project addresses major work related to the basic infrastructure at traffic signals such as poles, span wires, mast arms, wiring, equipment interconnectivity, video equipment and cabinets to improve and upgrade the traffic signal system. The project also is used for replacement of signal cabinets. In addition, this project will rebuild approximately 10 additional signals in 2016. The expected life of a signal is 30 years; at this time there are more than 1,000 signals within the City.

South Lake Union Streetcar

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	New Facility	Start Date:	Q1/2013
Project ID:	TC367400	End Date:	Q3/2014
Location:	Various		
Neighborhood Plan:	South Lake Union	Council District:	7
Neighborhood District:	Downtown	Urban Village:	South Lake Union

This project procures an additional streetcar for the South Lake Union line. Purchase of the streetcar will be reimbursed by Amazon as a public benefit for vacations of alley rights-of-way.

2015 - 2020 Adopted Capital Improvement Program

Seattle Department of Transportation

South Park Bridge

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2001
Project ID:	TC365780	End Date:	Q4/2016
Location:	16th Ave S/E Marginal Wy S/S Cloverdale St		
Neighborhood Plan:	South Park	Council District:	Multiple
Neighborhood District:	Greater Duwamish	Urban Village:	In more than one Urban Village

This project funds the City's involvement in the preparation of an Environmental Impact Statement (EIS), design plans, and construction process for the replacement of the South Park Bridge, which is an opening bridge located in unincorporated King County and the City of Tukwila. Due to the deteriorating condition of the existing bridge, it was permanently closed in 2010. The new bridge opened in 2014.

2015 - 2020 Adopted Capital Improvement Program

Seattle Department of Transportation

Spokane St. Viaduct

BCL/Program Name:	Major Projects	BCL/Program Code:	19002
Project Type:	Improved Facility	Start Date:	Q2/1994
Project ID:	TC364800	End Date:	Q3/2016
Location:	S Spokane St/6th Ave S/E Marginal Wy S		
Neighborhood Plan:	Morgan Junction (MOCA)	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	Duwamish

This project, part of the Bridging the Gap funding package, builds a new structure that will be parallel and connected to the existing one, and will widen the existing viaduct by about 41 feet. The project also includes construction of new ramps at First Avenue South and an eastbound Fourth Avenue off-ramp. This project improves the safety of the Spokane Street Viaduct through the addition of shoulders, a wider median, and a westbound "weave-lane." The project also reconstructs lower Spokane Street in concrete, including a 10 foot wide sidewalk/bike path along the north side of the street.

2015 - 2020 Adopted Capital Improvement Program

Seattle Department of Transportation

Street Lighting Program

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC366900	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	In more than one Plan	Council District:	Mulitple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project provides funding for the street lighting components of transportation projects, where the cost of those components will ultimately be borne by the City's General Subfund. The project enables the Seattle Department of Transportation, the Department of Finance, and Seattle City Light to plan for these costs. Funding is provided from the Light Fund, which recovers these costs through street light rates charged by Seattle City Light to the City's General Subfund. SDOT develops project specific estimates of the cost of lighting components in the year prior to construction. For 2014, funds are budgeted under the individual transportation projects in which the spending will occur. For 2015 through 2019, the funds displayed below have not yet been allocated to specific projects, but will be allocated once detailed project cost estimates are developed.

2015 - 2020 Adopted Capital Improvement Program

Seattle Department of Transportation

Thomas St Pedestrian Overpass (formerly Belltown/Queen Anne Waterfront Connections-Thomas St.)

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	New Facility	Start Date:	Q1/2003
Project ID:	TC366210	End Date:	Q4/2015
Location:	Elliott Ave W/W Thomas St		
Neighborhood Plan:	Queen Anne	Council District:	Multiple
Neighborhood District:	Magnolia/Queen Anne	Urban Village:	Not in an Urban Village

This project consists of constructing a pedestrian/bicycle overpass across the Burlington Northern Railroad tracks and continuing across Elliott Ave along the W Thomas Street cul-de-sac to connect lower Queen Anne to Myrtle Edwards Park with either elevators and stairs or ramps. The overpass allows pedestrian and bicycle access to Myrtle Edwards Park, creating a vital central link from the park to the west side of the Uptown and Belltown neighborhoods.

2015 - 2020 Adopted Capital Improvement Program

Overview

Seattle City Light (SCL) is a municipal electric utility, owned by the residents of Seattle and run by the City's elected officials. The Utility serves a population of almost 700,000 people living in a 130 square-mile area, which includes the City of Seattle and several adjoining jurisdictions. To serve these customers, City Light owns, maintains, and operates a multi-billion-dollar physical plant. The physical plant includes:

- A power supply generation system consisting of seven hydroelectric plants on the Pend Oreille (Boundary Dam), Skagit, Cedar, and Tolt rivers with a combined capacity of almost 2,000 megawatts;
- 650 miles of high-voltage transmission lines linking these plants to Seattle;
- A distribution system with 14 major substations and more than 2,500 miles of overhead and underground cable;
- A state-of-the-art System Control Center coordinating these activities; and
- Billing and metering equipment tracking approximately 423,000 accounts.

City Light's Capital Improvement Program (CIP) is the vehicle for repairing, upgrading, and expanding this infrastructure. The CIP funds a variety of safety improvements, mitigation activities, and licensing requirements. The goal of the utility's capital program is to ensure that the facilities required to serve City Light customers with low-cost, reliable power, are in place. Funding for the CIP comes primarily from retail electricity sales, sales of surplus power on the wholesale market, and the sale of revenue bonds.

The City Council adopted an updated Strategic Plan for City Light in June, 2014, that established spending priorities and a six-year rate path for the utility. The updated Strategic Plan guided development of City Light's 2015-2020 Adopted CIP budget.

2015-2020 CIP Highlights

The 2015-2020 Adopted CIP budget outlines \$2.17 billion in capital spending over six years for power supply, transmission, distribution, customer services, and central utility needs. Approximately \$180 million of this spending is in response to external projects, including suburban undergrounding requests, maintenance of the streetlight system, infrastructure relocations due to transportation projects, and other reimbursable customer-requested work.

City Light monitors and refines CIP project spending plans throughout the year and reports progress to the Mayor and City Council quarterly. SCL submits all significant project changes to the Mayor and the Council for approval through the quarterly supplemental budget process.

As outlined in the 2014-2019 Adopted CIP budget, there is a significant increase in project spending scheduled for 2015. This is due both to existing projects expanding in scope, and new projects getting underway. These increases were scheduled in earlier CIP budgets and are outlined in the Strategic Plan.

Seattle City Light

Examples of some of the larger new and existing projects, along with their 2015 budgets, include:

- Denny Substation - \$22 million
- Advanced Metering Infrastructure - \$22 million
- Alaskan Way Viaduct and Seawall Replacement - \$32 million
- Boundary Licensing Mitigation - \$19 million

A more expansive look at CIP highlights scheduled for 2015-2016 is provided below.

CIP Expenditures by Major Category

The 2015-2020 Adopted CIP summarizes spending in five broad categories: Power Supply, Transmission, Distribution, External Projects and Central Utility Projects. The table below displays the projects and associated spending included in each of these categories for the 2015-2020 Adopted CIP. The dollar amounts shown in this document reflect the projects' total costs to be capitalized, and include both direct costs and associated overhead costs.

2015-2020 Adopted CIP Summary of CIP Project Allocations (in \$1,000s)

	2015	2016	2017	2018	2019	2020	Total
Power Supply	80,756	74,465	78,894	75,586	59,149	84,913	453,853
Boundary	34,401	32,533	52,069	45,314	34,471	40,709	239,497
Skagit	40,536	36,464	22,122	23,893	17,769	36,997	177,781
Cedar Falls – Tolt	2,032	1,813	1,482	3,154	3,659	3,880	16,020
Power Supply Other	3,787	3,655	3,311	3,225	3,250	3,327	20,555
Transmission	6,593	16,563	10,178	11,322	56,215	7,600	108,471
Distribution	224,681	255,300	206,980	146,151	144,435	154,542	1,132,089
Substations	45,389	64,260	50,663	21,469	24,845	24,780	231,406
Network	34,519	52,403	21,021	19,935	21,880	31,153	180,911
Radial	60,602	58,849	58,029	50,660	54,942	55,952	339,034
Service Connections	60,249	68,121	67,611	43,759	34,664	34,801	309,205
Distribution Other	23,922	11,667	9,656	10,328	8,104	7,856	71,533
External Projects	52,974	58,268	45,171	19,783	18,794	22,105	217,095
Local Jurisdictions	15,368	13,079	12,939	12,759	13,869	17,013	85,027
Transportation Relocations	37,538	45,165	32,208	7,012	4,912	5,069	131,904
Customer Other	68	24	24	12	13	23	164
Central Utility Projects	30,893	29,096	18,046	18,662	88,477	74,764	259,938
Customer and Billing	6,243	4,903	214	0	0	0	11,360
Finance and IT Systems	10,277	10,611	6,462	7,031	10,175	10,711	55,267
Fleets and Facilities	14,373	13,582	11,370	11,631	78,302	64,053	193,311
Totals:	395,897	433,692	359,361	271,504	367,070	343,924	2,171,448

A more detailed description and summary of each Category follows.

Power Supply: Projects in this category includes improvements to City Light's dams, generators, powerhouses, and other related projects. In addition, the category contains projects designed to help SCL comply with federal licensing and environmental mitigation requirements at the utility's dams. City Light sequences work on major power production equipment (i.e., generator rebuilds and runner replacements) to reduce the impact to power generation and level capital spending.

The 2015-2020 Strategic Plan adds funding for the Boundary Unit 54 generator rebuild.

The 2015-2020 Strategic Plan also includes a new initiative to begin work on Skagit Relicensing, starting in 2019.

For 2015, the CIP includes \$80.8 million in funding for 49 projects in Power Supply. **Highlights, ordered by project number, include:**

- Skagit – Sewer System Rehabilitation (6232): (\$392,000 in 2015.) This project replaces or repairs numerous sewer pipe breaks, leaks and sags in the combined Skagit River sewer/drainage system located at the Diablo Dam site. The project has been accelerated and will start in 2014.
- Boundary Powerhouse – Unit 54 Generator Rebuild (6353): (\$0 in 2015.) This project funds the rebuilding of the Unit 54 generator in 2017-2018 and is part of a programmatic series of projects to maintain and extend the useful life of the utility's aging generators. Additional funding is added to the project via a Strategic Plan increment to update cost estimates as a result of recent experience with generator rebuilds.
- Boundary Powerhouse – Unit 56 Generator Rebuild (6354): (\$1,725,000 in 2015.) This project funds the rebuilding of the Unit 56 generator and is part of a programmatic series of projects to maintain and extend the useful life of the utility's aging generators. This rebuild is currently underway and the generator will be returned to service in 2015. This project is performed in conjunction with project 6490, which replaces the Turbine Runner.
- Diablo Powerhouse – Rebuild Generator Unit 32 (6423): (\$12,295,000 in 2015.) The project rebuilds generator Unit 32 at Diablo Powerhouse as part of the utility's generator rebuild program. Unit 31 will be rebuilt the year after Unit 32.
- Boundary Powerhouse – Unit 56 Turbine Runner Replacement (6490): (\$3,034,000 in 2015.) This project replaces the Boundary Unit 56 turbine runner, to enhance Unit efficiency. This project is performed in conjunction with project 6354, which rebuilds the generator.
- Boundary Switchyard – Generator Step-Up Transformers (6493): (\$5,165,000 in 2015.) This project replaces the transformers used to step up voltage and feed the transmission lines. The transformers are past their useful lifetime. Additionally, efficiency gains can be realized by matching the new transformers to the rebuilt generators.
- Ross Powerhouse – Replace Transformer Banks 42 and 44 (6541): (\$7,713,000 in 2015.) This project funds the design and installation of two new step-up power transformer banks at Ross Powerhouse. The new transformer banks will replace the existing sixty-year-old units that exceeded their useful life and show signs of failure.
- Boundary Entrance Improvements (6601): (\$1,106,000 in 2015.) This new project funds

Seattle City Light

construction of facilities at the entrance to Boundary Dam to provide improved security and visitor amenities.

- Boundary – Licensing Mitigation (6987): (\$19,246,000 in 2015.) This project implements Protection, Mitigation and Enhancement measures required by the terms and conditions of a settlement agreement and new license issued by the Federal Energy Regulatory Commission (FERC). The license allows for the continued operation of the Boundary Hydroelectric Project.

Transmission: Projects in this category include transmission capacity and reliability projects to deliver power from City Light’s dams to City Light’s distribution system and the regional power grid. City Light owns and maintains 650 miles of transmission capacity that connect the Skagit facilities to Seattle. SCL leases additional transmission capacity to connect to the Boundary, Cedar Falls, and Tolt hydroelectric projects.

For 2015, the CIP budget includes \$6.6 million in funding for six projects in Transmission. ***Highlights, ordered by project number, include:***

- Denny Substation Transmission Lines (7125): (\$1,220,000 in 2015.) This project designs and constructs transmission lines to support the new Denny Substation. These transmission lines are created by dividing the existing Pine to Broad Street transmission line into two transmission lines. The remaining new lines will come from the Canal and Massachusetts substations. At this time the work consists of preliminary design.
- Transmission Line Inductor Installation (8461): (\$1,679,000 in 2015.) This project addresses the issue of increased electric transmission congestion load growth in the Puget Sound Area. The project funds the installation of inductors or phase shifting transformers that curtail the flow of power through the Seattle area, while improving customer and asset strengths and maintaining reliability.
- Transmission Line Reconductoring (8462): (\$409,000 in 2015.) This project addresses the issue of increased electric transmission congestion load growth in the Puget Sound Area by increasing the capacity of the Bothell-SnoKing double circuit 230kV line to meet area reliability requirements. The project funds the re-conductoring of both the Bothell-SnoKing double circuit 230kV line and the Delridge-Duwamish 230kV line to increase capacity and meet regional reliability requirements.

Distribution: Projects in this category include improvements to City Light’s distribution substations, relays, feeders, network distribution systems, overhead and underground radial distribution systems, service connections, customer meters, and other facilities related to the distribution system. The 2015-2020 Strategic Plan provides additional funding for security improvements at substations to meet North American Electric Reliability Corporation (NERC) standards.

The Utility proposes to begin two major projects in 2015. The Advanced Metering Infrastructure project will begin deployment of smart meters. The Energy Management System project will begin replacement of the existing energy management system.

The 2015-2020 Strategic Plan includes two new Distribution projects that start in 2019. The

Seattle City Light

Distribution Management System project will give City Light the ability to actively monitor and manage its distribution system in real time. This initiative will reduce outage duration and frequency. The Asset Investment and Optimization project provides funding for planning and optimizing investments by asset classes.

For 2015, the CIP includes \$224.7 million in funding for 60 projects in Distribution. ***Highlights, ordered by project number, include:***

- Denny Substation Development (7757): (\$21,954,000 in 2105.) This project designs and builds a 200 MVA substation on Denny Avenue. The project funds site acquisition, environmental management and remediation of land, design of the substation, and construction of the substation. It provides capacity to meet load growth, provides the operational flexibility to operate the electrical system to serve new development and existing load, and supports development of an underground network. Funding for the new substation is unchanged from 2014. This project coordinates with build out of the Denny network and construction of transmission lines to the new substation.
- Broad Street Substation – Network (8203): (\$10,199,000 in 2015.) This ongoing project funds construction of underground network assets serving customers in the Belltown and Denny Regrade areas. The project enhances network reliability and provides sufficient service capacity for the growing electrical power needs of the Denny Triangle.
- Overhead Equipment Replacements (8351): (\$20,499,000 in 2015.) This ongoing project replaces older equipment in City Light's distribution system that is nearing the end of its usable life, is overloaded, or is of an outdated design and requires replacement due to the lack of spare parts. This project enhances distribution system reliability, avoiding unplanned outages or interruption of service due to equipment failure.
- Underground Equipment Replacements (8353): (\$10,843,000 in 2015.) This ongoing project replaces and improves underground electrical system equipment that is failing or approaching the end of its useful life. This project enhances distribution system reliability, avoiding unplanned outages or interruption of service due to equipment failure.
- Denny Substation – Network (8404): (\$14,238,000 in 2015.) This project designs and builds a distribution network for the South Lake Union area. The new Denny substation serves this area. This project coordinates with construction of the substation.
- Advanced Metering Infrastructure (8426): (\$21,660,000 in 2015.) This project replaces approximately 400,000 existing meters, residential or commercial, with Smart Meters allowing two-way communication between Seattle City Light and its customers. Smart Meters automate meter reading; increase customer service; heighten billing capacity; allow for reduced energy consumption by providing more information on use; improve outage restoration efficiency; and support rate structure flexibility. Implementation of the project positions the utility to comply with NERC and FERC programs and requirements.
- Broadband – City Light (8465): (\$2,529,000 in 2015.) This project provides funding to allow SCL to meet increased customer demand for wireless capabilities.
- Automated Utility Design Implementation (9950): (\$1,900,000 in 2015.) This project purchases and installs Automatic Utility Design (AUD), a new engineering design software tool to replace outdated drafting software that is no longer supported by the vendor. The AUD software will provide significant design and production efficiencies at a time when the engineering work load is increasing. This project is being extended. As the project developed,

it became clear that more time and resources were needed to achieve the goals laid out in the scope of work.

- Security Improvements (9202): (\$7,373,000 in 2015.) This ongoing program plans, designs and implements projects that improve the physical security of City Light critical facilities, in order to mitigate unauthorized access and criminal activities that could cause system damage, power outages, and other related disruptions to the electrical system. The 2015-2020 Strategic Plan provides additional funding to satisfy NERC-mandated physical security requirements at substations, and at the Cedar Falls, and Tolt plants.
- Energy Management System (9956): (\$11,768,000 in 2015.) This project replaces the existing Energy Management System (EMS) and includes replacing portions of the EMS map board and all of the front-end processors, implementing an on-line EMS off-site backup, and improving system reliability. The schedule has been revised, and a portion of the contracts will now be encumbered in 2015 and executed in 2016. The total project cost has not changed significantly.

External Projects: Projects in this category respond to requests from local jurisdictions to relocate distribution services from overhead to underground systems per the terms of franchise agreements; maintain and upgrade the streetlight system; relocate utility infrastructure in response to major transportation projects; and provide capital improvements in response to other customer-requested service needs. Allocation changes reflect revised scope and schedule projections provided by the transportation project managers.

The 2015-2020 Strategic Plan contains a new budget increment that funds proactive updating of enterprise software systems starting in 2019.

For 2015, the CIP includes \$53.0 million in funding for 14 External Projects. ***Highlights, ordered by project number, include:***

- Alaskan Way Viaduct and Seawall Replacement – Utility Relocations (8307): (\$32,119,000 in 2015.) The project provides for the relocation of utility infrastructure in conjunction with the Washington State Department of Transportation project. For 2015, significant increases in the project cost resulted from the identification of the scope of work on the waterfront.
- Overhead and Underground Relocations (8369): (\$2,431,000 in 2015.) This ongoing project relocates Seattle City Light electrical lines as required by transportation projects.
- Transportation Streetlights (8377): (\$1,741,000 in 2015.) This ongoing project relocates utility owned streetlights as required by City transportation projects.
- Streetlights: Arterial, Residential and Floodlights (8378): (\$3,561,000 in 2015.) This ongoing project provides street lighting as requested by various taxing jurisdictions and other customers. Streetlights and floodlights are provided in the public right of way, and on private property, for either public or private benefit.
- Streetlight LED Conversion Program (8441): (\$5,720,000 in 2015.) This project upgrades streetlights with LED fixtures in order to reduce annual energy consumption and utility maintenance costs. The utility recovers costs for this project through streetlight rates.

Central Utility Projects: Projects in this category provide for centralized billing and customer

service systems, financial and information technology systems that are critical to the utility's operation, and vehicle fleets and facilities that are not part of the power generating plant (e.g., equipment shops, service centers, and maintenance yards). The 2015-2020 Strategic Plan adds funding to existing security, document management, energy conservation, and customer information system projects.

The 2015-2020 Strategic Plan includes a new project, starting in 2015, to provide funding for implementation of side-system modifications needed to support the City's Summit Reimplementation project.

The 2015-2020 Strategic Plan includes a new initiative to replace the Utility's two major service centers, beginning in 2019.

For 2015, the CIP includes \$30.9 million in funding for 26 Central Utility Projects. ***Highlights, ordered by project number, include:***

- Equipment Fleet Replacement (9101): (\$4,283,000 in 2015.) This ongoing project replaces, updates, and expands City Light's heavy-duty mobile equipment fleet. This project also funds the replacement of light-duty vehicles owned by City Light, including those previously leased from the Fleets & Facilities Department and now owned by City Light.
- Technical Training Center Development (9230): (\$1,751,000 in 2015.) This project constructs a new technical training center on a vacant property on East Marginal Way South that is owned by SCL. Seattle City Light will develop a dedicated, state-of-art Technical Training Center that meets educational needs for classroom instruction and field experience training for entry-level as well as seasoned Utility service workers. Award of the construction contract has been delayed, and the contract will now be awarded in 2015. Funds for the contract will carry forward from 2014.
- Information Technology Infrastructure (9915): (\$3,249,000 in 2015.) This ongoing project funds replacement and improvement of the Utility's information technology infrastructure. Components purchased by this project include servers, network and communications equipment, disk storage, and application and operating system software.
- Customer Information System (9937): (\$6,243,000 in 2015.) This project replaces the customer billing application with a new technology solution. Additional funding was added in the 2015-2020 Strategic Plan to provide additional staff time during implementation to cover learning curves for end users and to optimize system efficiencies. The funding also increased implementation resources from vendors.
- IT Security Upgrades (9960): (\$1,419,000 in 2015.) This ongoing project updates or replaces information security systems that are at high risk of failure. The project enhances vulnerability and intrusion detection as well as response capabilities and procedures. The project provides firewalls, routers, switches, and operating systems. This project was initiated in the 2013 Strategic Plan. The 2015-2020 Strategic Plan adds two FTEs and consultant funding to develop the operational standards, policies, and tools to integrate information and operational security into a cohesive risk-threat matrix evaluating our controls for critical assets. FTE costs are offset by reductions in term-limited funding.
- Enterprise Document Management System (9962): (\$2,043,000 in 2015.) This project plans, builds, deploys, and provides ongoing management of an enterprise document management

system that effectively and efficiently captures, secures, shares, and distributes digital and paper based documents and reports. The project streamlines collaboration, automates routine tasks, and lowers costs related to creation, management, and storage of business documents. This project was started in the 2013-2018 Strategic Plan. It has been very effective and greatly appreciated by impacted staff. The 2015-2020 Strategic Plan adds additional funding to accelerate implementation and provide more business process support.

- Peoplesoft Reimplementation - City Light (9970): (\$3,000,000 in 2015.) This project provides funding for implementation of side-system modifications needed to support the City's reimplementation of PeopleSoft.

Thematic Priorities

The Updated 2015-2020 City Light Strategic Plan is organized around four key objectives:

- **Improve Customer Experience and Rate Predictability** – Seattle's technology-savvy population expects City Light to efficiently manage the energy system and respond quickly to customer concerns and outages, and to be able to predict and budget their utility costs.
- **Increase Workforce Performance and Safety Practices** – The Strategic Plan gives City Light a path to proactively manage an impending wave of retirements and be able to retain highly skilled workers. City Light must also continuously improve its employee safety record that, as of the end of 2013, is ahead of target.
- **Enhance Organizational Performance** – City Light's goal is to be in the top 10% of peer utilities on measures of efficiency and effectiveness, and to reduce baseline costs by an ongoing \$18 million per year, at a minimum, starting in 2015.
- **Continue Conservation and Environmental Stewardship Leadership** – The Strategic Plan ensures that the utility remains the nation's greenest utility. City Light invests in research and strategic initiatives such as promoting electric vehicles that will help it adapt to the impacts of climate change. The utility is also looking at ways to strengthen its financial resources in environmentally-responsible ways such as optimizing its ability to sell excess power on the wholesale energy market, among other things.

CIP projects implement these objectives in the following ways:

- **Maintaining existing infrastructure and supporting basic operations** – The majority of CIP projects involve maintaining existing systems and equipment or supporting the ongoing daily operations of the utility. These projects include major maintenance work that extends the life and function of facilities and equipment, scheduled replacements of old and failing equipment, supporting customer connections, and addressing unexpected system outages. Some projects respond to external conditions, such as relocations due to major transportation projects. The CIP also includes projects for renovating streetlights and underground cables.

- **Upgrading capacity and services to provide new functionality** – CIP Projects also increase the utility’s generation and distribution capacity, and provide new functionality for management and customer service systems. The 2015-2020 CIP continues funding for these capacity-related projects, such as the Customer Information System, the Denny Substation, Automated Metering Infrastructure, and the Energy Management System.
- **Addressing licensing, regulatory and safety requirements** – Federal licenses governing the operation of the utility’s dams require a number of environmental, historic preservation, and recreation mitigation measures. In addition, federal regulation of the transmission grid and energy market transactions requires system upgrades and improvements. The CIP includes projects that improve safety, proactively reduce infrastructure risks, and address transmission grid improvements and regulatory compliance.
- **Maintaining the utility’s information technology systems** – The electric utility industry relies heavily on information technology systems. IT systems help SCL provide real time management and automation of operations; design and digitally record utility systems and assets; regulate power across the regional transmission grid; manage financial transactions on the energy market; and increase business efficiencies throughout the organization. The CIP includes projects that maintain the hardware and software necessary to provide these functions, and implements Strategic Plan initiatives that improve cyber security and disaster recovery.

CIP Revenue Sources

Retail electricity sales and surplus energy sales on the wholesale market fund a large part of City Light’s CIP. Other funding comes from direct customer billing (including service connections and other customer requested work) and assorted fees. City Light also finances a portion of the CIP through the sale of revenue bonds. City Light’s policy is to limit debt financing to 60% of any given six-year CIP (Resolution 31187).

Project Selection Criteria

Two years ago, City Light completed the most extensive planning process ever undertaken by the utility, to serve as a road map for how to best meet customers’ current and future needs. The plan was the product of a process launched by the mayor and City Council in 2010 and overseen by a newly chartered City Light Review Panel representing key customer groups.

For the 2015–2020 Strategic Plan Update, the utility continued outreach to make certain its proposed adjustments and new initiatives were on the right track.

There were two distinct phases of public engagement and outreach:

- Phase 1 - Conducted in fall and winter 2013 and 2014, this outreach gathered feedback for the utility and the Review Panel about possible changes in rate design. The outreach was targeted at both commercial and residential customers, as well as other stakeholders.

- Phase 2 - Conducted in spring 2014, this outreach gave customers a progress report on the 2013-2018 Strategic Plan and provided an opportunity for them to give feedback on new initiatives proposed for the 2015-2020 update. The outreach targeted both commercial and residential customers utilizing some of the most extensive community involvement strategies in the utility's history.

In addition, the utility launched an extensive engagement campaign with the city's large and diverse non-English speaking communities, focusing on both rate design and Strategic Plan Update for a more comprehensive discussion and review.

Project ideas to implement the Strategic Plan and accomplish baseline service delivery come from throughout SCL. Staff members in the operational divisions are responsible for creating official proposals. Members of each of the utility's organizational lines of business (e.g., power supply, transmission and distribution, customer service) prioritize capital spending within their divisions and then submit recommended projects to a centralized capital budgeting system.

City Light management compares proposals against criteria that evaluate the projects' costs, benefits, and risks. The utility gives priority to mandatory requirements and projects currently underway, before considering future projects and new initiatives. Utility staff develop business cases to document the project expectations and rationale, and to provide a cost-benefit analysis of alternatives.

Availability of funding and labor resources constrains the CIP Plan. City Light management seeks to balance the overall needs of the utility within these constraints and may rescope, reschedule, or defer projects in its six-year CIP. City Light intends to revisit the recently adopted Strategic Plan every two years to maintain transparency and set direction for future CIP development.

CIP Budget Control Levels in the 2015 Adopted Budget

The dollar amounts shown in the CIP are total project costs to be capitalized, and include both direct costs and associated overhead costs. Overhead costs include a share of the department's support functions (such as finance, administration, and human resources), employee benefits, and interest incurred during construction.

Because City Light requests budget authority for indirect overhead costs in Operating Budget Control Levels, the total project allocations in the CIP Programs are higher than the corresponding CIP Budget Control Levels in the 2015-2020 Adopted Budget. A table explaining how the 2015-2020 Adopted CIP program totals align with CIP Budget Control Levels in the 2015-2020 Adopted Budget is shown below.

Seattle City Light

CIP Programs -- Project Totals for 2015 (\$1,000s)

Direct Costs (in \$1,000s)				External Projects	Central Utility Projects	2015 Appropriations
LEVELS	Power Supply	Transmission	Distribution			
Customer Focused -CII (SCL370)	0	0	42,931	45,250	3,185	91,366
Financial Services (SCL550)	0	0	0	0	9,375	9,375
Power Supply & Environmental Affairs (SCL 250)	68,856	0	0	0	12,205	81,061
Transmission and Distribution (SCL360)	0	4,738	126,296	0	0	131,034
Total Direct Costs (in \$1,000s)	68,856	4,738	169,227	45,250	24,765	312,836

Loadings and Overhead Estimates (appropriated separately in Operating BCLs)

Interest During Construction	863	101	2,576	438	810	4,738
Paid Time Off	1,306	196	5,213	604	633	7,952
Fringe Benefits	2,498	374	9,973	1,155	1,196	15,197
Payroll Tax (FICA)	643	99	2,867	375	288	4,272
Material	0	10	2,561	985	21	3,577
Transportation	185	165	4,156	621	35	5,162
Shop	135	0	293	0	42	470
Administrative & General	6,270	910	27,815	3,546	3,103	41,644
Total Overhead (in \$1,000s)	11,900	1,855	55,454	7,724	6,128	83,011

CIP Project Allocations (in \$1,000s)	80,756	6,593	224,681	52,974	30,893	395,897
--	---------------	--------------	----------------	---------------	---------------	----------------

City Light typically abandons unspent capital appropriation authority in the CIP Budget Control Levels at the end of each year and re-appropriates the necessary capital authority in the following year's budget. In order to manage total spending on certain high-profile projects, the utility manages their total "lifetime" appropriations and carries forward their unspent capital appropriation authority into subsequent years. This allows for careful review of project changes, and easier tracking of total budget and spending on these projects. The 2015-2020 Adopted CIP includes 34 "lifetime" appropriation projects. Examples include:

- Advanced Metering Infrastructure (8426)
- Alaskan Way Viaduct and Seawall Replacement – Utility Relocations (8307)
- Denny Substation Development (7757)
- Technical Training Center Development (9230)

Because unspent "lifetime" budget authority is carried forward from year to year, allocations for these projects can vary significantly from the spending plans shown on the project pages. The spending plans reflect the anticipated scheduled spending on these projects. Other projects may also show variance between budgeted allocations and spending plans because of encumbrances for multi-year

contracts.

Summary of Upcoming Budget Issues and Challenges

City Light faces a series of challenges common to electric utilities. Infrastructure constructed in the 50s and 60s is now reaching the end of its useful life. Retirements of the boomer generation are causing gaps in institutional knowledge and experience. Materials procurement is becoming more complex due to inflation in commodity prices such as copper and the movement of manufacturing of large electrical equipment overseas.

The impacts of transportation projects and franchise city undergrounding initiatives are difficult to plan for because the external agencies sponsoring these projects have relatively short planning horizons and sometimes have difficulty staying on schedule.

Security risks continue to be a challenge. And both physical and cyber security are subject to greatly increasing regulatory requirements.

Requirements for environmental mitigation, permitting, and construction site mitigation are difficult to accurately estimate and involve substantial schedule risk.

Licensing requirements are key to the continued operation of City Light's hydro-generation assets, and these requirements can change over time.

One challenge that contains substantial promise of improvement is the movement to digital electrical operations. The technology exists for great efficiency improvements by use of real-time monitoring and control systems.

City Light is well positioned to meet these challenges through implementation of the carefully planned portfolio of programs and projects in the Strategic Plan.

Future Projects/What is on the Horizon

The updated 2015-2020 Strategic Plan highlights two new initiatives that will provide enhanced services and efficiencies. Brief descriptions of new CIP projects are also listed below. Highlights for existing baseline projects are included in the CIP Highlights section.

Distribution automation technology

New technologies are now available to give City Light the ability to actively monitor and manage its distribution system in real time. This initiative will reduce outage duration and frequency, and improve safety and customer service. The system utilizes a network of field equipment and software to actively monitor and respond to system malfunctions. The new system then automatically restores electric service, while also managing demand response and optimizing energy delivery.

Service centers master plan

City Light's service centers are the backbone of its operations, directly impacting its mission to

provide reliable, low-cost power to customers. Many essential functions are located in the service centers including line trucks and dispatching; materials and equipment; shipping and receiving; staging of supplies; and shops operations and fabrication. Built in the 1950s and 1920s, respectively, City Light's North and South Service Centers have exceeded their intended operational lifespans.

The following challenges exist at the service centers:

- Building systems are aging and increasingly unreliable.
- Service yard areas are constrained and highly congested, and there is little opportunity to accommodate growth or reconfiguring to meet changing needs.
- The South Service Center sits in an area of Seattle that has a high susceptibility to soil liquefaction during an earthquake, which would have significant impacts to continuity of operations following an earthquake.

This initiative will carry out a site master planning process to evaluate options for making improvements to the current facilities, or potentially consolidate them into one centralized location.

Additional CIP projects in the updated 2015-2020 Strategic Plan include the following:

- Skagit River Hydro Project Relicensing – provides funding to begin the process of relicensing the three dams on the Skagit River.
- Asset Investment and Optimization – provides funding for planning and optimizing investments by asset classes.
- Enterprise Software Replacement Strategy – provides funding for proactive updating of enterprise software systems.
- Facilities Energy Efficiencies – provides funding for cost-effective investments in energy-saving facility improvements.
- Summit Reimplementation – provides funding for implementation of side-system modifications needed to support the City's reimplementation of Summit.
- Enterprise Content Management – provides funding to accelerate implementation of content management systems.
- Security Improvements – provides funding to meet physical security requirements mandated by NERC at substations and at the Cedar Falls and Tolt plants.

Anticipated Operating Expenses Associated with Capital Facilities Projects

Operations and maintenance costs, where identified, are included in SCL's operating budget. In some projects, City Light identified operations and maintenance costs of zero, or did not calculate a number (N/C). In these cases, the operating cost impacts of the project are either insignificant or are offset by cost savings realized by other projects.

City Council Provisos to the CIP

There are no Council provisos.

Seattle City Light

Advanced Metering Infrastructure

BCL/Program Name:	C4 Distribution - Service Connections	BCL/Program Code:	SCL370-C4
Project Type:	New Facility	Start Date:	Q1/2015
Project ID:	8426	End Date:	Q4/2025
Location:			
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project replaces approximately 400,000 existing meters with Smart Meters allowing two-way communication between Seattle City Light and its customers, residential or commercial. Smart Meters continuously record and transmit consumption data to the utility. They also automate meter reading, increase customer service, heighten billing capacity, reduce energy consumption, improve outage restoration efficiency, and support rate structure flexibility. Implementation of the project positions the utility to comply with North American Electric Reliability Corporation and Federal Energy Regulatory Commission programs and requirements.

Asset Investment and Optimization

BCL/Program Name: C5 Distribution - Distribution Other **BCL/Program Code:** SCL360-C5
Project Type: New Investment **Start Date:** Q1/2019
Project ID: 9968 **End Date:** Q4/2020
Location:
Neighborhood Plan: Not in Neighborhood Plan **Council District:**
Neighborhood District: **Urban Village:**

This project involves development and deployment of a software tool that will enable City Light to perform analytics on its electrical assets; predicting end of life, and performing risk analysis and investment planning to minimize risk for the utility. It will provide the ability to run multiple funding scenarios and sensitivity analyses to create a consistent and long-term approach that can be easily modified when parameters change.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Automated Utility Design Implementation

BCL/Program Name:	C3 Distribution - Radial	BCL/Program Code:	SCL360-C3
Project Type:	New Facility	Start Date:	Q1/2011
Project ID:	9950	End Date:	Q4/2025
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project purchases and installs Automatic Utility Design, a new engineering design software tool to replace outdated drafting software, which is no longer supported by the vendor. The AUD software will provide significant design and production efficiencies at a time when the engineering work load is increasing because of a shift to the engineers of production tasks. Additionally, the AUD software will enforce common North and South Service Center engineering practices and procedures and provide an essential interface with WAMS (Work and Asset Management System) and OMS (Outage Management System).

Seattle City Light

Bothell Substation Environmental Remediation

BCL/Program Name:	E3 Central Utility Projects - Fleets and Facilities	BCL/Program Code:	SCL250-E3
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2013
Project ID:	9231	End Date:	Q4/2016
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
Neighborhood District:		Urban Village:	

This project provides funding for the removal of contaminants, sewer remediation, and decommissioning of the water tower at the Bothell Substation. Removal of lead and asbestos in the Craneway Area is necessary in order to make the area space useable. The existing septic system does not meet code and needs to be removed or abandoned in place. The sanitary system then needs to be connected with services out to the street. The water tower needs to be deconstructed and removed as it is no longer used or needed and represents a risk to the substation if it deteriorates to the point of collapsing.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Boundary - Licensing Mitigation

BCL/Program Name:	A1 Power Supply - Boundary	BCL/Program Code:	SCL250-A1
Project Type:	New Investment	Start Date:	Q1/2009
Project ID:	6987	End Date:	Q4/2024
Location:	10382 Boundary Rd, Metaline, WA 99153		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project implements Protection, Mitigation and Enhancement measures (PME) required by the terms and conditions of a settlement agreement and new license to be issued by the Federal Energy Regulatory Commission (FERC). The license allows for the continued operation of the Boundary Hydroelectric Project, Seattle City Light's largest generating station producing approximately 25 to 40% of the City's power supply.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Boundary - New Unit - 57

BCL/Program Name:	A1 Power Supply - Boundary	BCL/Program Code:	SCL250-A1
Project Type:	New Facility	Start Date:	Q1/2017
Project ID:	6533	End Date:	Q4/2022
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
Neighborhood District:		Urban Village:	

This project will build a new hydro-generator unit (Unit 57) at Boundary Dam. The new unit will be used for exclusive load balancing, reducing the wear and tear on the existing units 51-56, allowing steady state operation, minimization of Total Dissolved Gas values in certain spill conditions, and to provide more power production instead of wasting water resources to spill.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Boundary Dam - Instrumentation Upgrade and Integration

BCL/Program Name:	A1 Power Supply - Boundary	BCL/Program Code:	SCL250-A1
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2006
Project ID:	6343	End Date:	Q4/2025
Location:	10382 Boundary Rd, Metaline, WA 99153		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project funds a purchase and installation contract with an electrical contractor or supplier to upgrade or replace Unit 51-56 unit control boards, to enhance and permit a full interface with a new network-based control system. Full interface is required for long-term goal of complete plant automation.

2015 - 2020 Adopted Capital Improvement Program

Boundary Entrance Improvements

BCL/Program Name: A1 Power Supply - Boundary **BCL/Program Code:** SCL250-A1
Project Type: Rehabilitation or Restoration **Start Date:** Q1/2015
Project ID: 6601 **End Date:** Q4/2016
Location:
Neighborhood Plan: Not in Neighborhood Plan **Council District:**
Neighborhood District: **Urban Village:**

This project will make the security entrance to the Boundary Hydro Project safer for employees, working at the site, for the security guard, and for visitors. The access road to the security gate will be realigned so the guard station can be accessed between lanes of incoming and outgoing traffic instead of from the road shoulder. This will increase the guards view of approaching traffic and will also allow traffic more time to slow down when approaching the guard station. A permanent building will be installed with water service, a restroom, and an electrical room. New signage will also be installed.

This ongoing project provides financial coverage for emergent capital projects, specifically related to Boundary Facilities. These projects are, by definition, unforeseeable, unscheduled, unpredictable, and occur on a first-come, first serve basis. This project shows increased project allocations in years 2015 to 2017. This increase reflects anticipated baseline CIP spending levels for the Boundary Facility that are in line with Strategic Plan assumptions. These future year allocations will be broken out into specific CIP projects.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Boundary Powerhouse - Transformer Bank Rockfall Mitigation

BCL/Program Name:	A1 Power Supply - Boundary	BCL/Program Code:	SCL250-A1
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2008
Project ID:	6485	End Date:	Q4/2022
Location:	10382 Boundary Rd, Metaline, WA 99153		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project constructs an intermediate switchyard at Boundary, installs new cables routed through tunnels to the surface from the Boundary Dam transformers to the switchyard, and constructs a transmission line from the switchyard to the BPA Switching Station. This project mitigates the likelihood of rock fall damage to a transformer, the bonnet over the transformer, transformer equipment, conductors, or outriggers. It reduces the likelihood of damage from such an incident which could be catastrophic and result in extended outages, personal injury, and death.

Seattle City Light

Boundary Switchyard - Generator Step-up Transformers

BCL/Program Name:	A1 Power Supply - Boundary	BCL/Program Code:	SCL250-A1
Project Type:	New Facility	Start Date:	Q1/2010
Project ID:	6493	End Date:	Q4/2021
Location:	10382 Boundary Rd, Metaline, WA 99153		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project replaces existing step-up transformers at Boundary Dam, which are 50 years old and have exceeded their reliable service life. This project also includes a spare transformer as normal delivery time for transformers from order to on-site is 18 to 24 months. This project enhances long term reliability and allows for City Light to avoid a prolonged loss of generation capacity.

Boundary U55 Exciter replacement

BCL/Program Name: A1 Power Supply - Boundary **BCL/Program Code:** SCL250-A1
Project Type: Rehabilitation or Restoration **Start Date:** Q1/2015
Project ID: 6602 **End Date:** Q4/2018
Location:
Neighborhood Plan: Not in Neighborhood Plan **Council District:**
Neighborhood District: **Urban Village:**

This project installs a new electrical exciter for the Boundary Powerhouse Unit 55 Generator. A recent rewind has increased the generating capacity of the unit, and an upgraded exciter is required to reliably realize the increased capacity.

Broadband - City Light

BCL/Program Name:	C3 Distribution - Radial	BCL/Program Code:	SCL360-C3
Project Type:	New Facility	Start Date:	Q1/2014
Project ID:	8465	End Date:	Q4/2021
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
Neighborhood District:		Urban Village:	

This project provides support for expansion of broadband service to the entire City. This will involve the installation of approximately 200-250 miles of fiber optic cable, impacting about 8,000 - 10,000 utility poles. Types of construction City Light will perform include pole replacements, relocations of existing wires, equipment installation, commissioning, and inspections. This work is 100% customer driven and reimbursable.

Building Envelope Upgrades

BCL/Program Name:	E3 Central Utility Projects - Fleets and Facilities	BCL/Program Code:	SCL250-E3
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2004
Project ID:	9072	End Date:	Q4/2021
Location:	500 Newhalem Creek Rd, Marblemount, WA 98267		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project replaces or restores exterior moisture and thermal barrier components of buildings such as roofing and insulation systems, exterior siding and cladding systems, windows and exterior doors. This project allows for the proactive replacement of building exteriors in order to avert costly structural damage and prevent the growth of toxic mold inside wall cavities and ceiling spaces that can easily render a building uninhabitable. The project also enhances operational efficiency by mitigating emergency repairs which disrupt utility operations.

Seattle City Light

Cedar Falls Powerhouse - Penstock Stabilization

BCL/Program Name:	A3 Power Supply - Cedar Falls - Tolt	BCL/Program Code:	SCL250-A3
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2007
Project ID:	6358	End Date:	Q4/2019
Location:	19901 Cedar Falls Rd SE, North Bend, WA 98045		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project installs a seismic upgrade of penstock bridges, repairs sagging or broken penstock support saddles, and refurbishes the exterior surfaces to extend the life of two 78-inch diameter steel penstocks. It also reduces risks of damage from earthquakes and restores the exterior coating on the pipes in the areas where the penstocks are buried. Any penstock failure will likely damage the environment and Seattle's water supply, and could jeopardize the City's ability to fulfill its obligation to regulate fish flows in the Cedar River.

Seattle City Light

Cedar Falls Powerhouse - Unit 5/6 Generator Protective Relay

BCL/Program Name:	A3 Power Supply - Cedar Falls - Tolt	BCL/Program Code:	SCL250-A3
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2007
Project ID:	6450	End Date:	Q4/2016
Location:	19901 Cedar Falls Rd SE, North Bend, WA 98045		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project upgrades the present generator protection for Units 5 and 6, which lacks some basic protection elements to protect it from abnormal frequency and voltages. This project replaces existing protective relays, upgrades the generator protection packages, and replaces the electrical and mechanical lockout relays. The project permits City Light to comply with the North American Electric Reliability Council (NERC) and the Western Electricity Coordinating Council (WECC) regional requirements for maintaining the generator in-service during system disturbances.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Cedar Falls/South Fork Tolt - Minor Improvements Program

BCL/Program Name:	A3 Power Supply - Cedar Falls - Tolt	BCL/Program Code:	SCL250-A3
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2005
Project ID:	6406	End Date:	Q4/2020
Location:	19901 Cedar Falls Rd SE, North Bend, WA 98045		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project provides financial coverage for emergent capital projects related to the Cedar Falls and South Fork Tolt Facilities. In addition, it funds scheduled, small capital projects that have cost estimates less than \$25,000. These projects are, by definition, unforeseeable, unscheduled, unpredictable, and occur on a first-come, first serve basis. This project shows increased project allocations in years 2015 to 2018. This increase reflects anticipated baseline CIP spending levels for the Cedar Falls and South Fork Tolt Facility that are in line with Strategic Plan assumptions. These future year allocations will be broken out into specific CIP projects for the next year's CIP.

Seattle City Light

Customer Information System

BCL/Program Name:	E1 Central Utility Projects - Customer and Billing	BCL/Program Code:	SCL370-E1
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2013
Project ID:	9937	End Date:	Q4/2017
Location:	700 5th Avenue		
Neighborhood Plan:	Commercial Core	Council District:	3
Neighborhood District:	Downtown	Urban Village:	Commercial Core

This project replaces the existing Consolidated Customer Service System (CCSS) application with a more current and viable technology solution. The CCSS provides Customer Information System (CIS) processing and support for Seattle City Light, Seattle Public Utilities, the City's Utility Call Center, and other customer service staff. The existing system does not support the current business model and direction of the City of Seattle's utilities, and is no longer supported by the vendor. The project will preserve and enhance the City's ability to continue to deliver this critical function into the future.

Seattle City Light

Dallas Ave. 26 kV Crossing

BCL/Program Name:	C3 Distribution - Radial	BCL/Program Code:	SCL360-C3
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2005
Project ID:	8322	End Date:	Q4/2021
Location:	Dallas Ave S/14th Ave S	Council District:	2
Neighborhood Plan:	Duwamish	Urban Village:	South Park
Neighborhood District:	Greater Duwamish		

This project reinstalls two 26kV feeders across the Duwamish River. This crossing backs up the Cambridge Corridor Crossing, providing redundant power supply to the area along East Marginal Way South. The area has many large industrial accounts, including Jorgenson Steel, Kenworth Trucking, and a number of Boeing plants.

2015 - 2020 Adopted Capital Improvement Program

Diablo Facility - Incline Lift Rehabilitation

BCL/Program Name:	A2 Power Supply - Skagit	BCL/Program Code:	SCL250-A2
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2020
Project ID:	6457	End Date:	Q4/2022
Location:	Milepost 126 State Highway 20		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project restores a backup access route to the Ross Powerhouse and Ross Dam. The Diablo Incline Lift, which had provided backup access, has become unusable due to deterioration of its components. Without the backup access, there is only one road to get to the Ross Project. If the road becomes impassable, all means of access are cut off, which prevents emergency transportation or delivery of spare parts.

Neighborhood District:	Not in a Neighborhood District		

This project rebuilds Generator 32 at Diablo Powerhouse, which provides 4.4 percent of the total power Seattle City Light generates. This project is part of the Utility's Generator Rebuild Program, a series of projects to maintain and extend the useful life of the Utility's aging generators. The program rebuilds ten generators, accounting for 70 percent of City Light's generating capability.

Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project installs fiber cable and equipment to all City Light dams, substations and service centers to create a secure, reliable, fast and redundant digital communications system for operations command and control. The fiber infrastructure provides a secure path for power distribution system control and dispatch, Energy Management System data, and other City Light communications. This project also supports Substation Automation, Distribution Automation, Distributed Generation, and automated meter reading projects.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Distribution Automation

BCL/Program Name:	C3 Distribution - Radial	BCL/Program Code:	SCL360-C3
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2013
Project ID:	8425	End Date:	Q4/2021
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project automates radial distribution feeders, which includes installation of equipment to provide remote control of operations of switches on power lines and gather real time data on conditions in distribution power lines. The installation of strategically placed switches will provide the ability to automatically perform outage restoration, shift blocks of load to maximize efficiencies of feeders, and reconfigure the feeder grid. Typical operation will involve remotely detecting that a feeder fault has occurred, locating the damaged portion of the feeder between two remote controlled line switches, isolating the damaged portion of the feeder by opening appropriate remote controlled line switches, and re-energizing undamaged portions of the feeder via the primary feeder source and one or more backup sources using automatically controlled tie switches.

Distribution Management System

BCL/Program Name: C5 Distribution - Distribution Other **BCL/Program Code:** SCL360-C5
Project Type: New Facility **Start Date:** Q1/2019
Project ID: 9966 **End Date:** Q4/2025
Location:
Neighborhood Plan: Not in Neighborhood Plan **Council District:**
Neighborhood District: **Urban Village:**

City Light is planning to install a Distribution Management System (DMS) beginning in 2019. This comprehensive software application enables Power Dispatchers to operate automated distribution devices more effectively by interfacing with the Utility's Energy Management System (EMS), Outage Management System (OMS), Customer Information System, and the Geospatial Information System. The DMS will improve planning, coordination, and operations by enabling dispatchers to improve their switching operations for planned shutdowns. It will also make it easier to prepare planned outages and reduce the area needed for an outage.

This ongoing project protects and restores fisheries habitat in the Skagit and Tolt river basins. It implements the Endangered Species Act (ESA) Program for recovery of listed fish species that are potentially affected by City Light projects. The project includes land purchase, restoration, assessment, and management. The project reduces the likelihood of third party lawsuits under ESA and the reopening of claims by Federal agencies, e.g. the U.S. Fish and Wildlife Service, seeking additional measures to protect and restore the listed species.

In 2008, City Light made the decision to move towards an Enterprise Solution Portfolio, utilizing software from Oracle Corporation. Since then City Light has implemented an Outage Management System, a Work and Asset Management System, and is currently implementing Oracle's Customer Care and Billing System, Meter Data Management System, and a Customer Self-Service Portal. This project proposes funding for the ongoing commitment to upgrade or replace components of the Enterprise Solution Portfolio for the Utility as prescribed by the preferred vendor, Oracle, or other vendor deemed more appropriate, which will maintain enterprise resources that benefit all customers in the City Light service area.

This ongoing project upgrades and replaces the structural, electrical or mechanical systems, or other base building systems critical to building operations, and site development items. Work under this project may include plumbing replacements, HVAC related systems, power distribution systems, tanks, elevators, fire suppression systems, drainage systems, exterior and interior lighting, landscaping, irrigation, paving, stairs, and sidewalks. This project is intended for emergent work not yet identified and is not intended as a duplicate for other infrastructure improvements included in specific projects.

This project provides an online system that manages workflows and tracks compliance with North American Electric Reliability Corporation (NERC) standards and requirements. This project installs a dynamic customized Compliance Tracking Tool and Standardization Process across critical business units. This system will allow the Utility to prove compliance for all applicable federal standards, at any given day and time (24/7/365). City Light is subject to a federal audit on reliability standards every three years.

Generation Federal Reliability Standards Improvements

BCL/Program Name:	A4 Power Supply - Power Supply Other	BCL/Program Code:	SCL250-A4
Project Type:	New Facility	Start Date:	Q1/2007
Project ID:	6470	End Date:	Q4/2020
Location:	500 Newhalem Creek Rd, Marblemount, WA 98267		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project provides compliance with emergent power production (Generation) regional reliability standards mandated by the North American Electric Reliability Corporation (NERC) and its regional compliance partner, the Western Electricity Coordinating Council (WECC). Typical improvements may include, but are not limited to, power system stabilizers, generator and control system testing equipment, cyber security equipment, and system disturbance monitoring equipment. The project mitigates the probability of financial penalties of up to \$1 million per day per violation for failure to comply. Publication of new and revised standards requires an on-going project level effort to put improvements into service which keep generation equipment and operations in full compliance.

This ongoing project funds replacement and improvement of the Utility's information technology infrastructure. This infrastructure provides applications, data storage, and print services to the utility, and supports activities and applications including Microsoft Outlook, remote connectivity, electronic communications and recording of power marketing transactions (E-tagging), the City InWeb and network, common and City Light applications, UNIX services, and infrastructure change management. Components purchased by this project include servers, network and communications equipment, disk storage, and application and operating system software. Infrastructure is upgraded or replaced based upon a combination of factors, such as maintenance schedules, equipment warranties, availability of vendor support, Gartner recommendations, application growth, and security demands.

Interbay Substation - Development

BCL/Program Name:	C1 Distribution - Substations	BCL/Program Code:	SCL360-C1
Project Type:	New Facility	Start Date:	Q1/2019
Project ID:	7756	End Date:	Q4/2021
Location:	17th Ave West/West Bertona St	Council District:	7
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Ballard Interbay
Neighborhood District:	Magnolia/Queen Anne		

This project plans, designs, and constructs a 26 kV substation in the Interbay area. Two-100 MVA transformers will be installed into a facility large enough to accommodate a third transformer at the site if required in the future. The project adds to the distribution network and provides a new path for power to the area. It provides assurance to the developers who are interested in projects in the South Lake Union district that City Light will be able to serve their needs reliably.

2015 - 2020 Adopted Capital Improvement Program

Inventory System Redevelopment

BCL/Program Name: E2 Central Utility Projects - Finance and IT Systems **BCL/Program Code:** SCL550-E2
Project Type: Rehabilitation or Restoration **Start Date:** Q1/2013
Project ID: 9959 **End Date:** Q4/2015
Location:
Neighborhood Plan: Not in Neighborhood Plan **Council District:**
Neighborhood District: **Urban Village:**

This project evaluates, selects and implements a modern Supply Chain Management System software package that manages inventory, logs receipts, issues materials, carries unit cost for valuation, tracks quantities and availability, and forecasts usage of supplies. It replaces existing software, installed in 2002, that has never been updated and is currently unsupported by the vendor. The project also upgrades the existing aging server and operating system which use incompatible JAVA applications and are no longer supported. This project reduces the likelihood of server failure and provides a reliable, modern and compatible interface to other City software, including WAMS, OMS, and Summit.

IT Security Upgrades

BCL/Program Name:	E2 Central Utility Projects - Finance and IT Systems	BCL/Program Code:	SCL550-E2
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2013
Project ID:	9960	End Date:	Q4/2021
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

The ongoing project updates or replaces information security systems that are at high risk of failure. The project enhances vulnerability and intrusion detection as well as response capabilities and procedures. The project provides (by way of illustration but not limitation) for implementation of systems to replace or upgrade firewalls, routers, switches, operating systems, intrusion detection capabilities, security information and event management, Linux patching procedures, Dynamic Host Configuration Protocol server, Domain Name System server, internal vulnerability scanning, and physical security cameras and networks for SCL locations.

This ongoing project provides large size electric power service connections from Seattle City Light's distribution system to the customer's meter for power requirements of greater than 3 MVA and 26 kV radial services. Most of this related work is billable to the customer. The project allows Seattle City Light to provide service to new customers in a safe, reliable, timely and cost effective manner as a means to fulfill its commitment to be a customer and community-focused organization.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Laurelhurst - Underground Rebuild

BCL/Program Name:	C3 Distribution - Radial	BCL/Program Code:	SCL360-C3
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2007
Project ID:	8373	End Date:	Q4/2016
Location:	45th Street/38th Street	Council District:	4
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	Northeast		

This project completes the final three phases of a nine phase rebuilding of the underground distribution system in Laurelhurst. It replaces increasingly failure-prone aging 4 kV equipment and direct buried cables with a buried conduit system. The project improves service reliability, customer satisfaction, economic operating efficiencies, and safety, and, since PCB transformers are replaced, reduces environmental damage exposure.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Looped Radial Distribution System GIS Editor Replacement

BCL/Program Name:	C5 Distribution - Distribution Other	BCL/Program Code:	SCL360-C5
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2012
Project ID:	9958	End Date:	Q4/2015
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
Neighborhood District:		Urban Village:	

This project replaces the obsolete Distribution Automated Mapping System hardware and software with modern, configurable, vendor supported Consumer Off-The-Shelf (COTS) software and a server to host the software. The replacement is needed to assure ongoing day to day operation of the radial distribution mapping system at City Light. The project provides stability, availability, and reliability, lacking in the current software and hardware. The new system takes advantage of metadata driven configurability to meet changing business needs and streamlines the maintenance of enterprise level GIS data that supports engineering, operations, system control, system planning, outage management, and asset management.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Massachusetts Street Substation - Networks

BCL/Program Name:	C2 Distribution - Network	BCL/Program Code:	SCL360-C2
Project Type:	New Facility	Start Date:	Q1/1999
Project ID:	8202	End Date:	Q4/2025
Location:	1555 Utah AV S	Council District:	2
Neighborhood Plan:	Duwamish	Urban Village:	Duwamish
Neighborhood District:	Greater Duwamish		

The ongoing project increases Massachusetts Street Substation network capacity. It funds a programmatic approach for comprehensive management of underground network assets serving customers in Pioneer Square and the area bounded by University Street, Third Avenue, Terrace Street, and the Freeway. The project funds completion of engineering design and analysis work required before construction of any civil facilities into which feeders can be relocated from the Alaskan Way Viaduct. This project defers the need date for a new network substation until no further capacity is available from Union Street and the other network substations. It provides sufficient and reliable electrical capacity for the growing power needs of City Light customers.

Project Type:	New Facility	Start Date:	Q1/2007
Project ID:	8383	End Date:	Q4/2020
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project provides City Light resources to serve potential Voluntary Undergrounding Program (VUP) customers through the VUP process from initial estimate, financial planning, design, construction, and reimbursement of costs from the customers. The purpose of the Voluntary Underground Program (VUP) is to satisfy residential customers who are interested in converting their overhead distribution system to an underground system. This VUP is proscribed by Seattle Municipal Code, Section 21.49.110.T.

Seattle City Light

Network Hazeltine Upgrade

BCL/Program Name:	C2 Distribution - Network	BCL/Program Code:	SCL360-C2
Project Type:	New Facility	Start Date:	Q1/1999
Project ID:	8129	End Date:	Q4/2021
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project upgrades City Light's remote vault monitoring capability for the Hazeltine system. The project provides remote monitoring of network transformers, protectors, vaults, and supports daily utility operations. The project enhances the network monitoring capability by allowing an alarm to be sent to the System Control Center within 30 seconds of an abnormal electrical component or environmental condition occurrence.

North Service Center Interim Work

BCL/Program Name:	E3 Central Utility Projects - Fleets and Facilities	BCL/Program Code:	SCL250-E3
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2010
Project ID:	9220	End Date:	Q4/2015
Location:	1300 N 97th St		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	5
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Aurora-Licton

This project creates a master plan for the development of City Light's North Service Center (NSC) properties, buildings and workspaces. The plan includes acquiring property, abutting the Service Center that is being offered for sale by the University of Washington and will provide improvements to make this property usable for City Light operations. Additional properties will be acquired, if available, between Stone Way and Aurora Ave to allow further development of the NSC, to the west. The plan also looks at potential vacation of streets and alleys to combine the space into a campus setting that can be better secured for SCL security and safety purposes. The plan could also include the addition of parking, warehouse space, engineering and shop space, a customer service center, and improved access and egress for the NSC.

NWPP Market Coordination

BCL/Program Name: A4 Power Supply - Power Supply Other **BCL/Program Code:** SCL250-A4
Project Type: New Investment **Start Date:** Q1/2015
Project ID: 9971 **End Date:** Q4/2017
Location:
Neighborhood Plan: Not in Neighborhood Plan **Council District:**
Neighborhood District: **Urban Village:**

This project will purchase and install hardware and software, additional real-time telemetry, and software updates so City Light can participate in a Security Constrained Economic Dispatch (SCED) model being developed by the Northwest Power Pool (NWPP). City Light is a member of NWPP, which is planning to develop the SCED to dispatch supply resources regionally, which will lower production costs compared to each utility acting independently. The project may include taking an equity stake in the entity created by NWPP to develop and operate the SCED.

Seattle City Light

Overhead 26kV Conversion

BCL/Program Name:	C3 Distribution - Radial	BCL/Program Code:	SCL360-C3
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2007
Project ID:	8358	End Date:	Q4/2025
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project replaces the 4 kV electrical equipment remaining in the electrical distribution system with new, efficient and reliable 26 kV distribution equipment. This project increases capacity to deliver power to City Light customers, rebuilds and maintains the backbone of City Light's system, saves energy by reducing transformer and line losses, improves quality and reliability of service to customers, and releases unit substation properties for better neighborhood uses.

This ongoing project moves electrical lines to accommodate or take advantage of transportation-related projects, street vacations, or other projects being constructed by non-City Light agencies. This project addresses modifications to the distribution system, including replacement or modifications of old line segments, poles, and underground facilities, as necessary. Some project costs are paid by City Light and some are paid by the requesting agencies, depending on the circumstances.

Overhead Customer Driven Capacity Additions

BCL/Program Name:	C3 Distribution - Radial	BCL/Program Code:	SCL360-C3
Project Type:	New Facility	Start Date:	Q1/2007
Project ID:	8355	End Date:	Q4/2025
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old line segments, relocates lines for construction clearances and replaces rotten and damaged poles in the distribution system. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are affected before the new load from those projects comes online. City Light is reimbursed by the customers for this work.

Ross Dam - AC/DC Distribution System Upgrade

BCL/Program Name:	A2 Power Supply - Skagit	BCL/Program Code:	SCL250-A2
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2005
Project ID:	6373	End Date:	Q4/2025
Location:	Milepost 128 State Highway 20	Council District:	Outside Seattle
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	Not in a Neighborhood District		

This project upgrades aging AC electrical distribution system at Ross Dam with a new electrical distribution system. It installs conduit, ducting, distribution panels and wire. It improves the 4 kV system, improves lighting, and provides improvements on top of the dam including a center substation room, emergency generator, valve houses, and a 130-volt battery bank. New conduit and conductors improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting allow staff greater operational flexibility, safety, and efficiency.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Ross Powerhouse - Programmable Language Controller Upgrade

BCL/Program Name:	A2 Power Supply - Skagit	BCL/Program Code:	SCL250-A2
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2008
Project ID:	6376	End Date:	Q4/2017
Location:	Milepost 128 State Highway 20	Council District:	Outside Seattle
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	Not in a Neighborhood District		

This project replaces the five Ross Dam Powerhouse Programmable Logic Controllers (PLC). There is one PLC for each of the four generator units, and a fifth PLC monitoring other critical powerhouse equipment. The project improves City Light's ability to make programming enhancements commensurate with operational and regulatory needs, assures comprehensive and correct documentation, and delivers a 24VDC system that eliminates the need of LOTO (Lock-Out/Tag-Out) safety procedures. It provides redundancy, which yields the ability to perform remote start-stop and other control functions of the generators.

Security Improvements

BCL/Program Name:	C5 Distribution - Distribution Other	BCL/Program Code:	SCL360-C5
Project Type:	New Facility	Start Date:	Q1/2005
Project ID:	9202	End Date:	Q4/2025
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing program plans, designs and implements projects, improving the physical security of City Light critical facilities, in order to mitigate unauthorized access and criminal activities that could cause significant system damage, power outages, and other related disruptions to the electrical system. The project reduces the risk of sabotage, vandalism, theft, and terrorism that can result in the loss of valuable infrastructure for generation and distribution of power. The project also reduces risk of noncompliance with North American Reliability Council (NERC) 1200 Standards, adopted May 2, 2006, to improve security at critical facilities that house command and control systems. It enhances reliability of the power system in the Pacific Northwest, reduces the risk of lost revenues, and reduces the jeopardy to public safety and emergency response due to loss of lifeline services such as medical services, water and wastewater systems, communications, law enforcement, banking, transportation system, etc.

Seattle City Light

Shoreline Undergrounding: North City and Aurora Avenue North

BCL/Program Name:	D1 External Projects - Local Jurisdictions	BCL/Program Code:	SCL370-D1
Project Type:	New Facility	Start Date:	Q1/2005
Project ID:	8320	End Date:	Q4/2016
Location:	2136 N 163rd St, Shoreline		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project funds the continuation of Phases Two and Three to convert overhead distribution circuits to underground service along Aurora Avenue in the City of Shoreline. The project enhances reliability and public relations by delivering undergrounding service to Shoreline with a coordinated and mutually agreed-upon scope, schedule, and cost and rate structure. It permits SCL to be in compliance with the new commercial area zoning for the project area as outlined in the Shoreline Municipal Code 13.20.050 (A) (1), requiring that overhead utilities in the project area be converted to underground systems. Per the City's franchise agreement with Shoreline, on the completion of project work at the fiscal year-end, costs for all the completed underground systems entered into service for that year are amortized & added to the rates for ratepayers in the City of Shoreline, which will show up as a separate bill item for those ratepayers. As of January 2012, under our current construction MOA's with Shoreline, Shoreline's civil contractors build the SCL ducts & vaults, after which Shoreline is reimbursed by SCL via a pass-thru cost arrangement. Per the franchise agreement, these pass-thru costs are also part of the added Shoreline rates.

Neighborhood District:		Urban Village:	

This project provides funding for structural improvements to existing facilities at Skagit, both residential and commercial. It replaces lights, windows, and HVAC systems, insulates buildings, and performs related work. The project dramatically reduces the amount of energy expended to keep structures warm or cool depending upon the season.

This ongoing project provides financial coverage for emergent capital projects related to all Skagit Facilities, which are by definition, unforeseeable, unscheduled, unpredictable, and occur on a first-come, first serve basis. In addition, it funds scheduled, small capital projects that have cost estimates less than \$25,000. This project shows increased project allocations in years 2015 to 2018. This increase reflects anticipated baseline CIP spending levels for the Skagit Facility that are in line with Strategic Plan assumptions. These future year allocations will be broken out into specific CIP projects in the next year's CIP.

This project enhances generating reliability by adding protective relays to generating systems at the Ross, Diablo, and Gorge plants, whose generator protective relays do not meet present IEEE Standards. The project funds the addition of microprocessor relays to the existing system, certain auxiliary protective equipment, and modifies the design of the existing protection system to upgrade functionality. This will limit the potential for damage when surges and faults occur in transmission lines due to lightning strikes, load rejections, and other unexpected events.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

South Service Center Spokane Exit Modification

BCL/Program Name:	E3 Central Utility Projects - Fleets and Facilities	BCL/Program Code:	SCL250-E3
Project Type:	New Facility	Start Date:	Q1/2008
Project ID:	9215	End Date:	Q4/2015
Location:	3613 4th Ave S		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	2
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project funds the architectural and engineering planning required to realign the South Service Center's main yard and service vehicle gate to access SDOT's new 4th Avenue S. intersection. Internal yard planning will also provide ancillary contract improvements to add warehouse shelving, yard subdivision fencing, and new garbage and recycling docks.

Streetlight Infrastructure Replacement

BCL/Program Name:	D1 External Projects - Local Jurisdictions	BCL/Program Code:	SCL370-D1
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2013
Project ID:	8460	End Date:	Q4/2021
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
Neighborhood District:		Urban Village:	

This ongoing project will replace 1,603, or 33 percent, of the highest priority streetlights and related underground infrastructure identified in the Streetlight Horizon Plan over the six-year planning horizon. Streetlight infrastructure that will be replaced includes poles, fixtures, conduits, hand holes, and wiring. Emphasis will be placed on standardization of fixtures, construction materials, and construction methods. This project will provide the engineering resources needed to prioritize replacements, develop estimates, and manage and track construction.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Streetlight LED Conversion Program

BCL/Program Name:	D1 External Projects - Local Jurisdictions	BCL/Program Code:	SCL370-D1
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2010
Project ID:	8441	End Date:	Q4/2021
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project upgrades streetlights with LED fixtures, which will reduce annual energy consumption by 40% (for those lights replaced), provide Greenhouse Gas avoidance of 5,446 metric tons of carbon per year, and reduce maintenance cost of the Utility's streetlight system. With a total system conversion, it is estimated that annual operating costs will be reduced \$3.7 Million per year. The savings in energy and maintenance costs will pay for the initial investment within the life of the new system.

Seattle City Light

Substation Automation

BCL/Program Name:	C1 Distribution - Substations	BCL/Program Code:	SCL360-C1
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2011
Project ID:	8424	End Date:	Q4/2025
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project replaces and upgrades substation automation systems, including Remote Terminal Units (RTU) and annunciators, in each of City Light's fourteen substations, and upgrades equipment at two substations annually. The project reduces the likelihood and length of system outages due to failure as the current equipment is wearing out and cannot be replaced in kind because the equipment is no longer manufactured. The project also enhances energy efficiency, and reduces the probability of fines from appropriate governing bodies if loss of a substation, due to equipment failure, causes instability of the western interconnection grid and/or loss of load.

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Substation Breaker Replacements and Reliability Additions

BCL/Program Name:	C1 Distribution - Substations	BCL/Program Code:	SCL360-C1
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2006
Project ID:	7779	End Date:	Q4/2025
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project funds the review of City Light's inventory of approximately 400 transmission and distribution voltage circuit breakers. It determines which have the greatest wear, gas or oil leaks, maintenance cost, service stress, and fault interrupting history. It replaces those circuit breakers with the highest failure risk. This project also replaces transformer bank breakers at Union Street substation to support load growth.

Seattle City Light

Substation Plant Improvements

BCL/Program Name:	C1 Distribution - Substations	BCL/Program Code:	SCL360-C1
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2001
Project ID:	7750	End Date:	Q4/2025
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project upgrades and retrofits substation buildings, their facilities and systems, and related structures. The project includes environmental improvements, and removal and replacement of outdated utilities and structures. The project provides station security, safe working conditions, and improvements in related services, such as water, sewer, and lighting.

2015 - 2020 Adopted Capital Improvement Program

Substation Transformer Replacements

BCL/Program Name:	C1 Distribution - Substations	BCL/Program Code:	SCL360-C1
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2007
Project ID:	7776	End Date:	Q4/2025
Location:	2136 N 163rd St, Shoreline		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project funds the review of power transformers at substations and determines dissolved gas concentration, insulation aging, oil leaks, maintenance cost, service stress, and fault interrupting history. The project replaces transformers with the highest failure risk, or those presenting substation capacity limits. The project enhances system reliability by replacing aging substation transformers before they fail in service. This project now includes the former projects 7778, Canal Substation - Transformer Replacements, 7810, Massachusetts Street Substation - Transformer Replacements, 7811, East Pine Substation - Transformer Replacements, and 7812, Bothell Substation - Transformer Replacements. They have been merged into this project, 7776, formerly North Substation - Transformer Replacements, to create a program to cover all substation transformers.

2015 - 2020 Adopted Capital Improvement Program

Technical Training Center Development

BCL/Program Name: E3 Central Utility Projects - Fleets and Facilities **BCL/Program Code:** SCL250-E3
Project Type: New Facility **Start Date:** Q1/2013
Project ID: 9230 **End Date:** Q4/2016
Location:
Neighborhood Plan: Not in Neighborhood Plan **Council District:**
Neighborhood District: **Urban Village:**

Seattle City Light is seeking to develop a dedicated, state-of-art Technical Training Center that provides educational needs for classroom instruction and field experience training opportunities for entry-level as well as seasoned Utility service workers of SCL. The chosen site for the Technical Training Center is on an undeveloped parcel of land, west of the Duwamish River and north of the Duwamish Substation, located at 10,000 West Marginal Place South, Tukwila, WA 98108 in unincorporated King County. The classroom building, a single story, wood-framed structure, houses a number of instructional classrooms, hands-on learning environments and building support areas. The overall building's square footage is 9,000 SF and the overall training yard area is 5.75 acres. The design program focuses on flexible, hands-on instructional environments in both the Classroom Building and the Yard. These spaces include: three flexible Classrooms, Computer Lab, Bug Room, Substation Training Area, Vault Training Area, Overhead & Underground Distribution Area, Commercial & Residential Service Area, Pole Climbing Area, Crane Training Area, Commercial License Certification Area and Civil Construction Training Area. There are several shared building support spaces required which include: Administration Office, Break Room, Kitchen, Copy Room and Restrooms.

Seattle City Light

Transformer and Network Load Management Tools Upgrade

BCL/Program Name:	C5 Distribution - Distribution Other	BCL/Program Code:	SCL360-C5
Project Type:	New Facility	Start Date:	Q1/2011
Project ID:	9952	End Date:	Q4/2025
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project replaces and upgrades the Transformer and Network Load Management systems and Load Flow software. This project provides modern software capable of performing more robust and accurate system analysis which allows more effective management of distribution system assets for a lower overall cost. The project reduces the possibility of costly unplanned outages due to the inability to perform effective design, reduces the possible duration of those outages, and provides the load data required to perform necessary system analysis and planning. The Outage Management System requires this customer to system connectivity information to efficiently locate and manage outages. The project ensures that City Light can meet the expectations of fully utilizing our system capacity.

Location:	System Wide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	Not in a Neighborhood District		

This ongoing project replaces the 4 kV electrical equipment remaining in the electrical distribution system with new, efficient and reliable 26 kV distribution equipment. This project increases capacity to deliver power to City Light customers, rebuilds and maintains the backbone of the system, saves energy by reducing transformer and line losses, improves quality and reliability of service to customers, and releases unit substation properties for better neighborhood uses.

Underground Customer Driven Capacity Additions

BCL/Program Name:	C3 Distribution - Radial	BCL/Program Code:	SCL360-C3
Project Type:	New Facility	Start Date:	Q1/2007
Project ID:	8360	End Date:	Q4/2025
Location:	System Wide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old underground line segments, and may replace rotten and damaged poles in the distribution system that have underground facilities beneath them. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are impacted before the new load from those projects comes online. City Light is reimbursed by the customers for this work.

2015 - 2020 Adopted Capital Improvement Program

Seattle Public Utilities

Drainage and Wastewater

SPU – Drainage and Wastewater

Overview

Seattle Public Utilities (SPU) is responsible for maintaining the network of sewer and drainage systems throughout the City of Seattle. These systems include approximately:

- 448 miles of sanitary sewers
- 968 miles of combined sewers
- 68 Pump Stations
- 5.5 miles of wastewater force mains
- 87 City-owned and permitted Combined Sewer Overflow points
- 38 Combined Sewer Overflow control detention tanks/pipes
- 477 miles of storm drains / 295 storm drain outfalls
- 36,500 catch basins
- 65 miles of ditches, 121 miles of culverts
- 19,500 feet of green stormwater infrastructure
- 12 detention/treatment ponds
- 145 flow control facilities
- 189 water quality structures

The Drainage and Wastewater (DWF) CIP is the vehicle for rehabilitating, replacing, improving and expanding this infrastructure, as well as constructing projects that protect, conserve, and enhance the region's environmental resources. Planned spending in the DWF CIP is approximately \$663 million over the next six years.

Historically, the DWF CIP has been funded primarily by revenue bonds serviced by ratepayers. However, DWF financial policies adopted in 2003 gradually increase cash contributions from the Utility to fund the CIP. By 2007, 25% of total CIP costs were funded by a cash contribution, with the remaining capital needs being debt financed.

Summary of Upcoming Budget Issues and Challenges

The biggest challenge for the Drainage and Wastewater Fund will be continuing to manage large priority projects while still accomplishing Mayoral priorities and complying with Environmental Protection Agency (EPA), Department of Ecology (DOE), and the National Pollutant Discharge Elimination System (NPDES) permits within the financial limitations of the fund.

The City of Seattle negotiated a consent decree last year between the City, the EPA, and the United States Department of Justice (DOJ) for compliance with the Clean Water Act and state regulations. The Consent Decree was entered in court on July 3, 2013, and includes deadlines for development and implementation of the Long Term Control Plan and will drive spending in the Combined Sewer Overflows (CSO) Reduction Program over the next several years. The Consent Decree also includes requirements to implement a Capacity Management, Operations & Maintenance (CMOM) Program, which drives both operations and maintenance (O&M) spending and CIP spending in the Rehabilitation Program. Additionally, an NPDES permit for stormwater was renewed by the State government in 2013. This permit includes prescriptive requirements to help protect local waterways and Puget Sound from damaging pollutants and excessive runoff. This increasing regulatory emphasis on protecting and improving water quality has resulted in the need for the City to make substantial investments in detention, water quality treatment (e.g., green stormwater infrastructure or GSI), CSO retrofits, pipe and pump station rehabilitation, and inflow/infiltration (I/I) reduction:

2015-2020 Adopted Capital Improvement Program

SPU – Drainage and Wastewater

- Detention is the storage of stormwater and/or sewage during a rainfall event and can be accomplished through detention ponds (stormwater) or underground tanks (wastewater and stormwater). Detention can be added to the drainage system to offset the impacts of larger storms that overwhelm the conveyance capacity of the combined sewer system and can result in backups of sewage, localized flooding and releases of untreated sewage.
- Water quality treatment is the removal of pollutants and can be accomplished through GSI or the use of technology such as specialized media filters. GSI is the use of green solutions to help reduce overflows by allowing stormwater to infiltrate slowly into the ground and cutting the volume of stormwater entering the system. GSI includes specific treatments that rely on specialized soils and plants that provide flow control and/or water quality benefits. The use of GSI is required through Seattle's NPDES permit and Stormwater Code.
- CSO retrofits are focused on optimizing the existing collection systems, using low-cost repairs and modifications to reduce overflows to waterways.
- Pipe and pump station rehabilitation consists of repairing, rehabilitating, or replacing existing gravity sewer pipes, wastewater pump stations, and/or force mains that have deficiencies or have reached the end of their useful life.
- Inflow/Infiltration (I/I) reduction focuses on filling in cracks in sewer lines through which groundwater can enter the system. It also addresses parts of the system where there are direct stormwater connections to the sanitary sewer system which can/should be directed to a separated stormwater system. By reducing I/I, it is possible to reduce the frequency and volume of sanitary sewer overflows (SSOs) and sewer backups.

CIP funding is also needed to improve the existing drainage system so residents experience less flooding and fewer sewage backups. Sewer backups are prohibited and considered by our regulators to be a violation of our state permits and federal consent decree. Through prudent investment in capital projects and maintenance, SPU will be closer to meeting this standard. In addition, this performance level benefits ratepayers by avoiding costly fines and damages.

The Combined Sewer Overflow (CSO) Reduction Program constitutes one of the major investments and challenges for the Drainage and Wastewater Fund in upcoming years. During heavy rains, the combination of stormwater (about 90 percent of the volume) and sewage may exceed the capacity of the combined sewer system and overflow into our waterways – causing a combined sewer overflow. CSOs spill a mixture of raw sewage and stormwater into local waterways at 90 outfalls throughout the City of Seattle. These spills violate water quality standards, create unacceptable risk to public health, and contaminate sediment and habitat for endangered species and pollute Puget Sound. CSO spills are illegal and unacceptable under any standard of environmental care.

Annual overflows have been reduced from 20-30 billion gallons per year by both the City and the County in 1970 to about 1 billion gallons per year, today. The City's overflows account for 100-200 million gallons per year. SPU currently does not meet regulatory mandates which limit overflows to one untreated overflow per outfall location per year. SPU is required by state and federal law to achieve control of CSOs by 2025 through a Long Term Control Plan, which will be

SPU – Drainage and Wastewater

submitted for Regulatory approval by May 2015. SPU must also achieve significant NPDES Wastewater Permit milestones for the control of CSOs to Lake Washington by December 30, 2015.

Most recently, the DOJ on behalf of the EPA and Washington State DOE finalized a Consent Decree describing measures the DOJ will require of SPU to remedy violations of the Clean Water Act. The Consent Decree includes, among other significant requirements, completion of a Long Term Control Plan (LTCP) by 2015 and completion of construction of all CSOs by December 2025. CSOs must be proven to be controlled, one year after completion of construction. Continuing investments in CSO control will enable SPU to meet current permit requirements including preparation of a Long Term Control Plan, accomplish required milestones to control CSOs into Lake Washington and achieve compliance with the 2025 goal.

While cost estimating is dependent on many factors, SPU's current expectation is to spend approximately \$204 million over the next six years (2015-2020) on CSO reduction projects. The projects will include a combination of underground storage tanks, GSI, system retrofits, gravity sewer pipe rehabilitation projects, and the development of a long-range plan for CSO projects to be constructed from 2016-2025. One of the biggest challenges of the program is siting wastewater facilities in a dense urban environment. SPU is addressing that challenge through an early and active community/stakeholder involvement process on each of its projects. Another challenge revolves around SPU's relationship with King County and maintaining an active partnership to operate the wastewater system and plan for potential joint CSO reduction projects.

Another challenge for the DWF is ensuring basic service level programs, such as flooding and system capacity, are not stripped of funding as our regulatory requirements continue to grow. The separated drainage and wastewater system is at capacity during storm events at various locations across the City. The impacts can range from very serious (basement sewer back-ups) to nuisance (limited street or yard flooding) issues. SPU is moving forward to address the highest priority locations with capital improvements using available funding and staff resources. These highest priority projects include the South Park Pump Station project, the Thornton Confluence Improvement project, and Broadview Sewer and Stormwater Improvements project.

- The South Park Pump Station project will construct a pump station and water quality facility in South Park. The pump station will allow the existing storm drain trunk to meet the level of service adopted in the 2004 Comprehensive Drainage Plan. In turn, this allows for future projects to expand the collection system to address flooding complaints. The water quality facility will treat most stormwater flows from the basin, reducing pollutant loading to the Duwamish River. The project's engineering design is complicated by the tidal flows present in the Duwamish. The South Park Pump Station will be integral to the Integrated Plans South Park Water Quality Facility and will be a regulatory requirement if the Integrated Plan (IP) is approved.
- The Thornton Confluence Improvement project will replace the road culvert at 35th Ave NE and restore the floodplain area at the confluence of the north and south forks of Thornton Creek. This will reduce local flooding impacts to roads and private property as well as enhance instream and riparian habitat in a critical segment of the creek.
- The Broadview neighborhood has experienced a long history of capacity-related backups and overflows. The Broadview Sewer and Stormwater Improvements project will test non-

SPU – Drainage and Wastewater

traditional solutions to these longstanding issues, with a goal of reducing sewer backups and stormwater flooding in the Broadview basin.

When making investments in capital facilities that will last decades, it makes financial sense to understand and consider incorporating the potential impacts of climate change on local precipitation and sea levels in Puget Sound. There have been major storms in 2006, 2007, 2010, 2012, and 2014 that have resulted in serious drainage and wastewater impacts related to capacity. Scientists indicate that there is a potential that storms will become more intense and more frequent in the near future. This variability requires the utility to have a much more in-depth understanding of how the system functions under different weather conditions. The utility will need to forecast impacts to the stormwater and combined systems on a much more localized level. This type of work will require more fully developed system models than in the past.

Finally, the DWF CIP must address projects that have a shared cost with the other two lines of business. A large issue in this area is the Seawall Replacement project. This project has the potential to have a significant impact to the DWF. Due to shifts in scope and design, the cost for the DWF has grown significantly and may lead to projects across the DWF CIP being reprioritized in order for SPU to meet the growing cost requirements.

Thematic Priorities

The overriding goal of the DWF CIP is to construct facilities that reduce the frequency of flooding and sewer backups for customers and improve water quality and habitat in the environment by reducing sewage overflows and the impacts of stormwater pollution. Projects in the CIP are also guided by various federal regulations, City policies, long-term plan documents, and the SPU Asset Management Committee (AMC) benefit criteria. Many Drainage and Wastewater CIP projects are outlined in the Wastewater System Plan, Combined Sewer Overflow Reduction Plan, and the Comprehensive Drainage Plan. The Drainage and Wastewater Fund primarily considers three main criteria when prioritizing work: public health and safety, environmental protection/regulatory requirements, and Mayor/Council priorities. Project timing can be influenced by opportunities or requirements to combine construction activity with other projects.

Public Health and Safety: The overriding priority for the Drainage and Wastewater Fund is maintaining public health and safety. This will be accomplished through capital programs and projects including the 14th and Concord Combined Sewer System (CSS) Improvement project, the Localized Flood Control Program, the Broadview Sanitary Sewer Overflow (SSO) reduction program and the South Park Pump Station project. The primary Capital program is the sewer and drainage rehabilitation program. This program is focused on identifying and correcting defective or deteriorating infrastructure, including drainage and wastewater pipes, before failure which could result in sewer backups, roadway collapses or landslides.

Environmental Protection/Regulatory Requirements: The City of Seattle/SPU must meet state and federal regulatory requirements in order to comply with the Clean Water Act (CWA) and the Consent Decree that was entered in court on July 3, 2013, between the City, the EPA and DOJ. The two most significant regulatory drivers associated with the CWA are the NPDES Waste Discharge Permit (aka NPDES CSO Permit) and the NPDES Phase I Municipal Stormwater Permit (aka NPDES MS4 Permit).

SPU – Drainage and Wastewater

- As required by the NPDES CSO Permit, Seattle developed a 2010 CSO Reduction Plan Amendment to describe the effort to reduce CSOs to the state standard of one overflow per outfall per year. As part of meeting these requirements, SPU will be constructing CSO reduction facilities at Windermere, South Genesee, and Henderson. DWF is committed to completing this program by 2018.
- As part of the NPDES MS4 Permit, Seattle is required to have a Structural Stormwater Control Program to address stormwater impacts that are not adequately controlled through other required permit actions. As part of meeting this requirement, SPU is constructing stormwater quality and flow control facilities including South Park Pump Station, the Capitol Hill Water Quality Facility, and Broadview sewer system improvements.

City Priorities: Projects in the 6-year CIP that address City priorities include the Venema Natural Drainage System (NDS) and Capitol Hill Water Quality Facility where green stormwater infrastructure will be used to reduce stormwater impacts while contributing to meeting sustainability goals.

- The Venema NDS project will construct natural drainage elements including large bioretention swales and permeable pavement in alleys. A swale is a specially designed area where stormwater can infiltrate into or through the ground or vegetation, depending on whether it is designed primarily for water quality treatment or flow control. The result will be improved stormwater flow control and water quality treatment in the Venema basin which will improve hydrology and water quality in Venema Creek, a tributary of Piper's Creek.
- The Capitol Hill Water Quality project will result in an innovative regional scale stormwater facility. The facility will include vegetated bioswales which will provide stormwater treatment for a portion of the largest sub-basin draining to South Lake Union while providing a vibrant pedestrian-friendly streetscape. This project will be constructed in partnership with the private development of adjacent properties, and includes new sidewalks and road surfaces.

Project Selection

SPU identifies candidate capital projects from several sources – planning (e.g. comprehensive plans, program plans), external projects and opportunities, and emergencies or other unexpected events. Under SPU's Asset Management system, projects must be justified through a business case process that establishes that a problem or opportunity is timely and important, and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental and social) of life cycle costs and benefits. The process also recognizes that a project may be a "must do" project (e.g. required by regulation).

SPU prioritizes its capital projects into categories from least to most important. Some projects are identified as part of an externally driven project. Typically, SPU lacks control over the timing of such projects. Priority rankings are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which the project is driven by Federal, State, and Local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of

SPU – Drainage and Wastewater

highly ranked projects in this category include the Windermere, South Genesee Henderson and the Long Term Control Plan.

- **External Drivers:** SPU's responsiveness to, or engagement with, the projects of other Departments or jurisdictions, and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include the Alaskan Way Viaduct and Mercer Corridor projects.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include the Point Sewer Pipe Rehabilitation and Emergency Rehabilitation programs.
- **Level of Service:** The importance of this project in providing or improving services to customers. Examples of highly ranked projects in this category include the South Park Pump Station, Localized Flood Control program, Sanitary Sewer Overflow Capacity program, Point Sewer Pipe Rehabilitation, and Emergency Rehabilitation programs.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits not otherwise captured, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, and outside funding. An example of a highly ranked project in this category is the Capital Hill Water Quality Project.

Every project is rated against each criterion; criteria ratings are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each Line of Business (LOB), with review by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU Director and Asset Management Committee. Project priority rankings are used to clarify and document which projects are most important (and why), to help determine which projects at the margin will be included or excluded (or deferred) from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

Aligning Infrastructure with Planned Growth

SPU is working to take better advantage of opportunities to incorporate improvements and repairs to our drainage and wastewater systems with major redevelopment and projects undertaken by others (e.g., private developers, other city departments, regional and state agencies). Currently, SPU is partnering with South Lake Union developers to build a regional GSI-based stormwater treatment facility to treat Capitol Hill stormwater runoff while also increasing green space in the public right of way. For the future, SPU will be ramping up long-range planning efforts to improve understanding of the existing conditions of our drainage and wastewater system, predicted growth areas, and possible impacts to the drainage and wastewater system. This better understanding will lead to more forward thinking decisions on where we need to better plan to for growth and allow us to better leverage both our investments and those made by others.

Future Projects/What is on the Horizon

The DWF CIP will increase programs to meet requirements and commitments outlined in the 2010 CSO Reduction Plan. The 2015-2020 Proposed CIP includes significant investments for the Henderson CSO reduction project.

2015-2020 Adopted Capital Improvement Plan

SPU – Drainage and Wastewater

The six-year CIP also includes funding for the Long Term Control Plan, which will identify all remaining CSO projects throughout the City to achieve the Washington State requirement to reduce CSOs down to an average one untreated CSO per year per outfall. Funding to address those remaining CSO projects will need to be included in future CIP budget submittals. In addition, SPU has been authorized by the EPA to prepare an Integrated Plan, which will propose projects to reduce stormwater pollution into the environment. Integrated Plan projects will need to be funded and constructed between 2016-2025. The Integrated Plan itself is funded under SPU's pre-capital planning operations and maintenance budget. Finally, water quality requirements for stormwater will likely result in increases in capital investment requirements on both new projects and potential retrofits of the existing system.

The programmatic analysis and prioritization currently being done in the Flooding, Sewer Back-up, and Landslides business area will result in a comprehensive list of small to large CIP projects to be constructed over the next 15 to 20 years. Projects will be similar to current projects such as 14th and Concord CSS improvements, Broadview sewer system improvements and the South Park Pump Station.

Additional stormwater and CSO facilities, both structural and green, will require growing levels of operations and maintenance support for inspection and maintenance.

CIP Revenue Sources

SPU's Drainage and Wastewater CIP is funded largely by Drainage and Sewer ratepayers. SPU issues bonds, serviced by ratepayers that cover approximately 75% of the CIP, with the remainder funded by cash. DWF rates were approved by the Executive and City Council in 2012 for the three-year period of 2013-2015.

SPU also actively seeks grants and low interest loans. Loans like this offer a lower interest rate than what SPU can borrow/issue debt and offset the need to draw down extra dollars from the construction fund. SPU also receives Remedial Action Grants from Ecology for up to 50% of sediments cleanup project costs.

CIP Spending by Major Category

(000s of Dollars)

Drainage and Wastewater Fund	2015	2016	2017	2018	2019	2020	Total
PROTECTION OF BENEFICIAL USES	5,182	5,821	7,067	9,841	6,243	6,345	40,499
SEDIMENTS	4,797	2,420	3,778	21,315	19,264	17,140	68,714
COMBINED SEWER OVERFLOWS	60,067	48,337	24,890	23,197	16,400	31,334	204,225

SPU – Drainage and Wastewater

REHABILITATION	10,629	16,338	21,020	22,520	22,520	24,520	117,547
FLOODING, SEWER BACKUP & LANDSLIDES	16,970	23,960	26,372	18,899	15,961	15,472	117,634
SHARED COST PROJECTS	13,783	12,242	22,645	9,925	8,821	6,382	73,798
TECHNOLOGY	10,498	7,956	6,149	6,443	4,778	5,081	40,905
Total	121,926	117,074	111,921	112,140	93,987	106,274	663,322

Protection of Beneficial Uses: This program makes improvements to the City’s drainage system to reduce the harmful effects of stormwater runoff on creeks and receiving water bodies by improving water quality and protecting or enhancing creek habitat. The program includes projects to meet regulatory requirements. Funding in 2015 and 2016 will be focused on cost effective stormwater and water quality projects such as the Venema Creek Natural Drainage System (NDS) and the Capitol Hill Water Quality project.

Increases in the **Protection of Beneficial Uses BCL** in 2015 is the result of water quality stormwater projects identified as a part of the Integrated Plan and also the expansion of the Street Sweeping project to increase the sweeping frequency, extend the sweeping season, and add a new route. Commitments in the Integrated Plan are requirements of the Consent Decree. The decrease in 2016 is primarily the result of the Taylor Creek Culvert Replacement project construction being pushed out from 2016 to 2017 to accommodate a more involved and lengthier community engagement process.

Sediments: The City of Seattle is a Potentially Responsible Party (PRP) for cleanup liabilities for contaminated sediments at the Lower Duwamish Waterway Superfund Site, the Harbor Island Superfund Site, and Gas Works Park because of alleged contributions from CSO and storm drain discharges. The City continues to work with EPA, the Washington State Department of Ecology, King County, and other PRPs on an assessment of contaminants and sources. The Sediments program provides funding for preliminary studies and analysis for cleanup of contaminated sediment sites in which the City is a participant, for actual cleanup of contaminated sites, for preliminary engineering for future cleanup efforts, and for liability allocation negotiations. Funding is used to develop studies and analyses required by regulatory agencies for determining the boundaries and cleanup requirements for specific action sites. The study phase of sediment remediation projects often requires multiple years before specific cleanup actions are defined. As regulatory agency cleanup requirements become clear, additional individual cleanup projects will be included in subsequent CIP proposals.

Increases in the **Sediments BCL** reflect the latest schedule and estimates based on negotiations and agreements between parties for proposed actions needed. The Sediments program funds preliminary studies and analysis for cleanup of contaminated sediment sites, for actual cleanup of contaminated sites, for preliminary engineering for future cleanup efforts, and for liability allocation negotiations. The City will pay for only the costs associated with its portion

SPU – Drainage and Wastewater

of responsibility. Costs increase slightly in 2015 and 2016 due to negotiations and agreements with regulatory agencies and other PRPs.

Combined Sewer Overflows: This program consists of projects that are mandated by state and federal regulations to control CSOs into the City's receiving waters. Projects include large infrastructure projects (e.g., storage structures, pipes, tunnels, wet weather treatment plants, stormwater separation, pump stations, etc.), smaller retrofits, construction of green infrastructure (GSI) for CSO control, and development of regulatory required plans such as the Long-Term Control Plan (LTCP). Key projects in the 2015 Budget include the Henderson CSO projects, CSO facility retrofits at Delridge and Leschi, and GSI projects in Delridge and Ballard. In 2014, SPU began work on two of the projects in the LTCP, the largest of which is to construct storage (either tunnel storage or local tank storage facilities) in the Ballard and Fremont/Wallingford neighborhoods. Planning work is underway and will continue through the coming years to review potential siting areas and perform initial geo technical investigations. This work is starting early in order to meet CSO Consent Decree compliance date requirements.

Increases in the **Combined Sewer Overflows BCL** reflect revisions to the cash flow and schedules for the Henderson North CSO Reduction project which has been accelerated to begin construction in Q1 2015. In addition, the CSO Facility Retrofit project has increased costs to reduce the frequency and volume of CSOs in the Leschi Basin and Henderson Basin. The decrease of \$902,000 in 2016 is driven primarily by cost reductions in Future CSO Projects that resulted from delaying CSO investments in accordance with the Integrated Plan and implementing stormwater projects in the Protection of Beneficial Uses BCL. The reductions in 2016 were documented in the Strategic Business Plan process.

Rehabilitation: This program consists of projects that rehabilitate or replace existing drainage and wastewater assets in-kind to maintain or improve the current functionality level of the system. Projects include pump station structures, major mechanical and electrical components, and force mains; drainage and wastewater control structures and appurtenances; and pipes and culverts. Individual projects are defined by the type and method of rehabilitation and/or replacement and include emergency rehabilitation, maintenance and no-dig pipe rehabilitation, point sewer pipe and structure rehabilitation by crews, and point sewer pipe and structure rehabilitation by contract.

Changes in the **Rehabilitation BCL** are driven by the Strategic Business Plan process which decreased baseline funding in Point Sewer Pipe Rehab in 2015 while increasing No Dig Pipe Maintenance Rehab in 2016. This will allow SPU to evaluate and fund additional rehabilitation work on gravity sewer pipes and significantly reduce the risk of exceeding the Consent Decree target of four sanitary sewer overflows per 100 miles of sewer pipe. Efforts in these areas will focus on sites with the highest risk as well as those prioritized to fulfill regulatory NPDES permit commitments that will restore original pipe capacity and address issues with discharge points of selected outfalls where these characteristics have been diminished, as well as increasing capacity to pump stations to meet Consent Decree requirements.

Flooding, Sewer Back-up, and Landslides: This program is responsible for preventing and alleviating flooding and sewer backups in the City of Seattle, with a primary focus on the protection of public health, safety, and property. The program area is focused on planning, design, and construction of channels, pipes, roadside ditches, culverts, detention ponds, and natural drainage systems that control and/or convey storm runoff to receiving bodies. This program also involves protecting SPU drainage and wastewater infrastructure from landslides and providing drainage improvements where surface water generated from the city right-of way

2015-2020 Adopted Capital Improvement Plan

SPU – Drainage and Wastewater

is contributing to landslides. Finally, this program includes the Broadview Long Term Plan, which aims to reduce sewer backups and stormwater flooding in the Broadview basin.

Increases in the **Flooding, Sewer Back-up, and Landslides BCL** are driven primarily by the Localized Flood Control Program which had projects delayed in 2013 and 2014 due to lack of resources. In addition, funding has been added to the Broadview Long Term Plan to reduce stormwater flooding and sewer backups, and new stormwater conveyance projects in South Park project have been funded according to the Strategic Business Plan.

Shared Cost Projects: This program includes individual capital improvement projects which typically benefit multiple lines of business (e.g., the Water line of business and the Drainage and Wastewater line of business) where costs are "shared," or paid for, by more than one of SPU's utility funds. In 2015, the Shared Cost program includes funding for a number of interdepartmental projects including the Alaskan Way Viaduct and Seawall Replacement, Mercer Corridor, and Sound Transit Link Light Rail. Funding is also included for SPU's Heavy Equipment Purchases, the Integrated Control Monitoring Program and a number of smaller projects.

Changes in the **Shared Cost Projects BCL** are driven primarily by Heavy Equipment Purchases-DWW in order to purchase vector trucks for sewer cleaning and two new CCTV trucks for sewer inspection work. This need was approved in the Strategic Business Plan to support the future sewer rehabilitation work in the out years. Although there is a slight decrease in 2016, there is significant reduction in the Alaskan Way Viaduct project due to the delays caused by the tunnel drill. However, changes in costs associated with the Seawall Replacement Project may have significant impacts to the DWF in the next several years. Costs for Operational Facility-Construction have increased, as noted in the Strategic Business Plan, to address shortages of adequate space and future operational functions for SPU.

Technology:

The Technology capital portfolio is managed in six program areas, which provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing
- Enterprise Information Management
- IT Infrastructure
- Project Delivery & Performance
- Science & System Performance
- Asset Information Management

Investments in 2015 and 2016 address SPU's key initiatives, which focus on:

- Improving Internal Controls,
- Improving Productivity and Performance
- Improving Customer Service
- Transitioning from Data Rich to Knowledge Rich
- Improving Project Delivery

SPU will focus technology spending on the highest priority business needs. Increased spending in 2015 reflects major business changes in Project Delivery & Performance driving the

2015-2020 Adopted Capital Improvement Plan

SPU – Drainage and Wastewater

need for several new technology systems as well as improved integration of the various systems in place. The decrease in 2016 is mainly due to the completion of the Utility Customer Billing System/CCSS project

City Council Provisos to the CIP

There are no Council provisos.

1% for Art – DWF

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	Improved Facility	Start Date:	Q1/2001
Project ID:	C4118-DWF	End Date:	ONGOING
Location:	N/A		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing program provides the Drainage & Wastewater funding for Seattle Public Utilities' 1% for Arts contribution. Eligibility is determined at the individual project level, with payment occurring from this program. Funds contributed to the 1% for Art program allow the commission, purchase, and installation of art in City-owned properties that is accessible to the public. The Municipal Arts Plan, which is prepared annually, describes the status of ongoing art projects and establishes the scope of work and allocations for new art projects.

Alaskan Way Viaduct & Seawall Replacement Program - DWF

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	New Facility	Start Date:	Q1/2004
Project ID:	C4102-DWF	End Date:	Q4/2019
Location:	SR 99 / Battery St		
Neighborhood Plan:	In more than one Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This program relocates, replaces, and protects drainage and wastewater infrastructure affected by the replacement of the Alaskan Way Viaduct and Seawall. This program encompasses many sub-projects which are collectively known as the "Alaskan Way Viaduct and Seawall Replacement Program" (AWVSR Program.) The Washington State Department of Transportation (WSDOT) is the lead for the SR-99 replacement, while the City of Seattle is the lead on development of the waterfront public space, implementation of the new surface Alaskan Way, and design and construction of the seawall.

Best Management Practice Program

BCL/Program Name:	Protection of Beneficial Uses	BCL/Program Code:	C333B
Project Type:	New Facility	Start Date:	Q2/2000
Project ID:	C3313	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing program provides high priority water quality improvement projects in the Norfolk, South Park, and Densmore drainage basins. Incorporating Best Management Practices (BMP), projects are identified, developed, and implemented. The results will be improved quality of stormwater runoff from City-owned storm drains, discharged to nearby receiving water bodies such as streams and lakes.

Bridging the Gap - DWF

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	Improved Facility	Start Date:	Q1/2008
Project ID:	C4119-DWF	End Date:	ONGOING
Location:	Various		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This multi-year, multi-project program funds assessments, repairs, and improvements to SPU's drainage and wastewater utility infrastructure at sites chosen by the Seattle Department of Transportation (SDOT) for bridge improvements and pedestrian and bicycle safety improvements within its "Bridging the Gap" program. SPU assesses the condition of its utility infrastructure at SDOT's project sites and conducts repairs and improvements as needed.

2015 - 2020 Adopted Capital Improvement Program

SPU-Drainage & Wastewater

Broadview Long Term Plan

BCL/Program Name:	Flooding, Sewer Back-up, and Landslides	BCL/Program Code:	C380B
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	C3812	End Date:	ONGOING
Location:	Broadview		
Neighborhood Plan:	Broadview-Bitter Lake-Haller Lake	Council District:	5
Neighborhood District:	Northwest	Urban Village:	Not in an Urban Village

Portions of the Broadview neighborhood suffer from significant capacity limitations of the sanitary sewer resulting in numerous sewer backups into residences during wet weather events upon which the City has paid numerous claims dating to at least 1996. It is thought that this results from a combination of infiltration and inflow into the sanitary sewer system during wet weather. Program will develop and implement a plan with the goal of restoring sanitary sewer system capacity.

Location:	Yale Ave N/Pontius Ave N/Thomas Street		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Lake Union	Urban Village:	South Lake Union

This project provides construction of four blocks of biofiltration swales in the South Lake Union neighborhood. As part of a regional storm water treatment facility, this project will be constructed in partnership with an adjacent land developer and includes new sidewalks and road surfaces. The project treats runoff from a portion of approximately 435 acres of Capitol Hill.

SPU-Drainage & Wastewater

Combined Sewer Overflow Facility Retrofit

BCL/Program Name:	Combined Sewer Overflows	BCL/Program Code:	C360B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2002
Project ID:	C3611	End Date:	ONGOING
Location:	Various	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	In more than one District		

This ongoing program retrofits, upgrades, and modifies existing Combined Sewer Overflows (CSO) reduction facilities in Seattle CSO basins. Retrofit projects cost-effectively optimize system operation and storage, mitigate the extent of CSOs, and postpone and/or downsize large CSO reduction projects. This project assists in achieving State Department of Ecology's requirement of an average of no more than one wet-weather overflow event per outfall per year.

Culvert Replacement Program

BCL/Program Name:	Flooding, Sewer Back-up, and Landslides	BCL/Program Code:	C380B
Project Type:	Rehabilitation or Restoration	Start Date:	Q2/2008
Project ID:	C3810	End Date:	ONGOING
Location:	Various		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program provides for the repair and replacement of stream culverts that are part of SPU's critical drainage infrastructure. Culverts will be repaired or replaced based on risks and benefits of the project, including flooding and public infrastructure risk and benefits. Replacements will be addressed as part of this capital program, while small repairs and retrofits will be covered within the Operations and Maintenance budget. Funding transfers to from the budget placeholder to culvert replacement projects once they are approved through the AMC process.

Emergency Rehabilitation

BCL/Program Name:	Rehabilitation	BCL/Program Code:	C370B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/1998
Project ID:	C3705	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project provides emergency sewer response to collapsed mainlines, surface street subsidence or voids resulting from leaking pipes, and storm-related incidents in Seattle, as well as emergency rehabilitation to drainage pipes that collapse, cause surface problems, or otherwise endanger public health or welfare. Typical improvements may include, but are not limited to, rehabilitation or replacement of structurally damaged pipes that caused the emergency and restoring surrounding areas. Rehabilitation or replacement quickly corrects the situation, avoids repeat incident, and extends the life of the asset.

2015 - 2020 Adopted Capital Improvement Program

SPU-Drainage & Wastewater

Emergency Storms - DWF

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	Rehabilitation or Restoration	Start Date:	Q3/2007
Project ID:	C4120-DWF	End Date:	ONGOING
Location:	Various		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing program funds Drainage & Wastewater infrastructure capital improvement projects resulting from previous and possible future storm events. These projects are potentially Federal Emergency Management Agency (FEMA) reimbursable and need to be separated out for tracking and reimbursement purposes. Typical improvements include, but are not limited to, repairing and mitigating landslides, restoring detention ponds, and replacing culverts and detention walls. All projects resulting from previous storms events have been completed. This program will now serve as a placeholder for any future storm events.

Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project plans and relocates drainage and wastewater facilities that will be impacted by the SDOT-led First Hill Streetcar project, which will connect major employment centers on First Hill to the regional light rail system stations on Capitol Hill and in the International District. Currently this project is in the planning phase and no specific capitalizable betterments have been identified for the 2014-2019 timeframe but if they are, necessary funding will be requested.

Project ID:	C3612	End Date:	Q4/2025
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
Neighborhood District:		Urban Village:	

This program is for future combined sewer overflow (CSO) reduction projects that will be identified through the CSO Long-Term Control Plan (LTCP). Future projects are most likely to include underground storage projects, wastewater lift station improvements, and/or wastewater conveyance system improvements. Planning for the projects will begin around 2015, and the projects should complete their construction by 2025.

2015 - 2020 Adopted Capital Improvement Program

SPU-Drainage & Wastewater

Green Stormwater Infrastructure Program

BCL/Program Name:	Combined Sewer Overflows	BCL/Program Code:	C360B
Project Type:	New Facility	Start Date:	Q1/2011
Project ID:	C3610	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) as a component of combined sewer overflow (CSO) reduction within the uncontrolled CSO basins. Work includes roadside raingardens, permeable pavement alleys, and the RainWise program. RainWise provides financial incentives to private property owners within our uncontrolled CSO basins for construction of properly sized and installed raingardens or cisterns. The program supports the City's current regulatory strategy for compliance with CSO National Pollutant Discharge Elimination System (NPDES) permit.

Location:	N/A		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing program provides SPU's Drainage and Wastewater Utility crews with new and replacement heavy equipment that is used throughout Seattle. Typical purchases include vactors, backhoes, loaders, service trucks, "TV" trucks and dump trucks, as well as retrofitting existing equipment to meet SPU operational needs and initiatives. This equipment transports work crews and tools to jobsites and supports the safe and efficient replacement, repair, and maintenance of Seattle's Drainage and Wastewater system. This program is one of three SPU fund-specific heavy equipment CIP programs.

Location:	Various		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing program funds improvements to the centralized monitoring and control of the drainage and wastewater portion of the overall Supervisory Control and Data Acquisition (SCADA) system infrastructure throughout Seattle. Infrastructure affected may include, but is not limited to, pipes related to potential combined sewer overflows, rain gauges, and wastewater pump stations. This program enhances and protects the quality and condition of lakes and streams, and addresses the Environmental Protection Agency's (EPA) National Pollutant Discharge Elimination System (NPDES) permit requirements.

SPU-Drainage & Wastewater

Knickerbocker Floodplain Improvements

BCL/Program Name:	Protection of Beneficial Uses	BCL/Program Code:	C333B
Project Type:	Rehabilitation or Restoration	Start Date:	Q3/2012
Project ID:	C3383	End Date:	Q4/2015
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
Neighborhood District:		Urban Village:	

This project provides design, permits and construction of a floodplain restoration project on the south branch of Thornton Creek to contribute to reduced system-wide stream-side flooding and improve instream and riparian habitat and water quality. Project elements include stream realignment, floodplain excavation, installation of a hyporheic zone (a subsurface volume of sediment and porous space adjacent to a stream through which stream water readily exchanges), replacement of a pedestrian bridge, and riparian plantings. This project is consistent with a number of long-term plans (including the DWW Urban Watershed Strategy, 2004 Mayor’s Aquatic Ecology Strategy, and 1999 Thornton Creek Watershed Action Plan) and follows the path mapped out by the Thornton Creek Confluence project which also increases floodplain area to provide stream water storage.

2015 - 2020 Adopted Capital Improvement Program

SPU-Drainage & Wastewater

Long Term Control Plan

BCL/Program Name:	Combined Sewer Overflows	BCL/Program Code:	C360B
Project Type:	New Facility	Start Date:	Q3/2008
Project ID:	C3604	End Date:	Q4/2025
Location:	N/A		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This program creates a Long Term Control Plan (LTCP) in accordance with SPU's Combined Sewer Overflow (CSO) National Pollutant Discharge Elimination System (NPDES) permit and the Federal CSO Control Policy. On May 1, 2012, the Environmental Protection Agency/Department of Justice issued a draft Consent Decree to the City of Seattle which requires the development and submission of a Long-Term Control Plan for approval by May 30, 2015. It further stipulates that all CSO Control Measures are to be constructed as expeditiously as practicable, and in no event later than December 31, 2025. The Consent Decree also allows the City to propose storm water control project(s) as part of an Integrated Plan, in addition to the CSO Control Measures. If approved, the storm water projects can be constructed first and the CSO Control Measures deferred beyond the December 2025 due date.

The LTCP will reduce the number and volume of its CSO overflows, meet receiving water quality standards, and protect designated beneficial uses. The LTCP includes, flow characterization, monitoring, and hydraulic modeling; development CSO control alternatives; development of control alternatives that takes into consideration costs and performance; operational plan revisions; public participation; implementation schedule; and post-construction monitoring. The Program also includes a Programmatic SEPA EIS (Note: includes the Alaskan Way Viaduct & Seawall Program C4102). The Plan and EIS will be submitted to EPA/ Washington State Department of Ecology for approval in 2015 and will include all City of Seattle CSO basins except existing CSO Projects at Windermere, Genesee, Henderson and Central Waterfront (except as noted).

Meadowbrook Pond Sediment Management

BCL/Program Name:	Flooding, Sewer Back-up, and Landslides	BCL/Program Code:	C380B
Project Type:	Improved Facility	Start Date:	Q1/2012
Project ID:	C3808	End Date:	Q4/2014
Location:	35th AVE NE/NE 105th ST/NE 110th ST		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	5
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

The project provides for dredging of sediment in Meadowbrook Pond and modifying existing structures to improve functionality of the facility. These tasks will improve the maintenance operations and the cost efficiency and management of Meadowbrook Pond by reducing flow volume, sediments, and contaminants; capturing sediments more efficiently to improve maintenance and worker safety; improving dredging methods; developing definitive maintenance triggers; modifying structures to manage debris, improving flood control; expanding bypass capacity; and increasing water quality in the pond and downstream.

Meter Replacement - DWF

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2004
Project ID:	C4101-DWF	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing program funds replacement of existing water meters when they fail or become obsolete. Meters measuring up to two inches are replaced when they stop running. Meters measuring three inches or more are repaired when possible, but are replaced when repair costs exceed replacement costs. Accurate water meters ensure that customers are billed fairly for the water they use. Since water meters also are used to bill customers for their wastewater discharges, 48 percent of the funding is allocated to the Drainage and Wastewater line of business.

This ongoing project provides trenchless technology to reline wastewater pipe in Seattle. Generally, prioritized critical sewer pipe that is intact though leaking, and very near the end of its useful life, is relined by a specialized vendor. Installation of the liner extends pipe segment life for more than fifty years.

Point Sewer Pipe Rehabilitation

BCL/Program Name:	Rehabilitation	BCL/Program Code:	C370B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2003
Project ID:	C3704	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	In more than one District		

This ongoing project provides complex point sewer rehabilitation of sewer mains that are greater than seventeen feet deep in the downtown corridor, landslide prone areas, or difficult access areas. Failed or nonfunctional sections of pipe are assessed and prioritized for rehabilitation through one or two public works contracts. This project also provides point sewer rehabilitation of sewer mains that are less than seventeen feet deep in non-arterial Seattle roadways. In these cases, failed or nonfunctional sections of pipe are assessed and prioritized for rehabilitation by Seattle Public Utilities field operation crews. Sewer trouble spots and voids are addressed while increasing the sewer main asset life and function.

2015 - 2020 Adopted Capital Improvement Program

SPU-Drainage & Wastewater

Sanitary Sewer Overflow Capacity

BCL/Program Name:	Flooding, Sewer Back-up, and Landslides	BCL/Program Code:	C380B
Project Type:	New Investment	Start Date:	Q2/2002
Project ID:	C3804	End Date:	ONGOING
Location:	Various		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

The Wastewater Capacity Improvement Program is designed to enhance sanitary sewer service to Seattle customers by addressing current and projected capacity limitations of the wastewater system through structural (CIP) improvements. Such improvements may include demand management measures such as infiltration and inflow (I/I) reduction, increased conveyance capacity, and individual customer measures such as installation of backflow preventers or grinder pumps to reduce the risk that customers will experience backups of sewage into their homes and businesses during storm events.

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	Improved Facility	Start Date:	Q1/2007
Project ID:	C4113-DWF	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	In more than one District		

This ongoing program provides physical integrated security system components throughout the City of Seattle. Typical improvements may include, but are not limited to, fences, gates, access control card readers, intercoms, lighting, door and hatch contacts, CCTV cameras, motion detection devices, and fiber and conduit. This program enhances protection of SPU's critical infrastructure and addresses vulnerabilities identified in U.S. Environmental Protection Agency (EPA) mandated vulnerability assessments.

Sediment Remediation - DWF

BCL/Program Name:	Sediments	BCL/Program Code:	C350B
Project Type:	Rehabilitation or Restoration	Start Date:	Q4/2000
Project ID:	C3503	End Date:	ONGOING
Location:	Various	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Not in an Urban Village
Neighborhood District:	In more than one District		

This ongoing program provides for City of Seattle participation in cleanup of contaminated sediment sites at multiple locations across the city for which the City's drainage and wastewater utilities may have some liability. Typical phases of such projects include preliminary studies and analyses, preliminary engineering for actual cleanup efforts, and liability allocation negotiations. This program enhances the natural environment of Seattle and addresses both state and federal regulatory agency requirements.

Sewer Full Line Replacements

BCL/Program Name:	Rehabilitation	BCL/Program Code:	C370B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2001
Project ID:	C3702	End Date:	ONGOING
Location:	Citywide	Council District:	Multiple
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing program provides for replacement of existing sewer lines citywide with pipes of the same diameter and capacity. Closed circuit television inspections identify defects in sewer mainlines, and each mainline defect is catalogued in an SPU database and assigned a priority that reflects the urgency of repair. Replacement is done by pipe-bursting methods that avoid extended pavement cutting.

2015 - 2020 Adopted Capital Improvement Program

SPU-Drainage & Wastewater

South Park Pump Station

BCL/Program Name:	Flooding, Sewer Back-up, and Landslides	BCL/Program Code:	C380B
Project Type:	New Facility	Start Date:	Q3/2008
Project ID:	C3806	End Date:	Q4/2019
Location:	698 S Riverside DR/Holden/Austin		
Neighborhood Plan:	South Park	Council District:	1
Neighborhood District:	Greater Duwamish	Urban Village:	Duwamish

This project constructs a pump station (PS) and water quality facility (WQF) in South Park. The PS allows the existing storm drain trunk to meet the 2004 Comprehensive Drainage Plan level of service and allows future projects expanding the collection system to address flooding complaints. The WQF will treat most stormwater flows from the basin, reducing pollutant loading to the Duwamish. Flows over 11 CFS will bypass the WQF and be pumped directly to the river.

Project ID:	C3363	End Date:	ONGOING
Location:	Various		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This program provides for a cost-effective, significant reduction in the potentially toxic pollutant load carried by stormwater runoff discharged by SPU's storm drain system to Puget Sound using new, high efficiency street sweeping technology. The Program is a partnership between Seattle Public Utilities, who sets the program direction, provides water quality expertise, and funding for the portion of routes that drain to the municipal separate storm sewer system (MS4), which discharges directly to our receiving waters and Seattle Department of Transportation, who provides operational expertise, street sweeping services, and funding for the portion of the routes that drain to the combined sewer system (CSS).

Thornton Confluence Improvement

BCL/Program Name:	Flooding, Sewer Back-up, and Landslides	BCL/Program Code:	C380B
Project Type:	Improved Facility	Start Date:	Q1/2008
Project ID:	C3811	End Date:	Q4/2015
Location:	Thornton Creek		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project provides creek realignment, floodplain excavation, culvert replacement, and riparian plantings at the confluence of the north and south branches of Thornton Creek. SPU has acquired a number of flood prone properties in this area over the last decade. Using these properties, this project increases culvert capacity, floodplain area and flood storage, and provides stream habitat benefits. The project will help alleviate flooding and reduce maintenance at Meadowbrook Pond.

Project ID:	C3333	End Date:	Q4/2017
Location:	1st and 2nd Ave NW/NW 120th St/NW 122nd St		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	5
Neighborhood District:	Northwest	Urban Village:	Not in an Urban Village

This project provides stormwater flow control and water quality treatment using a Natural Drainage System approach within the Venema Creek sub basin of Pipers Creek. Proposed design uses the concept developed for the Pinehurst Natural Drainage System project (parking on only one side of road, large bioretention swale on the other side of road). Alley improvements using permeable pavements are also being considered. The project focus is retrofitting stormwater runoff from the 105-acre residential and commercial land area in an effort to reduce the effect of stormwater flow on the aquatic biota within Venema Creek.

2015 - 2020 Adopted Capital Improvement Program

Seattle Public Utilities

Solid Waste

Overview

Seattle Public Utilities (SPU) collects and disposes of solid waste generated within the City of Seattle. To fulfill this responsibility the City owns and manages the following infrastructure:

- Two recycling and disposal stations (transfer stations)
- Two household hazardous waste facilities
- A fleet of trucks and heavy equipment
- Three closed landfills previously used by the City

The Solid Waste Fund (SWF) CIP is the planning tool for rehabilitating, replacing, improving and expanding infrastructure, as well as constructing projects that protect, conserve, and enhance our region's environmental resources. Planned spending in the SWF CIP is approximately \$105 million (excluding Technology) for 2015 through 2020.

The largest anticipated projects over this time period are:

- Rebuilding of the North Transfer Station (2013-2016)
- Constructing a recycling/re-use facility at the South Transfer Station (2015-2018)
- Completing the South Park Development Project (2015-2018)

These projects comprise roughly 70% of the CIP. Other significant projects include the possible replacement of or improvements to the South Household Hazardous Waste facility and the department's annual fleet and equipment investment.

SPU funds a majority of the SWF CIP through the sale of revenue bonds. By using debt financing through bond sales, SPU is able to distribute the cost of large, expensive system improvements over several years to better address equity between current and future ratepayers. SPU plans Solid Waste Bond issues in 2014, 2015 and 2017. Cash and repayment of debt come from rate-based charges to customers whose garbage, recycling, and organics are handled by the City's solid waste infrastructure and services. Solid Waste rates were last set in 2012 for the period of 2013-2016.

Summary of Upcoming Budget Issues and Challenges

Solid Waste faces logistical and financial issues as it reconstructs its primary facilities and addresses site cleanup efforts.

Logistics: Solid Waste must continue handling solid waste while it reconstructs the North Transfer Station. With the new South Transfer Station on line, Solid Waste is now focused on reconstruction of the North Transfer Station (NTS). To adequately manage waste, the old South Transfer Station will be kept in operation until the North Transfer Station is complete. This will require diversion of waste from the northern station to the old STS. In addition, it will require Solid Waste to maintain the aged STS through 2016.

Financial Challenges: Reconstruction of the North Transfer Station along with site remediation efforts puts considerable short-term financial strain on the Solid Waste Fund. At the same time that Solid Waste is funding and building these major projects, it is working to address environmental stewardship by encouraging waste reduction and recycling, which results in declining demand for services.

To address the funding needed for transfer station reconstructions and site remediation, SPU is planning bond sales in 2014, 2015, and 2017. The cost to repay or service these bonds will be paid through rate-based revenues, which also support the utility's operations, maintenance, administration, and contract costs. To assure that the SWF has adequate revenues to support debt service and core functions while demand declines, SPU anticipates using a combination of moderate rate increases and operational efficiencies.

Thematic Priorities

The SPU Solid Waste Fund places a high priority on managing environmental issues and addressing regulatory requirements related to current and historic Solid Waste facilities while protecting human health and safety.

- Managing environmental issues and regulations: SPU is required to improve former landfill sites and take action as necessary when conditions change. For example, underground gas levels at these sites are monitored. When high gas levels are detected, SPU implements improvements to extract the excess gas or otherwise mitigate the environmental impacts of the gas increase. Also, the new transfer stations will greatly reduce the environmental impacts of the existing stations on neighboring communities.
- Protecting human health and safety: The old South and existing North transfer stations are at the end of their useful lives. Safety standards at these older facilities will be greatly enhanced once the rebuilds are complete, resulting in greater safety for the public and SPU employees. Well-functioning and efficient transfer stations are part of a solid waste collection system that protects human health.

Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans, program plans), external projects and opportunities, and emergencies or other unexpected events. Under SPU's Asset Management System, projects must be justified through a business case process that establishes that a problem or opportunity is timely and important, and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life cycle costs and benefits. The process also recognizes that a project may be a "must do" project (e.g. required by regulations).

SPU prioritizes its capital projects into three categories – Priorities 1, 2 and 3, with 1 being the most important and critical. Some of these projects are part of an externally driven project. Typically, SPU lacks control over the timing of such projects.

Priority rankings are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which the project is driven by federal, state, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the South Park Development and Kent Highlands and Midway Landfills programs.

SPU – Solid Waste

- **External Drivers:** SPU's responsiveness to, or engagement with, the projects of other Departments or jurisdictions, and the specific mandates of the City Council and Mayor. Examples of projects in this category include the 1% for Arts program.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include the North and South Transfer Station Rebuild Phase 2 projects.
- **Level of Service:** The importance of this project in providing or improving services to customers. Examples of highly ranked projects in this category include the North and South Transfer Station Rebuild projects as well as the Household Hazardous Waste Relocation project.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits which were not otherwise recognized, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, outside funding.

Every project is rated against each criterion. Criteria ratings are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each Line of Business (LOB), with reviews by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs, and are approved by the SPU Director and Asset Management Committee. Project priority rankings are used to clarify and document which projects are most important and why, to help determine which projects at the margin will be included, excluded or deferred from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

Aligning Infrastructure with Planned Growth

The City's Comprehensive Plan incorporates the Solid Waste six-year CIP by reference to provide the infrastructure needed for the solid waste system. In addition, investments in solid waste infrastructure support the Comprehensive Plan's sustainability and zero waste goals.

The City's transfer stations are part of a comprehensive waste management system that aims to accommodate population growth while reducing the overall amount of solid waste sent to landfills. The transfer stations balance the capital cost of station construction with convenience and collection cost minimization. This is reflected in optimizing a north end transfer station and a south end transfer station as opposed to one large central station or multiple small neighborhood-based stations.

The South Park Development project will result in an approved cleanup of the historic landfill and put approximately 20 acres of unused property back into productive use and create economic opportunities adjacent to the South Park Urban Village.

Future Projects/What is on the Horizon

In the seven years prior to the initiation of the transfer station rebuild projects; the Solid Waste Fund CIP Budget averaged \$4.7 million annually. In the years when the transfer station rebuild projects are included, the SWF CIP Budget averages \$37 million annually. Once the stations

SPU – Solid Waste

are completed, the core Solid Waste Fund CIP is expected to return to the lower, historical levels.

Once the North Transfer Station is rebuilt, annual costs for repairs and upkeep are projected to decrease initially and then increase as equipment replacement/renewal projects are required on the new facilities.

CIP Revenue Source

The majority of Solid Waste CIP is funded through bonds and to a lesser extent current cash contributions, the mix of which is determined by the financial health of the Solid Waste Fund and the best value to ratepayers. Both of these funding sources are paid by Solid Waste ratepayers. SPU also actively seeks grants, low interest loans, and other funding sources whenever possible and prudent. The Solid Waste Utility is currently in the middle of a capital intensive historic landfill rehabilitation process and two transfer station replacement projects. These projects are the primary drivers of CIP spending and have required rate increases to finance them. The currently approved rate increase for 2015 is 4.3%.

CIP Spending by Major Category

(In '000s; total may not sum due to rounding)

Solid Waste Fund	2014	2015	2016	2017	2018	2019	Total
New Facilities	49,393	23,377	15,684	1,157	-	-	89,610
Rehabilitation & Heavy Equipment	30	430	30	30	415	15	950
Shared Cost Projects	2,193	3,147	2,301	2,212	2,288	1,879	14,021
Technology	6,781	4,663	2,443	2,352	1,482	2,346	20,067
Total	58,396	31,617	20,459	5,751	4,185	4,240	124,647

New Facilities: This program plans, designs, and constructs new facilities to enhance solid waste operations. In 2014, SPU will continue the implementation of its Solid Waste Facilities Master Plan, which features a two-station configuration. The key project drivers of the New Facilities budget category are the North Transfer Station Rebuild and South Park Development projects.

The changes in this BCL are due to programmatic reductions in the South Park Development project and the SRDS HHW Relocation project. The estimate for the South Park Development Project was reduced to reflect the results of the Remedial Investigation/Feasibility Study regarding reductions in the scope of the anticipated site cleanup. The SRDS HHW Relocation project was reduced because the project scope changed from a full facility relocation/rebuild to modifications required to keep the facility in its existing location.

Rehabilitation and Heavy Equipment: This program designs and constructs projects to repair and/or upgrade solid waste facilities. The key driver of this budget category is the Kent Highlands Landfill program. Landfill improvements include the replacement of existing flares, drainage improvements, groundwater protection and water treatment as required by State environmental policy.

Shared Cost Projects: This program includes individual capital improvement projects which typically benefit multiple Lines of Business (e.g. the Water line of business and the Drainage and Wastewater line of business) and whose costs are "shared," or paid for, by more than one of SPU's utility funds.

The proposed budget for this BCL will increase in 2015 and 2016. The key drivers in 2015 are the SWF SCADA project, Operational Facility Construction, and an increase in the 1% for Arts program that dedicates 1% of applicable project funding toward art in public facilities and spaces. The Operational Facility Construction is related to Action Plan OE-06 SPU Facilities Management in the Strategic Business Plan. It will be used to address shortages of adequate space for existing and future operational functions for SPU staff.

Technology: The Technology capital portfolio is managed in six program areas, which provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing
- Enterprise Information Management
- IT Infrastructure
- Project Delivery & Performance
- Science & System Performance
- Asset Information Management

Investments in 2015 and 2016 address SPU's key initiatives, which focus on:

- Improving Internal Controls,
- Improving Productivity and Performance
- Improving Customer Service
- Transitioning from Data Rich to Knowledge Rich
- Improving Project Delivery

SPU will focus technology spending on the highest priority business needs. Increased spending in 2015 reflects major business changes in Project Delivery & Performance driving the need for several new technology systems as well as improved integration of the various systems in place. The decrease in 2016 is mainly due to the completion of the Utility Customer Billing System/CCSS project.

City Council Provisos to the CIP

There are no Council Provisos.

This ongoing program provides the Solid Waste funding for Seattle Public Utilities' 1% for Arts contribution. Eligibility is determined at the individual project level, with payment occurring from this program. Funds contributed to the 1% for Art program allow the commission, purchase, and installation of art in City-owned properties that are accessible to the public. The Municipal Arts Plan, prepared annually, describes the status of ongoing art projects and establishes the scope of work and allocations for new art projects.

This ongoing program provides SPU's Solid Waste Utility crews with new and replacement heavy equipment that is used throughout Seattle and in parts of King County. Typical purchases include loaders, dozers, class 8 trucks, rail container chassis, yard waste and metal trailers, backhoes, and yard "goats" (a type of tractor.) These equipment purchases provide safe and efficient loading, transfer and short haul transportation of garbage, yard waste, metal, and other recyclables to the rail yard for "long haul" to the landfill and to contracted recycling processors. This project is one of four SPU fund-specific heavy equipment CIP projects.

The current telemetry used to monitor the environmental control systems at the Kent Highlands Landfill and the Midway Landfill, both Superfund sites, are nearly obsolete and the equipment is no longer supported. In addition, the current system only transmits alarm conditions and does not have any data acquisition functionality. This program funds a replacement system that will allow remote data acquisition as well as alarm functionality.

This program funds compliance activities related to the Midway landfill closure project. These activities include environmental and feasibility studies to demonstrate the effectiveness of the Midway landfill closure project as well as retrofits to the existing Midway flare facility. The studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The flare improvements are also a regulatory requirement. To ensure that SPU maintains regulatory compliance, a smaller flare or new technology will be required.

This project provides repairs to the existing City solid waste transfer stations. The existing City solid waste transfer stations were constructed in the mid-1960s and are nearing the end of their useful lives. This funding allows short term actions to ensure that these facilities operate reliably and safely, pending construction of the new North and South Transfer Stations. The work includes drainage modifications, emergency equipment rehabilitation, and temporary replacement/refurbishment of aging crew facilities.

This project provides for the replacement of the existing North Recycling and Disposal Station (NRDS) in Wallingford. The existing station was built in 1967 and is outdated and nearing the end of its useful life. The project includes the demolition of the existing transfer station and warehouse building on the adjacent property to the east. The new transfer station campus includes the tipping floor, recycling facility, educational center, new administrative building and employee facilities.

This ongoing facilities program renovates, rehabilitates, replaces existing buildings, and constructs new facilities at various locations within the city limits to address deficiencies, failures, and functional changes in the SPU Lines of Business. Typical improvements include, but are not limited to, roof replacements, exterior wall or cladding replacements, and improvements to administrative office space, crew and shop space, lighting, heating and ventilation systems, and facilities structures. These improvements increase the useful life of the facilities, preserve the value of the assets, and provide a safe working environment.

Location:	8100 2nd AVE S	Council District:	1
Neighborhood Plan:	Duwamish	Urban Village:	Duwamish
Neighborhood District:	Greater Duwamish		

This program provides for the replacement of the existing South Recycling and Disposal Station (SRDS) in South Park. The existing solid waste transfer station was built in 1966 and is outdated and nearing the end of its useful life. The design and construction of replacement facilities is a two phase project. The first phase includes the development of a new transfer station and associated facilities adjacent to the existing facility on a 9.1 acre parcel to the northwest of the existing station. The second phase includes demolition of the existing facilities and development of new recycling and reuse facilities, a household hazardous waste facility, and other utility facilities.

This ongoing program provides applications, upgrades and data management tools in support of SPU's work and asset management programs. Several new and updated technology solutions designed to enhance the efficiency and effectiveness of drinking water, sewer, drainage, and solid waste operations are planned. These include the development of an Asset Data Register in support of performance analytics, and dispatch and emergency response systems. Other related, but as yet undetermined projects will be undertaken to further enhance safety and improve responsiveness of SPU's utility operations.

This ongoing IT asset management program ensures the availability, reliability, and security of SPU's corporate computing infrastructure. The program acquires and maintains SPU-owned and managed servers, local networks, shared storage and backup systems, operating software, and communications infrastructure.

This ongoing program provides technology applications and application upgrades in support of improvements to project delivery and performance. Planned projects include continued development of an Enterprise Project Management System, replacement of the Engineering Support Contract Payments system, and SPU's share of costs for the City's central financial system upgrades. Future projects may include development of new Enterprise Resource Planning systems such as HR provisioning and financial reporting. This program will result in an improved ability to plan and deliver projects on schedule and within budget.

This ongoing program will provide new and improved technology applications and accompanying data management tools to support the gathering, monitoring, tracking and analysis of science and engineering information. Several planned projects include replacement of obsolete regulatory compliance tracking applications, upgrades to field monitoring equipment, and the integration of SCADA data with other data systems. This program enhances SPU's ability to control water quality and comply with environmental and health regulations.

2015 - 2020 Adopted Capital Improvement Program

Seattle Public Utilities

Water

Overview

SPU delivers an average of approximately 120 million gallons of drinking water per day to more than 1.3 million people and businesses in Seattle and 18 surrounding cities and water districts, plus the Cascade Water Alliance. The water system infrastructure includes:

- The Cedar and South Fork Tolt supply sources;
- Three groundwater wells;
- Two primary water treatment plants;
- 11 booster chlorination facilities;
- 354.5 million gallons of treated water storage;
- 30 pump stations;
- Approximately 1,900 miles of transmission and distribution system pipelines;
- Over 188,000 meters and service connections;
- More than 21,000 distribution system valves;
- About 18,000 hydrants;
- Monitoring and control systems; and,
- Various buildings and other related facilities.

In addition to replacing and improving the supply, treatment, transmission and distribution systems, the capital program includes investments in watershed stewardship projects, Cedar River Watershed Habitat Conservation Plan implementation, water conservation programs, vehicles, heavy equipment, and technology.

Planned spending in the Water Capital Improvement Program (CIP) is \$395 million over the next six years. Major projects include:

- Seismic retrofits to the correct design flaws at four of the newly buried treated water reservoirs ;
- Morse Lake Pump Plant changes to improve water storage access; and
- Water system improvements associated with transportation projects.

The 2015-2020 Proposed CIP also includes many ongoing programs, such as improving the distribution and transmission system water mains, valves, and pump stations, watershed stewardship and conservation projects and programs, and facilities, vehicles, and heavy equipment investments. By 2017, however, the overall CIP will be reduced, and investments will be substantially focused on rehabilitating and replacing infrastructure for delivery of clean drinking water, with continued watershed stewardship.

SPU funds Water capital projects through a combination of cash and issuance of bonds. The primary source of cash and debt repayment funds come from sale of water charged to retail and wholesale customers in the region. SPU has updated the Water System Plan through 2018, a Washington Department of Health (WDOH) regulatory requirement due every six years.

Summary of Upcoming Budget Issues and Challenges

Two important issues create financial challenges and opportunities for the Water Fund in the future.

Water Conservation: The City of Seattle, Seattle residents, and Seattle’s wholesale water partners have worked together to reduce water consumption. As a result, consumption has declined since 1990 and is projected to further decline but at a slower rate. In 2010, consumption was 33% below 1990 levels, despite serving a larger population. Seattle currently has some of the lowest per capita water consumption in the nation. While this accomplishment helps contribute to a sustainable future for the region, it puts financial pressure on the utility because fixed costs, including the costs of the CIP, need to be distributed across fewer units of water sold. This trend also puts pressure on SPU management and employees to deliver services as efficiently as possible.

Transitioning from Major Projects toward Asset Management: The Water Fund is transitioning from a period of building large capital projects, in response to regulatory requirements, to a time of physical infrastructure rehabilitation. Past investments include water treatment facilities for the Tolt and Cedar water supplies, coverings for seven open reservoirs in response to federal/state regulations, construction of a second pipeline for the Tolt system, and investments to meet federal requirements embodied in the Cedar River Watershed Habitat Conservation Plan (HCP). These investments helped secure the supply and distribution of high-quality drinking water and provide appropriate stewardship of the watersheds consistent with federal and state requirements.

The City of Seattle is now better positioned than many water utilities in the nation in terms of regulatory compliance. Residents, businesses and rate payers will benefit from these investments for years to come. Although the focus will shift from major projects to physical infrastructure rehabilitation, the utility will be paying debt service over the next several budget cycles on the bonds that were issued for major projects.

Against the backdrop of these trends, the 2015-2020 Proposed Water CIP has been developed to:

- Provide for water system modifications associated with various Seattle and regional transportation projects.
- Preserve the transmission and distribution systems, as well as stewardship of the watersheds, to ensure a reliable source of high-quality drinking water;
- Comply with federal and state regulations governing water quality, system reliability, and habitat protection in the watersheds in which SPU operates; and,
- Prioritize projects to deliver on infrastructure and regulatory requirements within the limited resources of the Water Fund.
- Recognize the need to look harder at the water system’s resiliency in a major earthquake event, and begin to make strategic investments to reduce risk.

Thematic Priorities

The overarching goal of the Water CIP is to ensure that the water system is properly maintained, upgraded, and expanded to reliably deliver high-quality, safe drinking water to customers, protect the environment, and comply with regulations. The primary themes driving the CIP in the next six years are asset preservation, health and human safety, environmental sustainability, and race and social justice.

- SPU is committed to making **asset preservation** investments to create or enhance operational efficiency. SPU uses asset management principles to determine the timing of rehabilitation or replacement of its infrastructure. Projects that fall into this category vary, ranging from water main replacement related to transportation projects to decommissioning of steel storage facilities.
- SPU's commitment to **health and human safety** is also addressed through SPU's reservoir covering projects. Consistent with Ordinance 120899 and required by state regulators, SPU has been replacing its open finished drinking water reservoirs with underground structures that will improve water quality and system security. Seismic retrofits are planned for four of the buried reservoirs that have design flaws. SPU plans to decommission Roosevelt Reservoir, and further evaluate the possibility of decommissioning Volunteer Reservoir. However, permanent actions at these two reservoirs are not expected to occur until enough time has elapsed to observe the water system's performance without them. Additionally, by 2019, SPU will begin the planning and design of new covers on the Lake Forest Park and Bitter Lake reservoirs to replace the existing floating covers that will be nearing the end of their useful life.
- SPU is committed to **environmental sustainability**. This can best be seen in SPU's responsibilities as outlined in the 50-year Habitat Conservation Plan (HCP), an agreement between local, state and federal agencies. The HCP seeks to ensure the long-term ecological integrity of the Cedar River Watershed, which supplies the majority of the City's drinking water. It simultaneously addresses the needs of protected wildlife species in and along the Cedar River. Investments in the regional conservation and low-income conservation programs also help in management of our natural resources, while helping customers reduce their utility bills.
- SPU is also committed to **race and social justice**. One example of this commitment is the Low Income Water Conservation Program. This ongoing program provides water use efficiency resources to the City's low-income customers to implement water conservation measures. Typical improvements consist of, but are not limited to, installing water-efficient fixtures, such as aerating showerheads and faucets, low water-use toilets and efficient clothes washers. The program is cooperatively managed by SPU and the City's Human Services Department.

Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g. comprehensive plans, program plans), external projects and opportunities, and emergencies or other unexpected events. Under SPU’s Asset Management system, projects must be justified through a business case process that establishes that a problem or opportunity is timely and important, and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental and social) of life cycle costs and benefits. The process also recognizes that a project may be a “must do” project (e.g. required by regulation).

SPU prioritizes its capital projects into three categories – Priorities 1, 2 and 3, with 1 being the most important and critical. Some projects are part of an externally driven project. Typically, SPU lacks control over the timing of externally driven projects.

Priority rankings are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which a project is driven by federal, state, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the reservoir covering programs and the Habitat Conservation Program.
- **External Drivers:** SPU’s responsiveness to, or engagement with, projects of other Departments or Jurisdictions, and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include the Alaskan Way Viaduct and Mercer Corridor projects.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include the Waterman Rehabilitation, Distribution System Improvements and Tank Improvements programs.
- **Level of Service:** The importance of a project in providing or improving services to customers. Examples of highly ranked projects in this category include the Water Infrastructure – New Taps and Service Renewals programs.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits not otherwise captured, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, outside funding. An example of a highly ranked project in this category includes Rattlesnake Lake Sanitary Facilities.

Every project is rated against each criterion. Criteria ratings are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each Line of Business (LOB), with review by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU Director and Asset Management Committee. Project priority rankings are used to clarify and document which projects are most important (and why), to help determine which projects at the margin will be included or excluded (or deferred) from the CIP,

and which projects should receive priority attention if a staff or financial resource constraint should arise.

In recent years, this prioritization process and business case analysis has resulted in decisions to defer some capital projects and retire or downsize some facilities, primarily finished water reservoirs. Retiring facilities reduces capital expenditures since these facilities are in need of major improvements (such as seismic retrofits) that are avoided, as well as reduces annual operating costs since the level of maintenance is greatly reduced. Downsizing or retiring storage facilities is possible because the need for storage has changed over time as the system has been reconfigured, transmission and treatment has become more reliable, and demands, particularly for fire flows, have declined.

Some examples of retirements are:

- Richmond Highlands Tanks (decommissioning the smaller of two): \$1.8 million in capital cost savings;
- Myrtle Tank #1: \$900,000 in capital cost savings;
- Roosevelt Reservoir: \$24 million in capital cost savings;
- Volunteer Reservoir retirement is under consideration (\$25 million in potential capital savings since this reservoir would have to be buried if it were kept in service); and,
- Lincoln, Beacon and West Seattle Reservoirs were downsized based on demand analysis.

Some examples of deferrals are:

- Landsburg Flood Passage Improvements to improve woody debris management and performance during high flood flows at Landsburg Diversion (\$5M): Delayed beyond 2020; and
- Cedar Falls Facilities Development to improve buildings and office space at Cedar Falls Headquarters: Deferral of Phase 2 to beyond 2020.

Aligning Infrastructure with Planned Growth

In its Water System Plan updates, SPU forecasts water demands to meet the growth projections as planned for in Seattle's most recent Comprehensive Plan and ensures that there will be adequate water supply for at least the next 20 years. These growth projections include expected residential and commercial growth into designated Urban Centers and Urban Villages. The 2013 Water System Plan indicates that new sources of supply would not be needed until sometime after 2060.

Growth-based infrastructure needs in Urban Centers and Urban Villages are addressed through specific programs in the Water CIP, including water main extensions, new water connections for new construction, fire flow improvements, and water main rehabilitations. The water distribution system in these areas is fairly robust, and needed improvements are generally located within areas where the land use is changed from single family zoning to a more intensive use needing higher flows for firefighting. Projects containing these improvements are evaluated through a business case process and are prioritized among the other projects in the CIP.

Future Projects/What is on the Horizon

The Water CIP is coming to the end of a 20-year period of investments in major infrastructure projects. These projects have positioned SPU to meet drinking water quality and environmental regulations. Projects have included the Tolt and Cedar Water Treatment Facilities, Tolt Pipeline

2, Reservoir Covering Program, the Cedar River Watershed HCP, and a new Water Quality Laboratory. SPU has also made a major reinvestment in the Supervisory Control and Data Acquisition System which is used to monitor and control the regional and retail water system. However, these investments have also led to increasing debt service payments that constrain future budgets.

The 6-year CIP includes one large project, Morse Lake Pump Plant, and a few special mid-range programs, such as seismic retrofitting of reservoirs, and programs related to transportation projects and improvements to SPU facilities. The Morse Lake Pump Plant project provides for reliable release of water from Morse Lake into the Cedar River. This is necessary to maintain the supply of drinking water to the region and meet regulatory minimums for the amount of “in-stream flows” in the river to support aquatic habitat, wetlands, riparian vegetation, and water quality. Additionally, by 2019, SPU will begin the planning and design of new covers on the Lake Forest Park and Bitter Lake reservoirs to replace the existing floating covers that will have reached the end of their useful life.

As noted above, SPU recognizes the need to look harder at the water system’s resiliency in a major earthquake event, and begin to make strategic investments to reduce risk. SPU will be developing a plan that will define recovery time to agreed levels of service and develop a prioritized list of recommended investments to improve resiliency.

Beyond these projects, emphasis will be on asset management based rehabilitation and replacement of distribution system infrastructure (e.g. mains, valves, hydrants, meters). Example of such projects to date are the 3rd Ave West PRVs project, which installed new pressure reducing valves (PRVs) in the Ballard neighborhood, and the WM Ship Canal Crossing at 3rd Ave West project, which rehabilitates a failing water main (WM) underneath the Ship Canal Bridge. There is significant planning and analysis work involved in applying asset management and determining the appropriate level of CIP versus operating and maintenance work needed for each asset, and shifting the workforce accordingly.

CIP Revenue Sources

SPU’s Water CIP is funded largely by Water ratepayers. About 70% of the Water Fund’s Operating revenues come from retail ratepayers, split approximately evenly between residential and commercial customers. Another 23% of the Water Fund’s overall revenues come from wholesale purveyors who serve surrounding jurisdictions. The remaining 7% consists of non-rate revenue, which includes such things as tap fees received. SPU issues bonds, serviced by ratepayers, which in the current period covers 49% of the CIP, with the remainder funded by cash and loan, i.e.: directly by ratepayer revenue.

SPU actively seeks grants, low interest loans, and other funding sources whenever possible. And, as mentioned above, SPU also receives payments from developers that are intended to offset the cost of installing new taps when they connect newly constructed buildings to the SPU water mains. These “tap fees” are a volatile revenue source, trending with the construction-related sectors of the economy.

CIP Spending by Major Category

(In '000s; total may not sum due to rounding)

Water Fund	2015	2016	2017	2018	2019	2020	Total
DISTRIBUTION	20,713	18,000	21,974	25,041	23,166	23,846	132,739

WATER RESOURCES	13,965	23,780	9,480	3,807	3,463	2,856	57,351
HABITAT CONSERVATION	2,604	2,821	2,776	4,766	1,779	2,209	16,954
SHARED COST	21,971	21,214	19,806	16,390	12,897	8,765	101,043
TECHNOLOGY	11,044	8,641	7,178	7,185	5,090	5,423	44,562
Total	84,513	85,831	64,054	60,515	50,204	49,582	394,699

Distribution: Projects and programs in this category relate to rehabilitation and improvements to the City's water mains and appurtenances, pump stations, and other facilities that are part of the system that distributes treated water throughout the City of Seattle to retail customers.

Reductions in the **Distribution BCL** in 2015 compared to amounts adopted in the 2014-2019 CIP, are due primarily to fewer projects identified for Pump Station Improvements, Tank Improvements and Distribution System Improvements (e.g., fire flow improvements). Reductions in 2016 are due primarily to reductions in those same programs, plus reductions in Waterman Rehabilitation. These reductions are proposed to provide capacity to make water system changes associated with transportation projects. In addition, for both years, anticipated increase in demand for New Taps is offset by a decrease in Service Renewals performed by the same work crews.

Transmission: The purpose of this program category is to rehabilitate and improve the City's large transmission pipelines that bring untreated water to the treatment facilities, and convey water from the treatment facilities to Seattle and to other local utilities that purchase a portion of SPU's supply for their customers.

Reductions in the **Transmission BCL** in 2015 and increases in 2016 compared to amounts adopted in the 2014-2019 CIP are due primarily to delaying work on Tolt Pipeline Improvements while engineering studies are being completed. Additional shifts in cash flows are anticipated for

Cathodic Protection as the program moves to bundling projects for design and construction in every other year for more efficient project delivery.

Watershed Stewardship: Projects and programs in this category improve protection of our sources of drinking water, provide habitat protection and restoration, sustain the environment, and enhance environmental quality, both locally and regionally. Most of the projects in this program category are located within the Cedar and Tolt River municipal watersheds. Three of these projects are being carried out in response to the Endangered Species Act's designation of the Chinook salmon as a threatened species.

- The Cedar River Municipal Watershed is 90,638 acres of land owned by the City of Seattle and provides about 70% of the drinking water used by over 1.3 million people in the greater Seattle area. The City of Seattle is required by law to maintain a clean drinking water supply. To that end the City restricts public access and management is guided by a Habitat Conservation Plan. The Cedar River Watershed is an unfiltered surface water supply which produces some of the best water in the world.
- The South Fork Tolt River Watershed is the smaller and lesser known but still essential second supply watershed in SPU's freshwater supply system. Located in the foothills of the Cascades in east King County, it first came on-line in 1964, and since 1989 has also supported a small Seattle City Light hydro-electric facility. The Tolt Treatment Facilities can provide up to 120 million gallons of drinking water per day.

Increases in 2015 and 2016 in the **Watershed Stewardship BCL** are proposed for remediation of identified soil contamination at various locations in the Cedar River Municipal Watershed. Another contribution to the increase in 2015 is for construction of vault toilet facilities at the Rattlesnake Lake Recreation Area, which is less costly than renting portable toilets.

Water Quality and Treatment: The purpose of this program category is to construct, rehabilitate or improve water treatment facilities, and cover the remaining open water reservoirs. State and federal drinking water regulations and public health protection are key drivers of investments in this program category. To comply with regulations, SPU has invested hundreds of millions of dollars in building two new treatment facilities and burying five reservoirs that contain already treated water that is distributed directly to Seattle residents and wholesale customers for drinking purposes.

Increases in 2015 and 2016 in the **Water Quality & Treatment BCL** result from higher cost projections based on recently completed engineering studies for correcting seismic design flaws at four of the newly buried reservoirs.

Water Resources: The purpose of this program category is to manage our water resources to meet anticipated demands and in-stream flow requirements – the amount of water provided to the river to support aquatic habitat, wetlands, riparian vegetation, and water quality – and to promote residential and commercial water conservation. The requirements for in-stream flows are detailed in agreements with state and federal agencies and include provisions for minimum stream flows in the Cedar and South Fork Tolt Rivers. Examples of the types of projects in this category include the Dam Safety Program and the Morse Lake Pump Plant. The Morse Lake Pump Plant is one of the last big investments contemplated in the Water CIP in this decade.

Increases in the **Water Resources BCL** in 2015 and 2016 are a result of two factors. First, the Landsburg Flood Passage Project under the Dam Safety Program has been postponed to

sometime after 2020 because of its lower priority. Second, the cash flow for the Morse Lake Pump Plant has been adjusted to reflect the current design and construction schedule, with no change to the total project cost.

Habitat Conservation Program: This program category includes projects and programs directly related to implementation of the Cedar River Watershed Habitat Conservation Plan. The Habitat Conservation Plan benefits the utility and the ratepayers it serves by providing legal certainty under the Endangered Species Act for the City's continued operations within the Cedar River Watershed, which supplies 70% of the region's drinking water. The Habitat Conservation Program requires SPU to invest \$100 million over 50 years, with \$60 million in the first decade, on approximately 30 capital projects and 60 O&M activities in three areas: management of in-stream flows for people and fish, forest and land conservation activities, and mitigation for the blockage of salmon and steelhead fish as they return to the Cedar River to spawn. The Water Fund's CIP projects in this area are grouped into eight categories:

- Road improvements and decommissioning;
- Stream and riparian restoration;
- Upland forest restoration,
- Landsburg fish passage;
- Cedar River sockeye hatchery;
- Improvements to the Ballard Locks for fish passage and water conservation;
- Fish habitat protection and restoration in the lower Cedar River below the municipal watershed boundary; and
- Evaluation of Cedar permanent dead storage in Chester Morse Lake.

Increases in 2015 and 2016 in the **Habitat Conservation Program BCL** are attributable to earlier than anticipated work at Ballard Locks to help protect downstream migrating fish and for a new project to replace the existing broodstock collection weir on the Cedar River with one that performs better under high river flows to meet the requirements for the Cedar Sockeye Hatchery.

Shared Cost Projects: This program includes individual capital improvement projects which typically benefit multiple lines of business (e.g. the water line of business and the drainage and wastewater line of business) and whose costs are "shared," or paid for, by more than one of SPU's utility funds. In 2015, the Shared Cost program includes funding for a number of interdepartmental projects including continuation of projects initiated under the Bridging the Gap program, Alaskan Way Viaduct and Seawall Replacement, Mercer Corridor and Sound Transit Link Light Rail. Funding is also included for SPU's Heavy Equipment Purchases, the Integrated Control Monitoring Program and a number of smaller projects.

The **Shared Cost Projects BCL** increases in 2015 and 2016. The primary driver for the increase is due to newly identified water main replacement projects associated with projects initiated under the Bridging the Gap program (e.g., SDOT's 23rd Ave Corridor Improvements Project).

Technology: The Technology capital portfolio is managed in six program areas, which provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing
- Enterprise Information Management

- IT Infrastructure
- Project Delivery & Performance
- Science & System Performance
- Asset Information Management

Investments in 2015 and 2016 address SPU's key initiatives, which focus on:

- Improving Internal Controls,
- Improving Productivity and Performance
- Improving Customer Service
- Transitioning from Data Rich to Knowledge Rich
- Improving Project Delivery

SPU will focus technology spending on the highest priority business needs. Increased spending in 2015 reflects major business changes in Project Delivery & Performance driving the need for several new technology systems as well as improved integration of the various systems in place. The decrease in 2016 is mainly due to the completion of the Utility Customer Billing System/CCSS project.

City Council Provisos to the CIP

There are no Council provisos.

Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing program provides the Water funding for Seattle Public Utilities' 1% for Arts contribution. Eligibility is determined at the individual project level, with payment occurring from this program. Funds contributed to the 1% for Art program allow the commission, purchase, and installation of art in City-owned properties that are accessible to the public. The Municipal Arts Plan, prepared annually, describes the status of ongoing art projects and establishes the scope of work and allocations for new art projects.

Alaskan Way Viaduct & Seawall Replacement Program - WF

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	New Facility	Start Date:	Q1/2004
Project ID:	C4102-WF	End Date:	Q4/2019
Location:	SR 99 / Battery St		
Neighborhood Plan:	In more than one Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This program relocates, replaces, and protects water infrastructure affected by the replacement of the Alaskan Way Viaduct and Seawall. This project encompasses many sub-projects which are collectively known as the “Alaskan Way Viaduct and Seawall Replacement Program” (AWVSR Program.) The Washington State Department of Transportation (WSDOT) is the lead for the SR-99 replacement, while the City of Seattle is the lead on development of the waterfront public space, implementation of the new surface Alaskan Way, and design and construction of the seawall.

2015 - 2020 Adopted Capital Improvement Program

Ballard Locks Improvements

BCL/Program Name:	Habitat Conservation Program	BCL/Program Code:	C160B
Project Type:	Improved Facility	Start Date:	Q1/2000
Project ID:	C1606	End Date:	Q4/2020
Location:	NW 54th St /30th Ave NW		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	6
Neighborhood District:	Ballard	Urban Village:	Ballard Interbay

This program provides improvements at the Ballard Locks to upgrade conditions for salmon. Improvements are focused on conserving the amount of freshwater needed to operate the locks to reduce the demand for freshwater from the Cedar River and increase the availability of freshwater for salmon. This program is a requirement of the Cedar River Habitat Conservation Plan (HCP.)

This multi-year, multi-project program funds assessments, repairs, and improvements to SPU's drinking water utility infrastructure at sites chosen by the Seattle Department of Transportation (SDOT) for bridge improvements and pedestrian and bicycle safety improvements within its "Bridging the Gap" program. SPU assesses the condition of its utility infrastructure at SDOT's project sites and conducts repairs and improvements as needed.

2015 - 2020 Adopted Capital Improvement Program

Cathodic Protection Program

BCL/Program Name:	Transmission	BCL/Program Code:	C120B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2004
Project ID:	C1208	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	Not in an Urban Village

This ongoing program installs corrosion protection systems that prevent external corrosion of water transmission pipelines located in Seattle and throughout King County. The cathodic protection systems extend the life of buried pipelines made of ductile iron, steel, and concrete cylinder pipe.

2015 - 2020 Adopted Capital Improvement Program

Cedar Bridges

BCL/Program Name:	Watershed Stewardship	BCL/Program Code:	C130B
Project Type:	Improved Facility	Start Date:	Q1/2007
Project ID:	C1307	End Date:	ONGOING
Location:	Cedar River Watershed		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This program replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. Projects within this program improve aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this program also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, Washington Department of Health (DOH) Watershed Protection Plan regulations, and Cedar River Habitat Conservation Plan (HCP) restoration commitments.

2015 - 2020 Adopted Capital Improvement Program

Cedar Sockeye Hatchery

BCL/Program Name:	Habitat Conservation Program	BCL/Program Code:	C160B
Project Type:	New Facility	Start Date:	Q1/2000
Project ID:	C1605	End Date:	Q2/2016
Location:	Cedar River Watershed		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This program provides a sockeye salmon hatchery to replace the interim hatchery on the Cedar River at Landsburg Dam, and includes a broodstock collection facility in Renton near the I-405 overpass, and a state-of-the-art hatchery facility located near the Landsburg Dam. These facilities are a requirement of the Cedar River Habitat Conservation Plan (HCP).

Dam Safety Program

BCL/Program Name:	Water Resources	BCL/Program Code:	C150B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2008
Project ID:	C1506	End Date:	ONGOING
Location:	N/A		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing program maintains the safety of SPU's water supply dams in the Cedar River and South Fork Tolt River Municipal Watersheds and the in-town reservoir dams. Typical improvements may include, but are not limited to, upgrades to the dams' failure warning systems, spillways, outlet works, piping, and other civil, mechanical, and structural systems. This program ensures the continuing safe functioning, operation and monitoring of SPU's water supply dams and associated facilities per Federal Energy Regulatory Commission (FERC), state and local regulations, and SPU requirements to prevent loss of life and/or property damage and loss of SPU's ability to deliver reliable drinking water supply to its customers.

2015 - 2020 Adopted Capital Improvement Program

Distribution System Improvements

BCL/Program Name:	Distribution	BCL/Program Code:	C110B
Project Type:	Improved Facility	Start Date:	Q1/2003
Project ID:	C1128	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program improves service reliability, pressure, capacity, and fire flow in the City's water distribution system. Typical improvements may include, but are not limited to, booster pump station installation, creation of new service zones, and tank elevation or replacement, as well as additional watermain pipelines and pressure reducing valves. These improvements to service levels meet Washington Department of Health (DOH) regulations and SPU's Distribution System Pressure Policy to provide greater than 20 psi service pressure. These improvements provide higher flow of water for fire protection which improves public safety and results in smaller and shorter fires.

2015 - 2020 Adopted Capital Improvement Program

Distribution System In-Line Gate Valves

BCL/Program Name:	Distribution	BCL/Program Code:	C110B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/1999
Project ID:	C1136	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing project replaces line valves in the water distribution system throughout the City of Seattle that fail or are obsolete due to age or lack of replacement parts. The replacement of these gate valves extends the useful life of the watermain and restores the performance of the water distribution system. This ongoing project also adds valves within the system to enhance system performance, enhance operational control, and reduce the number of customers whose service is interrupted during a watermain shut down.

This ongoing program provides SPU’s Water Utility crews with new and replacement heavy equipment that is used throughout Seattle and King County. Typical purchases include backhoes, graders, loaders, dozers, service trucks, and dump trucks. This equipment transports work crews and tools to jobsites and supports the safe and efficient replacement, repair, and maintenance of infrastructure that delivers high quality drinking water to 1.5 million customers in King County. This project is one of four SPU fund-specific heavy equipment CIP projects.

Instream Flow Management Studies

BCL/Program Name:	Habitat Conservation Program	BCL/Program Code:	C160B
Project Type:	Improved Facility	Start Date:	Q4/2003
Project ID:	C1608	End Date:	ONGOING
Location:	Cedar River Watershed		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This program provides research and monitoring to examine the effects of instream flows on salmon species in the Cedar River. This program monitors flow compliance, verifies accretion flows downstream of Landsburg, improves flow-switching criteria, and develops a better understanding of relationships between stream flow and aquatic habitat. This program is a requirement of the Cedar River Habitat Conservation Plan (HCP.)

2015 - 2020 Adopted Capital Improvement Program

Integrated Control Monitoring Program - WF

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	New Investment	Start Date:	Q1/2002
Project ID:	C4108-WF	End Date:	ONGOING
Location:	Various		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing program funds improvements to the centralized monitoring and control of the drinking water portion of the overall Supervisory Control and Data Acquisition (SCADA) system infrastructure throughout King County. Infrastructure affected may include, but is not limited to, flow and pressure sensors, remote control pumps, and valves. This program enhances the delivery and quality of drinking water and the delivery of water to fire hydrants, also known as "fire flow."

2015 - 2020 Adopted Capital Improvement Program

Kerriston Road

BCL/Program Name:	Watershed Stewardship	BCL/Program Code:	C130B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2009
Project ID:	C1314	End Date:	Q4/2013
Location:	Cedar River Watershed		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project acquires properties adjacent to the lower Cedar River Municipal Watershed that are accessed via Kerriston Road which runs through the lower municipal watershed. Acquisition of these lands minimizes the risk to water quality from access through the watershed by the public. No funding has been requested for the 2013-2018 time frame but once specific acquisitions are identified, appropriate budget authority will be sought.

Mercer Corridor Project East Phase - WF

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	Improved Facility	Start Date:	Q1/2007
Project ID:	C4114-WF	End Date:	Q4/2014
Location:	South Lake Union		
Neighborhood Plan:	South Lake Union	Council District:	7/3
Neighborhood District:	Lake Union	Urban Village:	South Lake Union

This program funds the repair, relocation, protection, and upgrade of water infrastructure related to the redevelopment of the South Lake Union neighborhood. This effort identifies SPU water system direct impacts, opportunities for system improvements, and cost responsibility. This program also funds planning-level coordination with other City departments on projects within the South Lake Union area.

2015 - 2020 Adopted Capital Improvement Program

Mercer Corridor Project West Phase - WF

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	Improved Facility	Start Date:	Q1/2010
Project ID:	C4133-WF	End Date:	Q4/2015
Location:	Mercer ST /Elliot AVE W/Dexter AVE N		
Neighborhood Plan:	In more than one Plan	Council District:	7
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project provides water utility improvements and relocations related to the Mercer Corridor Project, West phase. Work in this project will convert Mercer Street to a two-way street between Dexter Ave and Elliott Ave West. The Mercer underpass at Aurora Ave will be widened to allow for six travel lanes and a bicycle/pedestrian shared use path between Dexter Ave and 5th Ave North. Roy Street, between Aurora and Queen Anne Ave., will also be converted to a two-way street with on-road bicycle lanes.

2015 - 2020 Adopted Capital Improvement Program

Meter Replacement - WF

BCL/Program Name:	Shared Cost Projects	BCL/Program Code:	C410B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2004
Project ID:	C4101-WF	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program funds replacement of existing water meters when they fail or become obsolete. Meters measuring up to two inches are replaced when they stop running. Meters measuring three inches or more are repaired when possible, but are replaced when repair costs exceed replacement costs. Accurate water meters ensure that customers are billed fairly for the water they use. Since water meters also are used to bill customers for their wastewater discharges, 48 percent of the funding is allocated to the Drainage and Wastewater line of business.

Morse Lake Pump Plant

BCL/Program Name:	Water Resources	BCL/Program Code:	C150B
Project Type:	Improved Facility	Start Date:	Q1/2003
Project ID:	C1508	End Date:	Q4/2017
Location:	Cedar River Watershed		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This project includes funding to replace the existing barge-mounted pump plants at Chester Morse Lake. The pump plants at Chester Morse Lake are nearing the end of their useful lives. These pumps are designed for drought situations to access so-called "dead storage" at the lake, which is at or below the level that drains by gravity. The improvements enhance the ability to provide reliable water supply and in-stream flows in the Cedar River during drought conditions and to address requirements of the Habitat Conservation Plan. Most pre-2012 costs are deferred costs that will be amortized over ten years.

2015 - 2020 Adopted Capital Improvement Program

Regional Water Conservation Program

BCL/Program Name:	Water Resources	BCL/Program Code:	C150B
Project Type:	Improved Facility	Start Date:	Q1/1999
Project ID:	C1504	End Date:	ONGOING
Location:	Citywide Plus Wholesale		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program provides customer incentives for residential, commercial, institutional, and industrial water efficiency capital improvements. Typical examples include, but are not limited to, water efficient toilets and urinals, clothes washers, landscape irrigation devices, upgrades in industrial process water, and replacing water-cooled equipment with air-cooled versions. The program benefits both existing and future ratepayers. Water conservation provides low-cost options for meeting potential challenges from climate change, managing Seattle's drinking water resources, and customer efficiency and potential cost savings on water bills.

Reservoir Covering-Bitter Lake

BCL/Program Name:	Water Quality & Treatment	BCL/Program Code:	C140B
Project Type:	Improved Facility	Start Date:	Q1/2019
Project ID:	C1419	End Date:	Q4/2020
Location:	N 143rd St and Linden Ave N		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	5
Neighborhood District:	Northwest	Urban Village:	Not in an Urban Village

This project addresses the need for a new cover on Bitter Lake Reservoir once the existing floating cover has reached the end of its useful life. Replacing the existing structure with a new hard covered structure within the same footprint will be one of the options considered. A new cover will be designed and constructed to improve and maintain the water quality protection and security enhancement functions of the existing cover.

Location:	Citywide & Direct Service		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program provides water use efficiency resources to the City's low-income customers to implement water conservation measures authorized by Ordinance 120532, adopted in 2001, and supplements funding provided under SPU's Regional Water Conservation Program (C1504). Typical improvements consist of, but are not limited to, installing water-efficient fixtures, such as aerating showerheads and faucets, low water use toilets and efficient clothes washers. The program is cooperatively managed by SPU and the City's Human Services Department and requires an annual report to be provided to Council.

2015 - 2020 Adopted Capital Improvement Program

Stream & Riparian Restoration

BCL/Program Name:	Habitat Conservation Program	BCL/Program Code:	C160B
Project Type:	Rehabilitation or Restoration	Start Date:	Q2/2000
Project ID:	C1602	End Date:	ONGOING
Location:	Cedar River Watershed		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This program provides stream and riparian restoration in the Cedar River Watershed, including large woody debris placement, riparian conifer underplanting, and culvert replacement for fish passage and peak storm flows. This program is a requirement under the Cedar River Habitat Conservation Plan (HCP.)

2015 - 2020 Adopted Capital Improvement Program

Tank Improvements

BCL/Program Name:	Distribution	BCL/Program Code:	C110B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2008
Project ID:	C1134	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program implements water quality, seismic, and other improvements to steel water tanks in Seattle. Functional water tanks are essential to public health protection as they assure that the distribution system is under pressure at all times, even when pump stations or control valves malfunction. Depressurization of the water system may result in siphoning back contaminants from faulty private systems and from the ground into the water pipes.

2015 - 2020 Adopted Capital Improvement Program

Tolt Bridges

BCL/Program Name:	Watershed Stewardship	BCL/Program Code:	C130B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2004
Project ID:	C1308	End Date:	ONGOING
Location:	Tolt River Watershed		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Outside Seattle
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This program replaces aging bridges on forest roads in the Tolt River Watershed, including Chuck Judd Creek Bridge and Siwash Creek Bridge. It improves aging bridge assets in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. This program maintains compliance with state laws and safety and environmental regulations, including Washington Department of Natural Resources (WDNR) forest practice regulations and Washington Department of Health (DOH) Watershed Protection Plan regulations.

Tolt Watershed Restoration

BCL/Program Name:	Watershed Stewardship	BCL/Program Code:	C130B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2009
Project ID:	C1310	End Date:	Q4/2020
Location:	Tolt River Watershed		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	N/A
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This program provides aquatic and riparian restoration, and funds improvements and decommissioning of the road system in the Tolt River Municipal Watershed. This program improves Tolt Watershed management practices to be consistent with the land management practices in the Cedar River Watershed, the City's other primary water supply watershed. Projects are based upon recommendations of the 2011 Tolt Watershed Management Plan.

Water Infrastructure - Hydrant Replacement/Relocation

BCL/Program Name:	Distribution	BCL/Program Code:	C110B
Project Type:	Rehabilitation or Restoration	Start Date:	Q4/1998
Project ID:	C1110	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program renews or replaces existing hydrants in the City's water distribution system. In general, hydrant renewal or replacement may occur as a result of hydrant malfunction, catastrophic failure due to vehicle damage, or to meet SPU criticality criteria such as spacing, location, cost, opportunity projects, or flow and pressure problems. This program improves access to fire hydrants for the Seattle Fire Department (SFD) and helps to reduce the damage as a result of fire by locating fire hydrants in alternate or additional locations.

2015 - 2020 Adopted Capital Improvement Program

Water Infrastructure - New Hydrants

BCL/Program Name:	Distribution	BCL/Program Code:	C110B
Project Type:	New Facility	Start Date:	Q2/1999
Project ID:	C1112	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program installs new hydrants in the City's water distribution system. In general, new hydrants are installed to meet service requests made by private property owners and to comply with Washington Administrative Code (WAC) or Seattle Fire Department (SFD) requirements. This program helps to reduce the damage as a result of fire by locating new fire hydrants throughout the City's direct service area.

2015 - 2020 Adopted Capital Improvement Program

Water Infrastructure - New Taps

BCL/Program Name:	Distribution	BCL/Program Code:	C110B
Project Type:	New Facility	Start Date:	Q4/1998
Project ID:	C1113	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program installs new drinking water services throughout the City of Seattle. This program provides new connections to existing water mains with no interruption of service to adjacent existing customers, and the installation of metered water service lines from the new tap to the new customer's property lines. This program meets City responsibility for new service connections in the Seattle Municipal Code (SMC) to provide reliable drinking water supply to customers.

This program improves water system performance, reliability, and flexibility during severe weather events, supply and infrastructure emergencies, as well as enhancing environmental performance for fish and supporting regulatory and policy compliance in these areas. Project improvements include Tolt Reservoir Temperature and the Overflow Dike in Chester Morse Lake, and may include but are not limited to, dam integrity and alternatives to improved crest control, reservoir water temperature, and water quality management.

2015 - 2020 Adopted Capital Improvement Program

Watermain Rehabilitation

BCL/Program Name:	Distribution	BCL/Program Code:	C110B
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2004
Project ID:	C1129	End Date:	ONGOING
Location:	Regional		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program replaces or rehabilitates existing watermains in Seattle. Replacements occur when leaks become too frequent. Rehabilitation by lining the interior of the pipe with cement mortar restores the capacity of watermains that have degraded due to interior deposits. The benefits of this program are restored quality of the delivered water, lower use of chlorine to maintain required chlorine residual, and restored pressures.

2015 - 2020 Adopted Capital Improvement Program

Finance and Administrative Services

Finance and Administrative Services

Overview

The Finance and Administrative Services (FAS) Capital Improvement Program (CIP) is the department's blueprint for planning, replacing, maintaining, remodeling and upgrading City- and FAS-owned and operated general government facilities, owned/leased community-based facilities and the City's enterprise technology applications, including the financial management (Summit) and payroll/human resources information (HRIS) systems. These assets are used by City departments, and certain non-profit agencies that serve the public, to deliver critical services to Seattle residents.

FAS' Adopted CIP includes appropriations for ongoing capital programs and specific capital facilities and enterprise projects with multiyear durations. Asset preservation work is planned on a six-year cycle and evaluated biannually for specific project development and execution. Department staff use a custom database known as Unifier to maintain building-specific facilities condition indexes and known building deficiencies, as well as to develop sustainment schedules and identify recapitalization requirements in the more than 100 buildings owned and managed by FAS. Multiyear projects are identified by multiple priorities, including City goals (e.g., sustainability, energy efficiency and public safety), code compliance and facility deficiencies based on tenant department operations. Planned schedules and funding commitments for these types of multiyear projects are typically made every other year in conjunction with the biennial budget process.

2015-2020 CIP

The six year FAS CIP includes approximately \$7.7 million for ongoing FAS projects and \$17.4 million in appropriations for short-term projects. Some highlights of ongoing programs include:

- **Americans with Disabilities Act:** Citywide & FAS - In 2015, FAS will continue to manage the City's efforts to improve accessibility to City facilities, consistent with the Americans with Disabilities Act (ADA). In this role, FAS conducted a Citywide prioritization process to allocate \$2.7 million for specific ADA improvements among five affected capital departments: Department of Parks and Recreation (Parks), Seattle Center, Seattle Public Library and Seattle Department of Transportation and FAS. Based on this process, in 2015 FAS will make ADA improvements at several facilities.
- **Asset Preservation** – FAS' Asset Preservation program will receive a funding increase in 2015 and will continue to preserve and extend the operational capacity and useful lives of existing facilities using facility space rent charges paid by City departments. FAS' proposal includes a \$2 million appropriation increase in 2015, a \$1 million increase in 2016 and a \$500,000 increase in 2017. FAS fund balance will support the 2015-2016 additional expenditures. Some projects planned for 2015-2016 include:
 - Seattle Municipal Tower (SMT) weatherization program, and exterior repairs;
 - SMT elevator controls study;
 - SMT 14 demolition and structural repairs;
 - Roof replacements at Airport Way Center (AWC) maintenance complex;
 - Seattle Justice Center (SJC) shear wall and elevator pit repair;
 - SJC foundation and exterior repairs;
 - Haller Lake Vehicle Maintenance Building A plumbing and HVAC repairs;
 - West Precinct Police Station HVAC repairs;
 - Generator upgrades at multiple shops and yards maintenance facilities; and

Finance and Administrative Services

- Building performance systems verifications (electrical and mechanical) and modifications in fire and police facilities.
- **Customer Requested Tenant Improvements (CRTI)** – This ongoing program provides a process for FAS to manage and execute all public works tenant improvement projects and space planning in FAS-owned facilities and leased facilities. FAS is also hired by other City departments to manage their facilities' capital improvement projects in non-FAS buildings. In 2015-2016, projects include tenant improvements in the Seattle Municipal Tower, Seattle Justice Center and Seattle City Hall. Appropriations for FAS' CRTI program serve as a pass-through to the requesting departments that are responsible for all project costs with funding coming from their capital or operating funds.
- **Energy Efficiency for Municipal Buildings** – This project funds work by the Office of Sustainability and Environment (OSE) to reduce energy use in City facilities in support of the City's goal to achieve a 20% reduction in building energy use by 2020. In 2015-2016, OSE will implement a package of energy efficiency projects. The work is part of a Citywide Resource Conservation Initiative coordinated by OSE to improve the energy efficiency of City facilities.
- **Fire Facilities and Emergency Response Levy Program** – The 2003 Fire Facilities and Emergency Response Levy Program included a nine-year, \$167 million property tax levy that voters approved in November 2003. FAS has used levy proceeds, supplemented by other funding sources, to:
 - Upgrade or replace fire stations and other fire facilities;
 - Construct a new Emergency Operations Center (EOC) and fire alarm center;
 - Build new fireboats; and
 - Renovate the Chief Seattle fireboat.

In 2015, FAS will continue with the construction of five neighborhood fire stations and the design on one additional station. Completed levy projects, including the new EOC, Joint Training Facility and several neighborhood fire stations, are no longer shown in the CIP.

- **North Precinct** – This project completes the land acquisition process for a new North Precinct facility for the Seattle Police Department (SPD). The design and engineering consultant team, which includes the general contractor/construction manager selected in 2014, continues the facility design.

FAS' new CIP project highlights include:

- **Central Neighborhood Service Center Tenant Improvement** – This project provides funding for tenant improvements at the Central Neighborhood Service Center, including improved space for staff, utility payment services, passport applications, pet licenses and informational workshops.
- **Electric Vehicle Charging Stations – AWC Building C** – This project provides permanent, code-compliant charging stations for SPD's existing fleet of electric vehicles in the Airport Way Center Building A complex. The facility upgrade allows SPD's enforcement personnel to park and charge their electronic scooter vehicles.
- **Seattle Municipal Tower (SMT) Data & Telecommunication Rooms and Electrical Infrastructure Upgrades** – This project funds cooling and fire separation upgrades for 15 existing network and telephone closets in the SMT and a building electrical infrastructure

Finance and Administrative Services

upgrade to increase capacity for additional loads, including the City's transition to Voice-over-Internet Protocol (VoIP) technology.

- **SJC Municipal Court Modifications and Upgrades** – This project funds a three-year phased approach to make ADA improvements to 11 existing courtrooms and provides for an upgrade to an existing restroom which will address compliance issues.
- **Facilities Planning** – This ongoing planning program includes two new planning efforts in 2015. An update to the 10-year old Haller Lake Drainage Master Plan will be completed along with options to address compliance issues with funding of design included in 2016.

A public safety facilities master plan will be initiated in partnership with the SPD and SFD. This planning effort will include building needs assessments, test-to-fit studies and capacity analyses to align with SPD and SFD strategic planning. Operational space plan modeling will address how existing facilities will meet the operational requirements of SPD and SFD.

- **Electronic Records Management System (ERMS)** – This project provides funding for a comprehensive system to address Citywide electronic records management issues, such as retention of email records as the City's current system is out of date. This project was originally in the Department of Information and Technology CIP, but has been managed by FAS and was transferred to the FAS CIP in 2015.
- **Seattle License Information System (SLIM)** – This project provides funds to determine requirements for a replacement system for SLIM, which is an application used to manage the issuance and renewal of business licenses and the collection of revenue from fees and taxes. SLIM must be upgraded as it is outdated and can no longer adequately meet the needs of expanding business license, tax collection and regulatory enforcement processes.

Summary of Upcoming Budget Issues and Challenges

The principal CIP budget issues that FAS faces continue to involve the age and condition of many City-owned buildings, expanding tenants' facility needs, and the age and condition of technology infrastructure in FAS' buildings.

- **Asset Preservation** – The FAS Asset Preservation (AP) program, created by Ordinance [121642](#), dedicates funds derived from space rent each year for the purpose of systems replacement in the 95 City buildings inside and outside of the downtown core. Given the number and condition of the buildings (more than 50 percent of the portfolio is 40 years or older), FAS directs asset preservation funds toward building systems that are in such poor repair they risk shutting down a building, and to address serious regulatory compliance or life/safety conditions. The \$4 million funding level per year, endorsed by Resolution 30812 is lower than that recommended by independent consultants at the beginning of the program in 2005 and deferred major maintenance backlogs continue to grow.
- **Expanding Needs** – FAS facilities are occupied by a wide variety of City departments, from Police and Fire to the Seattle Department of Transportation, Seattle Public (e.g., Washington State Patrol, private business firms, etc.). City departments' operations grow with increased population and development, more comprehensive regulations, new initiatives and department reorganizations. As departments contract and expand, FAS works to propose facility modernization, space operational maximization, or facility additions or expansions, as appropriate.

Finance and Administrative Services

- **Business Technology Information Technology Systems** – FAS supports City departments' business objectives by developing, implementing and maintaining business technology systems. FAS supports more than 30 City business units and most of the City's enterprise business systems, including financial management, budget planning, treasury, payroll, human resource information management, purchasing, licensing, tax management and benefits administration. Several business systems have become inefficient and are running on outdated or expired technology.
- **Summit Re-Implementation Project** – In 2011, the City of Seattle initiated a financial management and accountability program (FinMAP) to create Citywide financial management policies and standardize use of Summit, the City's financial system, which runs Oracle's PeopleSoft Financials software program. The City's PeopleSoft version has not been upgraded since 2006 and Oracle discontinued support for the product in 2011. The Summit Re-Implementation Project involves upgrading Summit to the current release (PeopleSoft Financials 9.2), and standardizing financial processes and policies across departments, enabling us to make informed financial decisions and meet regulatory obligations.

Thematic Priorities

FAS' CIP addresses the following priorities:

1) **Investments that Create or Enhance Operational Efficiencies/Effectiveness and Promote Open Government**

FAS is responsible for the operation and maintenance of approximately 3.2 million square feet of building space throughout the city, including police and fire facilities, shops and fleet maintenance facilities, high-rise office space in the civic core, parking garages and some of the City's community-based public service facilities. FAS also maintains Citywide business technology enterprise systems supporting financial management, budget planning, treasury, payroll, human resource information management, purchasing and tax management. FAS' capital investments must improve or enhance the operational capacity of these mission-critical systems and facilities.

2) **Asset Preservation**

As authorized in Ordinance [121642](#), FAS has dedicated annual funding to support the replacement of existing building systems, guided by strict policies to ensure those funds are used exclusively to upgrade and/or replace failing and existing components, such as roofs, windows, structures, electrical capacity, boilers or other systems when they have reached the end of their useful lives. FAS must also maintain the City's enterprise technology systems and the replacement lifecycles and upgrades are evaluated to maximize the useful life of a technology.

3) **Sustainability**

The City has adopted several sustainability policies which guide FAS, as a building owner, to focus on meeting the energy efficiency requirements of the Seattle Energy Code, achieve cost-effective measures to reduce energy use and incorporate other sustainable strategies required by regulations. Technology is constantly changing, and the solutions applied to business problems must demonstrate longevity so that the return on an investment may be realized and the solutions provide lasting results to the City.

4) **Race and Social Justice Initiative**

FAS integrates the City's social equity contracting requirements into all aspects of the execution of CIP projects.

Finance and Administrative Services

5) Life/Safety Issues

High priority is given to projects intended to ensure continuity of service at facilities that provide emergency or other essential services (e.g., replacing generators near the end of their useful lives at essential facilities, such as police or fire stations). Projects that respond to potential threats to human life and safety, such as mold/lead abatement and other hazardous conditions in building interiors and structural failures, also receive priority.

6) Federal, State and Local Requirements

FAS must consider regulatory requirements in assessing capital needs when replacing existing, failing systems in FAS-managed facilities. One example is the Washington Administrative Code requirement of upgrades to fire alarm panels and installation of fire sprinklers when substantial alterations are made in the course of upgrading or modernizing an existing building. Another example is addressing facility improvements required by the ADA, which meet the dual goals of complying with federal requirements and providing equitable access to all.

Project Selection Criteria

Projects to be considered for inclusion in the FAS CIP adhere to the capital and asset preservation policies adopted in Resolution [31203](#) and typically fall into two categories: projects that create and/or enhance operational effectiveness, or projects that preserve the City's assets. Facilities-related projects that create and/or enhance operational effectiveness are solicited from FAS' tenant departments on an annual basis, internally vetted for timeliness and appropriateness, and evaluated on their own merit. Executive direction is sought for those projects that increase operational capacity for departments and identify areas of opportunity to consider in the course of planning the City's CIP priorities. Information technology-related projects are developed by FAS staff in collaboration with affected departmental business units, and with input from customers and DoIT's Municipal IT Investment Evaluation review board.

Asset preservation – facility projects are compiled from annually updated asset management data generated by building condition assessments, energy audits, performance metrics and other capital planning studies. FAS' work-management Unifier Asset Management and Preservation System allows various operational work units to collaborate in one place while scheduling and tracking preventative maintenance activities. The system organizes tasks, such as work-order management, facility maintenance, lease management and maintenance of property information. Energy efficiency and resource conservation elements are considered as a subset when compiling project lists. Elements that extend the useful life of improvements, increase tenant comfort and reduce utility bills are integrated into existing projects where feasible. Resource conservation and energy efficiency projects are ranked based on estimated payback period.

Asset preservation – information technology projects relate to maintaining, upgrading and enhancing software and hardware supporting many of the City's critical enterprise business functions, including financial management, budget planning, treasury, payroll, human resource information management, purchasing, licensing, tax management, constituent relationship management and benefits administration. FAS' Business Technology Division applies the following criteria to potential information technology projects:

- Addressing life/safety issues;
- Creating or enhancing operational efficiencies/effectiveness;
- Improving security;
- Asset lifecycle management; and
- Meeting regulatory requirements.

Finance and Administrative Services

Future Projects/What is on the Horizon

FAS staff will continue to work with City tenants as their operational needs expand and change. City facilities and information technology systems must be reliable, well-maintained and responsive to the needs of operating departments to ensure public safety and the delivery of critical services to the citizens of Seattle. Challenges include the need to address the City's data center infrastructure, the major maintenance program on the City's 25-year old, 62-story Seattle Municipal Tower and the continued aging of the City's facilities and information technology systems. Two major future business technology projects include replacing the City's Human Resources Information and Payroll system and re-evaluating the budget system used by Parks.

Anticipated Operating Expenses Associated with Capital Facilities Projects

The 2015 Adopted and 2016 Proposed Budget reflects changes in operating and maintenance costs for expanded and new facilities coming online in 2015-2016. New and substantially renovated facilities (such as fire stations) are expected to be more efficient per square foot to operate and maintain than similar older facilities. Asset preservation projects are generally anticipated to have minimal impact on operating and maintenance costs, although in some instances they may lower or increase operating costs. In the case of fire station projects, projected changes in operating costs capture the impacts on both FAS and SFD's operating budgets.

City Council Provisos to the CIP

There are no Council provisos.

Asset Preservation - Shops and Yards

BCL/Program Name:	Asset Preservation - Shops and Yards	BCL/Program Code:	A1AP4
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2005
Project ID:	A1AP401	End Date:	ONGOING
Location:	Multiple City facilities	Council District:	7
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	In more than one Urban Village
Neighborhood District:	In more than one District		

This ongoing project provides for the long-term preservation and major maintenance of the City's FAS-owned shop and yard complexes, including Charles Street, Haller Lake, Airport Way Center, Sunny Jim, and the West Seattle Maintenance Yard. Typical improvements may include, but are not limited to upgrades to heating, ventilation, air conditioning, equipment replacement, and building exterior repairs. This work ensures the long-term operational use of these facilities.

Energy Efficiency for Municipal Buildings

BCL/Program Name:	FAS Oversight - External Projects	BCL/Program Code:	A1EXT
Project Type:	Improved Facility	Start Date:	Q1/2014
Project ID:	A1EXT02	End Date:	Q4/2020
Location:			
Neighborhood Plan:	Not in Neighborhood Plan	Council District:	
Neighborhood District:		Urban Village:	

This project funds energy efficiency work across City facilities, managed by the Office of Sustainability and Environment, in support the City's goal to achieve a 20% reduction in building energy use by the year 2020. OSE will implement a package of energy efficiency projects in 2015-2016, as well as continue a suite of O&M improvements, program management, measurement and tracking, and building assessments. The energy efficiency upgrades are expected to generate utility rebates paid by Seattle City Light and Puget Sound Energy, to be deposited into the General Subfund and shown here as future General Subfund revenue. This revenue is slated to support future General Subfund appropriation for additional energy conservation activities. Future appropriations of REET and rebate revenue will be based on identification of additional energy efficiency opportunities in subsequent phases of the program.

Neighborhood District:		Urban Village:	

This project provides for investment in more energy efficient building systems and other facility efficiency improvements. By making these investments the City expects future savings in utility and labor costs, and significant progress toward carbon neutrality. This program is intended to fund facility retrofit projects identified by energy audits conducted in 2010 (funded by the City's Energy Efficiency and Conservation Block Grant), and similar projects identified by the department. Depending on project demand and available funding, additional resources may be added in the future. Projects include but are not limited to review of the energy efficiency of a building and upgrades and/or replacement of mechanical equipment and distribution systems, electrical equipment and distribution systems, building envelopes (walls, windows, and roofs), lighting systems, plumbing equipment and distribution systems, and building controls systems.

Fire Station 08

BCL/Program Name:	Neighborhood Fire Stations	BCL/Program Code:	A1FL1
Project Type:	Rehabilitation or Restoration	Start Date:	Q3/2010
Project ID:	A1FL108	End Date:	Q1/2015
Location:	110 Lee St		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	7
Neighborhood District:	Magnolia/Queen Anne	Urban Village:	Not in an Urban Village

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, provides a seismic and safety upgrade for Fire Station 08 and makes minor functional improvements to the facility. The project also provides temporary quarters for firefighters while the fire station is under construction. The project protects firefighters in the event of an earthquake and allows them to provide high-quality emergency services to the Queen Anne community.

Fire Station 28

BCL/Program Name:	Neighborhood Fire Stations	BCL/Program Code:	A1FL1
Project Type:	Improved Facility	Start Date:	Q4/2009
Project ID:	A1FL128	End Date:	Q4/2016
Location:	5968 Rainier Ave S		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	2
Neighborhood District:	Southeast	Urban Village:	Not in an Urban Village

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, rebuilds Fire Station 28 and associated facilities on its existing site. The existing building is not seismically sound and is too small to support modern firefighting operations. The project ensures that firefighters will not be hurt in an earthquake and can continue to provide high-quality, modern emergency services to the Rainier Valley community.

Fire Station 29

BCL/Program Name:	Neighborhood Fire Stations	BCL/Program Code:	A1FL1
Project Type:	Rehabilitation or Restoration	Start Date:	Q2/2012
Project ID:	A1FL129	End Date:	Q1/2017
Location:	2139 Ferry Ave SW		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	1
Neighborhood District:	Southwest	Urban Village:	Not in an Urban Village

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, provides a seismic and safety upgrade for Fire Station 29 and makes minor functional improvements to the facility. It also provides temporary quarters for firefighters while the fire station is under construction. The project protects firefighters in the event of an earthquake and allows them to provide high-quality emergency services to the Admiral District community.

Fire Station 32

BCL/Program Name:	Neighborhood Fire Stations	BCL/Program Code:	A1FL1
Project Type:	Improved Facility	Start Date:	Q4/2010
Project ID:	A1FL132	End Date:	Q3/2017
Location:	3715 SW Alaska St		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	1
Neighborhood District:	Southwest	Urban Village:	West Seattle Junction

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, rebuilds Fire Station 32 in a three story structure at its existing site. It also provides temporary quarters for firefighters while the fire station is under construction. The existing Fire Station 32 is seismically vulnerable, and cannot feasibly be renovated to provide the space necessary to support modern firefighting equipment and emergency functions. The project protects firefighters in the event of an earthquake and allows them to provide high-quality emergency services to the West Seattle community.

MOB Repairs

BCL/Program Name:	General Government Facilities - Community-Based	BCL/Program Code:	A1GM2
Project Type:	Improved Facility	Start Date:	Q1/2013
Project ID:	A1GM207	End Date:	ONGOING
Location:			
Neighborhood Plan:	In more than one Plan	Council District:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This project provides critical, non-roof repairs at five of the City's Mutual and Offsetting Benefit (MOB) buildings. Work includes but is not limited to HVAC replacement and upgrades, electrical system replacement and upgrades, and plumbing replacement and upgrades.

North Precinct

BCL/Program Name:	Public Safety Facilities - Police	BCL/Program Code:	A1PS1
Project Type:	New Facility	Start Date:	Q1/2013
Project ID:	A1PS107	End Date:	Q1/2020
Location:	N 130th ST/Aurora AVE N		
Neighborhood Plan:	In more than one Plan	Council District:	5
Neighborhood District:	Northwest	Urban Village:	Bitter Lake Village

This project funds the acquisition of a site and the design and construction of a new North Precinct for the Seattle Police Department. This project enhances the public safety services provided by the Seattle Police Department and may include, but is not limited to, site acquisition, and the design and construction of a new facility with an attached multistory parking garage. The new facility may provide, but is not limited to, various support, administrative, and training space for police officers, a community meeting space, and a firing range.

Police Facilities

BCL/Program Name:	Public Safety Facilities - Police	BCL/Program Code:	A1PS1
Project Type:	Rehabilitation or Restoration	Start Date:	Q3/2005
Project ID:	A1PS101	End Date:	ONGOING
Location:	Various Police facilities		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	Multiple
Neighborhood District:	Not in a Neighborhood District	Urban Village:	Not in an Urban Village

This ongoing project preserves or extends the useful life or operational capacity and provides for improvements to FAS-owned Police facilities including, but not limited to, the East Precinct, the North Precinct, the Mounted Patrol Facility, the Harbor Patrol Facility, and the K-9 Facility. Typical work may include, but is not limited to, upgrades to heating, ventilation, air conditioning upgrades, equipment replacement, siting, pre-design, test-to-fit analyses, and structural assessments and repairs. These improvements support police service by extending the operational life of old police facilities, complying with regulatory requirements, or addressing capacity problems.

Neighborhood District:		Urban Village:	

The Seattle License Information System (SLIM) manages the issuance and renewal of business licenses and the collection of revenue from fees and taxes. SLIM is now outdated and can no longer adequately meet the needs of expanding business license, tax collection, and enforcement processes and needs to be upgraded. Recommendations for a SLIM replacement will be considered as the Multi-City Business License and Tax Portal project is implemented.

Seattle Municipal Tower IDF Infrastructure Upgrades

BCL/Program Name:	General Government Facilities - General	BCL/Program Code:	A1GM1
Project Type:	Improved Facility	Start Date:	Q1/2015
Project ID:	A1GM127	End Date:	Q4/2016
Location:	700 Fifth AVE		
Neighborhood Plan:	DUCPG (Downtown Urban Center Planning Group)	Council District:	3
Neighborhood District:	Downtown	Urban Village:	Commercial Core

This project provides electrical, cooling, and fire separation upgrades for 15 existing Intermediate Distribution Frame (network/telephone) rooms in the Seattle Municipal Tower (SMT). The resultant electrical and cooling capacity increases will allow the systems in the room (telephone, network, security) to be upgraded now (in the case of Voice over IP phones) and in the future. In addition to these capacity infrastructure upgrades, fire separations will be established for the rooms. This project will enhance the reliability of the systems housed in the IDF rooms by improving the infrastructure that serves them and protecting the rooms from potential damage caused by events outside of the rooms. This project is being coordinated with a Department of information Technology upgrade project and may require spending for design work to begin in 2015 in order to meet schedule needs.

2015 - 2020 Adopted Capital Improvement Program

Information Technology

Department of Information Technology

Overview

The Department of Information Technology (DoIT) builds, manages and maintains City government information technology infrastructure and systems used by City departments to serve constituents, including data, telephone and radio networks, website and Internet connections, television channels, data center facilities, servers, and storage. DoIT also manages and directs the development of designated projects on behalf of the City, other departments and other regional partners. DoIT's Capital Improvement Program (CIP) supports major maintenance, improvements, replacements and upgrades to the City's existing technology infrastructure and systems, as well as the development and implementation of new capacity and systems.

2015-2020 CIP Highlights

DoIT's Adopted CIP budget for 2015-2020 includes \$31.7 million in appropriations for 2015 with funding coming from various sources, including rate allocations to City departments and external partners, Cable Franchise Fees, accumulated reserve funds, bonds and grants. The Adopted CIP focuses on ensuring the continued reliability and operation of the City's technology tools and systems, maintaining technology and data security, improving staff efficiency and effectiveness, and helping make government more accessible, accountable, and transparent.

Citywide Information Technology Coordination

The Mayor has indicated that he would like DOIT to help review all IT projects throughout the City and develop a Citywide vision for how best to provide IT services. DOIT will be reaching out to all departments to develop a coordinated approach to reviewing, developing, approving and funding IT projects using multiple strategies and organizations. The Mayor's Office will chair a new IT Subcabinet executive group that will meet regularly to discuss IT strategy, direction and investments for the City, and will be staffed by the City's Chief Technology Officer. The IT Subcabinet will also identify opportunities to streamline and better coordinate the delivery of existing IT services throughout the City. In addition, DoIT will revise the City's Municipal IT Investment Evaluation (MITIE) committee, which will serve as a review and recommendation board for evaluating all major IT projects across the City.

Next Generation Data Center

In 2013, work began on moving the City's primary data center and other information technology infrastructure out of the Seattle Municipal Tower, as it no longer meets the City's IT needs. The City is shifting to a consolidated data center with a primary location in the Puget Sound region and a secondary recovery site outside the region to maximize options for data recovery in the event of a disaster.

In 2015, the project will build out the new facilities and relocate the City's IT systems into these facilities. As part of this process, an interdepartmental team is developing principles and governance rules for how departments will share network services, storage, management services and physical space in the new data center. The project budget includes resources for

Department of Information Technology

departments requiring additional or backfill staffing to complete their portion of the project. The project is anticipated to be completed by the end of 2015.

Computing Services Architecture

This ongoing program funds major maintenance and regular replacement of computing and storage equipment. It also addresses issues including the transition to cloud-based services, and in particular, the migration to Office 365, which will involve continuous upgrades and necessitate more frequent testing. A key initiative in 2016 is the acquisition of a new suite of technology testing tools to allow City IT organizations to address rapid technology changes in a more efficient and effective manner.

Data and Telephone Infrastructure

This ongoing program funds the maintenance, replacement, and upgrades of software and major hardware for the City's data and telephone systems. One key change in this area is the deferral of the replacement of the Interactive Voice Response System from 2016 to 2017, as the current IVR system continues to function well.

IT Security

In 2015-2016 various systems will receive upgrades and enhancements to meet the Payment Card Industry Security Standards required due to the City's increased number of credit card transactions. The City will need to demonstrate effective operation of stringent IT security controls.

Technology Management Tools

In 2015 there is a major initiative to replace the City's obsolete Incident Management and Change Management Systems that tracks help desk tickets and changes to the citywide technology environment. This upgrade will replace two systems with one system to allow DoIT to track problems in the City's information technology environment more efficiently.

Thematic Priorities

In addition to supporting Mayoral and Council goals for the City, DoIT has several thematic priorities which drive its work and consequently its operating and CIP budgets. These are:

- ***Use technology to make City government more accessible, accountable and transparent to the public.*** With the rapid growth in the Internet and the associated tech-savvy nature of the population, there is an increasing expectation that the City provide excellent customer service, making information and processes readily available via technology in near-to-real time. In addition, the City should leverage data sharing platforms to facilitate the provision of data to developers and other third parties who can develop innovative tools that benefit the public.
- ***Provide internal City customers innovative communication and information technology solutions that support effective and efficient services.*** A key part of DoIT's mission is to perform strategic planning for the City within the technology sector and to ensure that the City's technology investments move in sync with what is happening in the broader industry and world. This includes planning for and investing in key technology trends and emerging technologies as appropriate. Current areas of priority include:

Department of Information Technology

- **Ensure reliable maintenance and operation of the technology tools and systems supporting City departments' staff, missions, and services.** The reliable and continued operation of these systems is critical to the ability of City employees in all departments to perform their work. As such, a majority of DoIT's CIP supports asset preservation and keeping these tools and systems continuously operational.
- **Keep City technology and data safe, secure and compliant.** The increasing "computerization" of the City's information and operations has been paralleled by both similar growth in the threats and risks to those systems, as well as a growth in the laws and regulations associated with electronic data and systems. As a result, there is a steady increase in the need for investments related to security, privacy, and data protection to protect the City's resources and to facilitate compliance with legal, regulatory, and external requirements.
- **Improve efficiency and effectiveness.** From its earliest stages, the City has invested in technology to improve the efficiency and effectiveness of its staff in doing their jobs, and this continues to be a key driver for investments. In addition, some technology investments can result in monetary savings and/or the ability to stretch limited resources further, such as private and public cloud computing.

Revenue Sources

DoIT's CIP has been funded through a variety of revenue sources, including:

- **Rates and Allocations:** There are multiple services within the department that are allocated based on a percentage of use for the service provided. In addition, services are billed using a basis for the service billed. For example, time and materials, quantity of equipment and or actual costs. Costs for labor and materials in this category are also billed directly to projects supported by the department. DoIT's CIP also includes some future projects funded using proceeds from general obligation bonds. Rates and allocations provide the funds to repay the debt service on these bonds and have been an increasing percentage of DoIT's CIP funding in recent years.
- **State and Federal Grants:** Federal and state grants have been used to finance system replacements and new capabilities especially for the public safety departments. In some cases, DoIT has been the direct recipient of the funds, but in others DoIT has managed grant-funded projects for customers. The use of grant funding for the DoIT CIP has been intermittent.
- **Cable Franchise Fees:** DoIT collects Cable Franchise Fees that are set in franchise agreements with the cable provider. Some of this revenue has been used to fund the O&M CIP Program which supports the Seattle Channel. Cable Fees have historically provided a minor (<1%) portion of DoIT's CIP program.
- **Reserves:** In some instances, DoIT's rates and allocations include the collection of funds which are accumulated and held in a reserve in DoIT's Operating Fund balance. Currently this is only done for the 800MHz radio system, although it has been considered in other areas. Expenditures of these reserve funds appear in the CIP

Department of Information Technology

program. Historically there is a low level of spending for ongoing O&M items, with intermittent large expenditures associated with major replacements and upgrades.

- **Private Dollars:** Private funding contributions to capital projects. In the past, DoIT projects have occasionally included funding from external non-public sources. Such instances are highly intermittent, usually for relatively small dollar value and not projected to continue at any appreciable level.
- **Levy:** In the past, DoIT received some CIP funding from a Levy for the development, acquisition and installation of the 800 MHz emergency radio communication system. Going forward, the future replacement and upgrade of the countywide radio system will also involve a new levy, but no other levy funding is anticipated.
- **To Be Determined:** Occasionally, DoIT's adopted CIP includes future projects for which a specific funding source has yet to be specified. These projects will not go forward unless funding is secured.

Project Selection Criteria

DoIT uses a multi-step process to identify and prioritize projects for inclusion in their CIP.

STEP 1: Identification of Technology Needs and Opportunities

In this step, needs and opportunities for technology investments are identified. Information is drawn from a number of sources, including:

- The Citywide Enterprise Technology Multi-Year Strategic Plan
- Citywide technology roadmaps (updated annually)
- Customer requirements and requests
- Asset replacement schedules
- Coordination with partners (regional efforts, vendor partners, etc.)
- Special studies including the 2012 IT Efficiencies Study

This step includes development of initial cost estimates and other resource requirements, potential timing and dependencies.

STEP 2: Identification of CIP and Non-Discretionary Projects

In this step, items identified in Step 1 are filtered to determine if they are (1) CIP appropriate or not and (2) discretionary or not. Criteria for determining if they are CIP appropriate or not include:

- Overall dollar value
- Timeframe of implementation (e.g., multi-year project)
- Lifespan of investment
- Investment in and preservation of long-term infrastructure

Projects which are determined to be non-CIP in nature are moved over for consideration and ranking with other department BIPS as part of the normal budget cycle.

Criteria for determining if they are non-discretionary include:

- Legally mandated (e.g., debt service, federal or state law and regulation changes, court orders, etc.)
- Urgent security or risk mitigation needs (e.g., major system failure, major security breach)

Department of Information Technology

- Reimbursable services to others (e.g., DoIT manages a regional fiber consortium where the partners contract with DoIT for the work).

Projects which are determined to be non-discretionary are automatically included in the CIP and budget proposal. Discretionary projects proceed to Step 3.

STEP 3: Prioritization of CIP Appropriate Discretionary Projects

The projects remaining after Step 2 are then screened to determine if they are a match for DoIT's normal maintenance, upgrade and replacement programs within the CIP. Projects such as these tend to be smaller in scale (<\$250,000), "like for like" replacements (e.g., old equipment replaced by new equipment with little to no functionality change) etc. These projects are rated by program managers based on criteria tailored to each program and implemented as annual funding allows.

Larger capital projects which are best implemented on a stand-alone basis due to the size and complexity of the project are evaluated and ranked separately based on the following criteria:

- asset preservation/replacement/maintenance
- product lifecycles
- legal requirements/mandates
- security/risk mitigation
- reimbursable from other sources (other departments or outside entities, grants, reserves)
- leveraging opportunities
- dependencies (on other products, equipment, etc.; also on staff/resource availability/long-term supportability)
- internal customer demands (including capacity) – including Mayoral/Council priority
- external customer demands – citizens, businesses, etc.
- external drivers (vendor changes, regional commitments, etc.)
- efficiency/effectiveness improvements/resource savings/ROI
- key future trend/forward-looking/pro-active

The final result is a list of prioritized large capital projects which are included in DoIT's Adopted budget for inclusion in the CIP.

Summary of Upcoming Budget Issues and Challenges

DoIT's CIP has grown steadily over the past fifteen years and projects have been completed successfully within time and budget. Upcoming challenges for the CIP include:

- The City's growing dependency on IT requires an increasing commitment to fund the associated support and replacement costs. In addition, the continued rapid rate of change in technology presents a major challenge for the City. User demands (both internal staff and constituents) around technology continue to grow as available functionality expands.
- To achieve more efficiency and reduce costs as a City, future technology issues need to take into consideration how best to combine projects, approaches and efficiencies across the City. The Next Generation Data Center Project offers the opportunity to reduce or eliminate duplication in a number of areas.

Department of Information Technology

- The City should strive to offer a consistent and connected experience across its web, mobile and customer service hotlines to its citizens and customers. Regardless of which medium a user selects, they should be able to access their desired information and services using a single set of access credentials.
- The security risks associated with technology continue to grow - the variety of threats from mobile devices, social media, compromised web sites and other sources continues to multiply. Cloud services like Office 365 and the increased use of mobile devices offer a new set of security-related challenges.

Anticipated Operating Expenses Associated with Capital Funds

Operating expenses associated with DoIT's CIP projects are built into DoIT's operating budget. During the implementation phase of the Next Generation Data Center Project, DoIT will be operating both the existing data center facilities and the new facility simultaneously for an extended period. This will result in significantly increased operating costs for 2015. The anticipated operating costs are included in DoIT's 2015 Adopted and 2016 Endorsed Budget.

City Council Provisos to the CIP

There are no Council provisos.

800 MHz Radio Network Program

BCL/Program Name:	Technology Infrastructure	BCL/Program Code:	D3300
Project Type:	New Investment	Start Date:	Q1/2002
Project ID:	D3RNRS	End Date:	ONGOING
Location:	700 5th Ave / Various	Council District:	3
Neighborhood Plan:	Not in a Neighborhood Plan	Urban Village:	Commercial Core
Neighborhood District:	Downtown		

This project funds the upgrades and replacement of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system. The 800 MHz radio system provides the communication infrastructure required for public safety operations such as 911, Medic One, Fire and Police.

Seattle City Light

Capital Projects passing the \$5 million threshold with 2015 allocations (as Adopted in 2015 Adopted Budget/CIP):

Proj. ID	Project Title	Description	2015*	Location
6423	Diablo Powerhouse – Rebuild Generator Unit 32	This project rebuilds Generator 32 at Diablo Powerhouse, which provides 4.4 percent of the total power Seattle City Light generates.	\$12,295	Milepost 126 State Highway 20
6483	Diablo Facility – Lines Protection Upgrades	This project provides updated line protection schemes on the Diablo Facility D1, D2, & D3 lines, utilizing electro-mechanical relays.	\$1,630	Milepost 126 State Highway 20
6493	Boundary Switchyard – Generator Step-up Transformers	This project replaces existing step-up transformers at Boundary Dam, which are 50 years old and have exceeded their reliable service life.	\$5,165	10382 Boundary Rd, Metaline WA, 99153
6541	Ross Powerhouse – Replace Transformer Banks 42 and 44	This project will fund the design and installation of two new step-up power transformer banks at Ross Powerhouse to replace 60 year old units which have exceeded their useful lives and have shown indications of failure.	\$7,713	Milepost 128 State Highway 20
6987	Boundary – Licensing Mitigation	This ongoing project implements required Protection, Mitigation and Enhancement measures.	\$19,246	10382 Boundary Rd, Metaline WA, 99153
8426	Advanced Metering Infrastructure	This project replaces approximately 400,000 existing meters with Smart Meters allowing two-way communication between Seattle City Light and its customers.	\$21,660	Citywide
8427	Sound Transit Northlink – City Light	This project will manage utility relocations and feeder construction needed for Sound Transit to build the North Link light rail line to Northgate.	\$940	University District / Roosevelt / Northgate
8460	Streetlight Infrastructure Replacement	This ongoing project will replace 33% of the highest priority streetlights and related underground infrastructure identified in the Streetlight Horizon Plan.	\$3,009	Citywide

*Amounts in thousands of dollars

2015 - 2020 Adopted Capital Improvement Program

Seattle City Light

Capital Projects passing the \$5 million threshold with 2015 allocations (as Adopted in 2015 Adopted Budget/CIP):

Proj. ID	Project Title	Description	2015* Location
8465	Broadband – City Light	This project provides support for expansion of broadband service to the entire City and involves the installation of approximately 200-250 miles of fiber optic cable.	\$2,529 Citywide
9933	Enterprise Performance Management	This project implements a business intelligence system for City Light.	\$550 System Wide

Seattle Public Utilities

Capital Projects passing the \$5 million threshold with 2015 allocations (as Adopted in 2015 Adopted Budget/CIP):

Proj. ID	Project Title	Capacity	2015* Location
C3333	Venema Creek Natural Drainage System	This project provides stormwater flow control and water quality treatment using a Natural Drainage System approach within the Venema Creek sub basin of Pipers Creek.	\$2,142 1 st and 2 nd Ave NW / NW 120 th St / NW 122 nd St

**Amounts in thousands of dollars*

1% for Art: A program administered by the Office of Arts and Culture (OAC) that sets aside one percent of City capital improvement project funds for the commission, purchase, and installation of artwork.

2000 Parks Levy (“Neighborhood Parks, Green Spaces, Trails, and Zoo Levy”): A \$198.2 million, eight-year levy lid lift passed by Seattle voters in November 2000. The levy is designed to fund more than 100 park, open space, and recreation projects throughout the city.

2008 Parks Levy (“Parks and Green Spaces Levy”): A \$145.5 million, six-year levy lid lift passed by Seattle voters in November 2008. The levy is designed to fund park and green space acquisition, capital expansion and renovation of parks, and park facilities throughout the city.

Americans with Disabilities Act (ADA): A comprehensive civil rights law for people with disabilities, passed by the federal government in 1990.

Allocation: The expenditure amount planned for a particular project or service that requires additional legislative action, or “appropriation,” before expenditures are authorized.

Appropriation: A legal authorization granted by the City’s legislative authority (the City Council) to make expenditures and incur obligations for specific purposes.

Asset Preservation (also known as “Major Maintenance”): Capital improvement projects that involve major repairs or rehabilitation of existing City facilities.

Bridging the Gap (BTG): A nine-year transportation funding initiative to repair and improve Seattle’s streets, bike trails, sidewalks, and bridges. The program raises approximately \$545 million from 2007-2015 from a commercial parking tax, an employee hours tax (repealed at the beginning of 2010), and a \$365 million nine year levy lid lift approved by voters in November 2006 for transportation maintenance and improvement.

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City’s budget for certain capital purposes, such as street improvements, building construction, and some types of facility maintenance. The CIP is a six-year allocation plan presented as a document separate from the Budget, that details all projects, fund sources, and expenditure amounts, including many multi-year projects that require funding beyond the one-year period of the annual Budget.

Capital Projects Funds: Funds with resources set aside to acquire or construct major capital facilities that allow the monitoring of revenues and expenditures of authorized voter approved and Councilmanic bonds and levies.

Community Development Block Grant (CDBG): An annual grant to Seattle and other local governments from the U.S. Department of Housing and Urban Development (HUD) to support economic development projects, housing and services in low-income neighborhoods.

Comprehensive Drainage Plan: A Citywide drainage management program for capital improvements and ongoing maintenance. It establishes a monitoring program and identifies measures to control flooding and pollution, such as regulatory controls and public education.

Cumulative Reserve Subfund (CRS): A significant source of ongoing local funding to support capital projects in general government departments. The CRS consists of two accounts: the “Capital Projects Account” and the “Revenue Stabilization Account.” The Capital Projects Account has seven subaccounts: REET I, REET II, Unrestricted, South Lake Union Property Proceeds, Street Vacation, Asset Preservation and the Bluefield Preservation fund. The Real Estate Excise Tax (REET) is levied on all sales of real estate with the first .25% of the locally imposed tax going to REET I and the second .25% for REET II.

Design Build Operate (DBO): A non-conventional approach to implementation of major capital projects, wherein a single vendor is responsible for design, construction, and long-term operation of a facility.

Debt Service: Annual principal and interest payments that local government owes on money that it has borrowed.

Endangered Species Act (ESA): Legislation passed by the federal government in 1973 to conserve the ecosystems upon which endangered species depend upon, and to conserve and recover listed species.

Fire Facilities and Emergency Response Levy: A \$167 million, eight-year levy lid lift, approved by voters on November 4, 2003. The Levy includes funds for more than 40 projects to upgrade, renovate, or replace most of the City’s fire stations, construct new support facilities for the Fire Department, construct a new Emergency Operations Center and Fire Alarm Center, procure two new fireboats and rehabilitate an existing one.

Fund Balance: The difference between the assets and liabilities of a particular fund. This incorporates the difference between the revenues and expenditures each year.

General Subfund (also known as General Fund): A central fund into which most of the City’s general tax revenues and discretionary resources are pooled, allocated to support many of the operations of City government. General Subfund dollars appear in the CIP in two places: the General Subfund contribution to the Cumulative Reserve Subfund (if any), and appropriations to capital projects from a department’s operating budget.

Geographic Information System (GIS): A tool that enables users to analyze and understand the spatial relationships among things that exist and occur in a given location. The results of geographic analysis can be communicated with maps and/or reports.

Growth Management Act (GMA): Passed by the legislature in 1990, the Growth Management Act encourages strategic land use planning and provides protection for environmentally sensitive areas.

Habitat Conservation Plan (HCP): A 50-year commitment by the City and its Seattle Public Utilities to protect and restore the Cedar River Watershed.

Leadership in Energy and Environmental Design (LEED): A green building rating system for new and existing commercial, institutional, and multi-family residential buildings that evaluates environmental performance from a “whole building” perspective. There are four rating levels: Bronze, Silver, Gold, and Platinum.

Glossary

Levy Lid Lift: An increase in regular property taxes for a general or designated purpose (See 2008 Parks Levy and Bridging the Gap for examples).

Limited Tax General Obligation (“LTGO,” or “Councilmanic”) Bonds: Bonds that are issued by the City Council without voter approval. The debt service on these bonds is typically repaid from existing general government revenues or from revenues generated by the project(s) financed with the bonds.

Major Maintenance: See “Asset Preservation” above.

Municipal Art Plan: A plan prepared by the Office of Arts and Culture that establishes budgets for new 1% for Art program projects and describes the status of existing projects.

Neighborhood Matching Subfund (NMF): A fund administered by the Department of Neighborhoods to provide money to Seattle neighborhood groups and organizations for neighborhood-initiated improvement, organizing, or planning projects. The community’s contribution of volunteer labor, materials, professional services or cash is “matched” by cash from the fund.

Operating Budget: The portion of a budget that deals with recurring expenditures, such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

Public Works Trust Fund: A low-interest state revolving loan fund designed to help local governments with the repair, replacement, and rehabilitation of public works infrastructure.

REET I and REET II: The Real Estate Excise Tax (REET) is levied on all sales of real estate with the first .25% of the locally imposed tax going to REET I and the second .25% for REET II.

Unlimited Tax General Obligation (“UTGO” or “voted”) Bonds: Bonds issued after receiving approval by 60% of the voters in an election with at least a 40% turn-out. The debt service on these bonds is repaid from additional (“excess”) property tax revenues that voters approve as part of the bond measure.
